Revised January 29, 2019

Bogert Aviation Rockwell Aero Commander Jack Pad Instruction Manual

# Rockwell Aero Commander 500 & 600 Series Jack Pads

Aircraft Manufacturer: Rockwell Commander – Aero Commander

Model Name: Aero Commander

Model Number: 500 Series, 680 Series, 690 Series

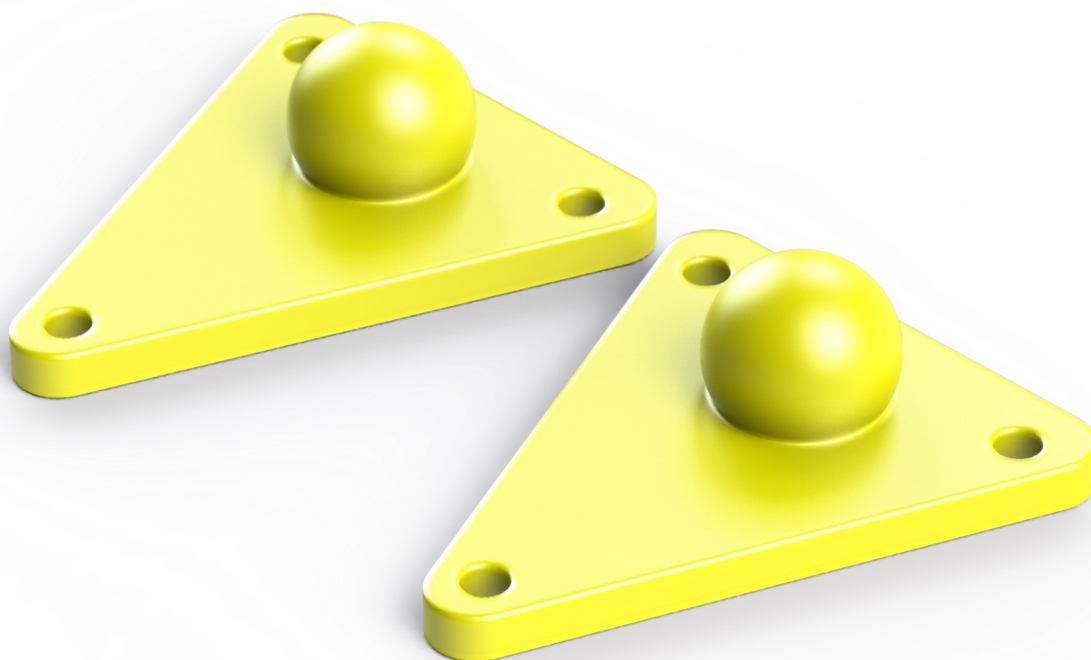

Bogert Aviation Part Number : 30M-AC500 Rockwell Commander PN 2170017-7

These jack pads are patterned after the PN 217001707 Jack pads produced for the 500 and 600 series high wing Aero Commander aircraft. These jack pads are attached with screws to the wing jack points. The pads are triangular in shape and feature a 1 inch diameter jack point that is compatible with most wing jacks for this type of aircraft.

- 1” Ball Socket
- Made in USA
- Sold as Pair

**Follow Aircraft Service Manual for jacking instructions.**

Model Number	Qty	Description
30M-AC500	2	Rockwell Aero Commander 500/600 Series Jack Pads

The warnings, precautions, and instructions discussed in this manual cannot cover all possible conditions and situations that may occur. The operator must understand that common sense and caution are factors, which cannot be built into this product, but must be supplied by the operator.

**Cautions:**

- Support the axle anytime the wheel is removed with a suitable axle stand or blocking. (Bogert Aviation 17M-LGSS, Landing Gear Safety Stand)
- Do not allow anyone to climb on or get into the aircraft while supported by a jack.
- “WARNING” Study, understand and follow all instructions before operating this device.
- Lifting device only.
- Immediately after lifting, support aircraft with appropriate means.
- Do not exceed rated capacity. Use only on hard, level surfaces capable of sustaining rated capacity loads.
- Lift only on those areas of the vehicle as specified by the vehicle manufacturer.
- Ensure that the lift point is properly centered on the jack saddle.
- Always wear safety glasses when using this equipment.
