1870 Logistics & Storage Cage with Single Point Castor Lock

This patented unit includes a foot brake which automatically locks the castors! No longer do you need to individually lock/unlock separate castors – A huge efficiency saving!

This patented, world first design brings a new exciting concept to many industries including warehousing, manufacturing, processing & transport. The special design allows this unit to be stored on pallet racking with castors due to its unique base design and castor locking system.

This unit has optional adjustable shelves, which can be adjusted in 50mm increments!

From general transport to assisting in flow of goods through processing plants this unit has the ability to change many processes across multiple industries.

- 2 swing access gates
- Single point castor locking
- Suitable for pallet racking with positive locking base design
- Adjustable shelves adjust in 50mm increments
- 4-way forklift access
- Anti-tipping bars
- Zinc plated finish
- Padlockable

750mm High Ultimate Site Box

The ultimate site box is stackable, lockable, weather resistant, dust resistant and pallet rack safe! This box has been designed specifically for outdoor storage of equipment and materials and is often used for separating job lots making it extremely useful for central warehouses, shutdowns etc. These units are very useful when indoor storage space is limited as it allows you to store excess stock or equipment outside.

It's unique pallet rack positive locking foot design, ensures it can be safely stored on pallet racking and a WLL of 1090kg ensures this box is suited to heavy duty applications. The lid is opened by lifting the handle and is made easy with 2 gas struts.

- Stackable & lockable
- Weather & dust resistant
- 4-way forklift access
- Base design ensures it can't slide off pallet racking

Order Code	Description	Dimensions (mm)	WLL (UDL)
CUSB-750	750 Ultimate Site Box	1160 x 1160 x 750 High	1090Kg stacked 4 high

1140mm High Ultimate Site Box

This box is ideal for storage and transport of equipment and materials. This box is also designed for transporting your gear around site or in freight loops. This site box is stackable, lockable, weather/dust resistant and pallet rack safe! Ideal for separating job lots making it extremely useful for central warehouses, shutdowns etc. These units are very useful when indoor storage space is limited as it allows you to store excess stock or equipment outside.

It's unique pallet rack positive locking foot design, ensures it can be safely stored on pallet racking.

- Stackable & lockable
- Weather & dust resistant
- 4-way forklift access
- Base design ensures it can't slide off pallet racking

CHAIN OF RESPONSIBILITY (COR)

The aim of COR is to make sure everyone in the supply chain shares responsibility for ensuring breaches of the HVNL do not occur. Under COR laws if you are named as a party in the chain of responsibility and you exercise (or have the capability of exercising) control or influence over any transport task, you have a responsibility to ensure the HVNL is complied with.

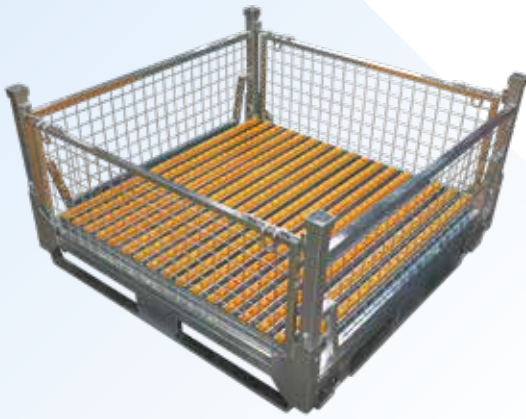

The law recognises that multiple parties may be responsible for offences committed by the drivers and operators of heavy vehicles. A person may be a party in the supply chain in more than one way. For example they may have duties as the employer, the operator and the consigner of goods.

Contact us today to discuss how we might be able to improve your compliance.

OTHER SIZES AVAILABLE

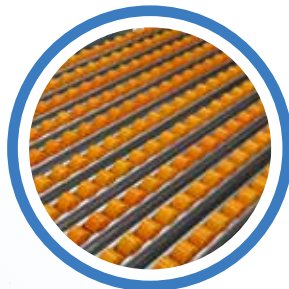

Battery Storage & Handling Cages

These Battery Storage & Handling Cages are ideal for safe handling and picking of your batteries. The rollers allow safe and easy handling of batteries, and makes movement of batteries from the cage onto your lift table trolley safer than has previously been able. These units include our unique world first positive locking base design which ensure extra safe storage on pallet racking. We also have banded options for safe containment of batteries if you don't already have this available, talk to our team about this today.

- Stackable
- Pallet rack safe – Unique positive locking base design

Outdoor Battery Storage Box

This heavy duty outdoor storage box has been designed for storage of batteries on pallets. The extra large size allows standard Australian footprint pallets to be forklifted directly into the box. This box has front & rear doors allowing easy access and the base has a bund for catching of any spills that occur.

As noted on the exterior of the box, this is for storage only and is not allowed for charging applications under any circumstances.

- Powdercoat finish
- Lockable
- Front & Rear Access Doors
- Weather & Dust Resistant
- Spill tray with fibreglass grating
- Top and bottom vent locations
- Fits Standard Australian pallet footprint inside
- 4-way forklift access
- Anti-tipping bars

Order Code	Description	Dimensions (mm)	WLL (UDL)
CBB-1450	Outdoor Battery Storage Box	1450 x 1450 x 1250H	1000Kg

Drum Secure Pallet System

This patented drum secure pallet system is another of our world first designs. The problem of securing drums on pallets and the time consuming strapping process every time 1 drum is pulled off a pallet has now been solved!

