Each year, the clever team at Chef'n creates products that save you time in the kitchen, help you with meal prep, and let you have fun at the same time. If we may say so ourselves, our 2021 launch achieves all of the above—and then some!

We're introducing tools that are practical like our new and improved Herbicle, which freezes and preserves fresh herbs, so you don't waste an entire bunch of parsley; and our SleekSlice, a mandoline with a clear base so you can see just how many fruits and veggies you've prepared.

But we haven't forgotten how to have fun—our S'mores Roaster is the perfect way to enjoy a delicious, time-honored camping tradition, without setting up a full camp. And our Hot Chocolate Pot + Frothing Whisk will have the entire family cozied up on the couch with a delicious hot mug of rich, warm chocolate. (And hey, don't shy away from an adult bevy; a splash of bourbon may do just the trick!)

Whether you're feeling more health nut or fungi, more spooky or sweet, we've got the gadget for you. Let's dig in!

The power is yours

Did you know that composting your kitchen scraps is an incredibly easy way to give back to the environment? By simply ensuring your fruit and veggie odds and ends reach soil instead of a landfill, you're enriching the earth and helping plants grow. Luckily, our latest Compost Bin is here to help make it easy. It can be used with or without a bag, and is easy to carry, open, and empty, all one handed. Captain Planet would be so proud!

Keep your herbs superb!

There's nothing worse than buying a bunch of fresh parsley or cilantro, only using a few leaves, then inevitably discarding the rest. Enter our Herbcicle! With this handy tool, you can freeze and preserve your fresh herbs, so when your next meal comes calling, you'll be ready to answer. ("Hello, Dinner? It's me, will you be on thyme? Rosemary and I are ready!") And, it comes with a grater, so you can thaw the exact amount you need. Leftover herbs? Superb!

Peanut-butter- jelly-time

Does this ever happen to you: You purchase a jar of natural peanut butter, only to become increasingly frustrated when you can't get the oil and butter to mix well together? If so, meet our Peanut Butter Stirrer. This tool fits on 16oz and 26oz glass and plastic jars, keeps the oil contained while stirring, and keeps the peanut butter in the jar—not on your countertops!

Romaine calm and lettuce help

Our combination Salad Chopper + Spinner is ideal for anyone tired of washing multiple dishes night after night—you can easily chop and rinse in the same container! Chop your leafy greens first, using classic Chef'n innovation, then place into the colander, rinse, and pull the handle repeatedly until your greens are dry. Please beleaf us—it's that simple!

*May the FreshForce
be with you*

*Calling all fungi
fanatics!*

Our FreshForce technology continues to evolve—from squeezing out citrus juice to ricing potatoes and pressing garlic, we now introduce our FreshForce Handheld Slicer! This gadget easily and quickly slices soft foods: mushrooms, strawberries, kiwis, avocados, even hard-boiled eggs. The dual-gear mechanism makes prepping your favorite snacks and ingredients a breeze.

If you're a mushroom lover like us, this is the tool for you! A combination corer and brush, you can gently sweep away any excess dirt before removing the stem from the cap with the corer. Perfect for stuffing mushrooms with parmesan, garlic, breadcrumbs, spinach, crab... All this shroom talk is making us hungry. Meet ya in the kitchen!

I spy the perfect slice!

Slicing up your fruits and veggies can be dicey in the best of circumstances—your blade may be too dull or too sharp, you can't see exactly what you're doing, you don't know how much you've sliced, and on, and on. Our SleekSlice is here to save the day! With a clear slicing deck, you can see exactly what and how much you're slicing. Plus, it comes with a sharp blade and hand guard, so your produce will be evenly sliced while your fingers stay perfectly safe. What's the old adage? "Cut once, measure twice, always use our SleekSlice!"

*Trick or treat,
our tools are neat,
give us something
good to eat!*

Whether you prefer carving a spooky witch or a smiling jack-o'-lantern everyone can agree—you need the right tools for pumpkin carving. Our Nesting Pumpkin Set will be the perfect addition this fall: It comes with a saw for cutting through that tough pumpkin skin, a scraper to wrestle the pumpkin meat from its walls, and a scoop for removing pulp and seeds. Hocus Pocus, time to focus and carve your best pumpkin yet!

NEW

Warm up and whisk away

There's nothing better than a cold winter's day, when you've bundled up your loved ones, gathered together on the couch under blankets, and made some delicious homemade hot chocolate. Our new Hot Chocolate Pot makes it easier than ever, and comes with a whisk for frothing. Add some marshmallows and a sprinkle of sea salt or cinnamon, and you're ready for a perfectly cozy afternoon. Or, add some bourbon or whiskey for an extra kick, and you're ready for a perfectly merry evening!

She sells stretched sweets by the seashore

Who's ready for a day at the beach? While we can't actually transport you to a seaside complete with a sandy boardwalk, we can offer you the next best thing—a Pulled Candy Machine! Your taffy cravings will be sated when you discover how fun it is to make at home. What's more, it's endlessly customizable: Add almond or vanilla extract, power up with sea salt, make it hot pink, add just a splash of yellow food coloring. Whatever the flavor, you'll be sure to savor your homemade sweets.

*Scores of s'mores
could be yours*

Ahh, the smell of sweet marshmallows toasting over a flame, mixed with warming chocolate, snuggled up together on a cracker... Thankfully, you don't have to drive into the woods for a classic s'more anymore; our S'mores Roaster brings your favorite thing about camping right to your home! Safe to use both inside and out, this time-honored pastime has never been easier to make. Fun Fact: The largest s'more ever made was 267 pounds! We don't think you should try this at home.. but we won't stop you.

Keep calm and hot chocolate bomb

Have you seen the latest craze? We have and we are IN—Hot Chocolate Bombs! Using our mold, make two halves of a circle, toss in your favorite hot cocoa mix, and seal it up using melted chocolate. When you're ready, drop it into a glass of warm milk and watch as your hot chocolate comes to flavorful life! (Take this drink from day to night by adding a healthy glug, pour, or splash of your favorite liqueur—we won't judge!)
