

birdsbesafe[®] Cat Collar Cover

Scientifically
Proven To
Save Birds

INSTRUCTIONS:

Insert a cat collar inside the cover. Buckle both parts onto the cat. (Please use a breakaway-buckled style collar.)

FIT:

Leave 1/2 inch of free space, so it's not too tight. Check the collar's fit and comfort weekly.

WEAR:

Your cat can wear it just when outdoors or indoors, too. Cotton, except trim. Washable.

TIPS:

For the first use, keep your cat in one room with you to test fit and comfort. If the cat seems upset, remove product. Try again later. Most cats will adapt after a few tries. Praise your cat or give them a treat, to encourage acceptance of the new collar.

Saves birds!

We help "birds be safe" from cats. Please, join us on social media. Thank you for caring about cats and birds!

Innovative Product is Highly Effective at Protecting Birds!

We invented a new way to protect birds! Songbirds have special color vision, making bright colors easily seen at a distance.

The Birdsbesafe collar cover alerts birds to a cat's stealthy presence. Seeing the threat, most birds quickly fly away to safety.

U.S. scientific field study showed an 87% reduction in birds caught when cats wear it.

- ✓ Highly effective, easy to use, and comfortable.
- ✓ Works well, even for very skilled hunters.
- ✓ Well-researched colors and patterns. Trusted brand with over 10 years of helping protect birds.
- ✓ Use with a breakaway cat collar inside this tubular collar cover. Both release for your cat's safety.
- ✓ Reflective trim helps make cat visible to cars.