This heavy duty unit is extremely stable and can safely store and transport from 1-4 x 205L Drums at a time. The safety straps are easy to tighten and undo and ensure that the drums are safely secured.

- Easy to strap & unstrap drums
- Powdercoat finish
- Available with or without a hardwood pallet
- Heavy duty stable design
- Eliminates drum strapping & wrapping issues

Order Code	Description

Pallet Store Organiser

The pallet store organiser is ideal for storing pallets safely and keeping your workplace looking clean and organised.

- Stores 15 standard Australian pallets
- Enclosed on 3 side with open front for easy loading
- Duralgal SHS construction

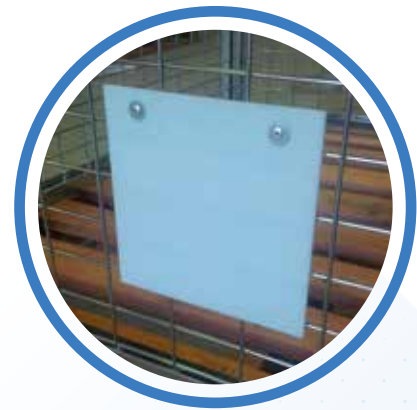

Order Code	Description	Dimensions (mm) W x D x H
CPS-2400	Pallet Store Organiser	1350 x 1350 x 2400mm High

Cages/Boxes Identification Plates

We have a range of standard card holders and whiteboard plates to be fixed to your pallet cages or boxes. In addition to our standard options we can also custom make identification solutions to suit your pallet cage or box. From laser cut plates, serial number plates or personalized weather covers we can assist.

Order Code	Description
CWBP-2020	200 x 200mm White Plate for Writing on with Whiteboard Markers
CARD-H	Card Holder to fit 1 Half A4 Size Card Clips over Pallet Cage Mesh

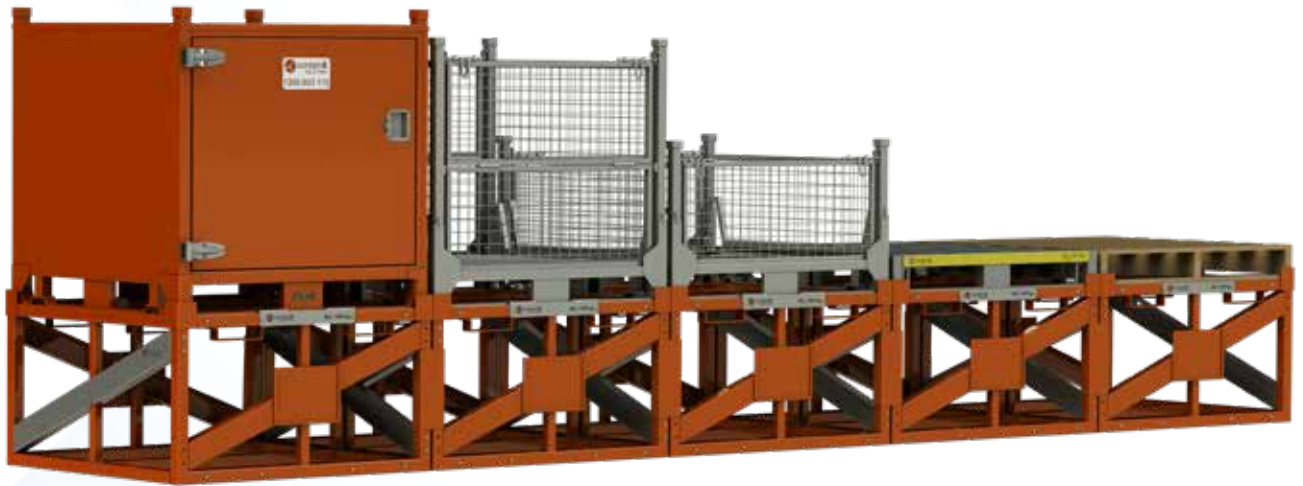

Kitting Stand System

Our kitting stand system allows Containit 1158 series cages and 1160 series boxes as well as standard 1165 Australian pallets to be elevated to a more ergonomic loading and unloading height. This modular system can allow multiple units to be connected together in a systematic way allowing for an organised workplace layout. This engineered solution means you no longer have to use unsafe methods to elevate your pallet sized equipment.

Order Code	Description	Dimensions (mm)	WLL (UDL)
CKSS-1500	Kitting Stand	1185 x 1185 x 680H	1500Kg

Pallet Dolly

Our pallet dolly has been designed for ergonomic movement of standard 1165 Australian pallets as well as our 1160 sites boxes and 1158 pallet cage series. The single point castor lock allows simple usage whilst the low profile design allows maximum flexibility for storage locations including potentially even under your pallet racking.

Order Code	Description	Dimensions (mm)	WLL (UDL)
CPD-1350	Pallet Dolly	1191 x 1197 x 253H	1350Kg
