Your investment, will in turn, pay in conserving fresher, longer lasting foods and produce less food waste for you and your family.*

*Please take a few minutes to read through the use and care of your Vacuum Storage Containers.*

# HOW TO USE

---

## UNBOXING

Once you receive your Platinum Vacuum Storage Containers, please register your lifetime warranty online by visiting [www.platinumcookware.com/warranty](http://www.platinumcookware.com/warranty), so we can continue to make sure you have an exceptional product experience for generations to come.

Before first use, remove all packaging and labels. Wash your new Platinum Vacuum Storage Containers with warm soapy water.

## USAGE

Seal in food freshness for storage in the fridge, pantry, or on the go! Platinum Vacuum Sealed Containers allow you to enjoy the convenience and benefits of storing food, conserving leftovers, and minimizing food waste. To use Vacuum Storage Containers, press down on pump knob to remove air. It usually takes 10-15 pumps to remove the air out of the 1 LTR vacuum container. Press and turn to the right completely for Vacuum Lock; the arrow indicates Vacuum Lock. To release, turn left and push the black button to release vacuum. The Platinum Vacuum Storage Containers are also stackable to maximize countertop, cupboard and kitchen space. Durable materials resist thermal shock and cracking.

The Vacuum Storage Container comes in several sizes, such as: 500ml (0.5 quart), 1000ml (1 quart), 1000ml (1 quart/rectangular), 2000ml (2 quart/rectangular), 3200ml (3.5 quart). You can purchase different sizes from your preferred Platinum dealer. See back for visual instruction details.

## CLEANING & CARE

All containers and lids can be safely washed in the dishwasher. You can also use hot soapy water and a scour scrub sponge to clean container and lids. Make sure you rinse well and dry thoroughly for long lasting care.

Each container is heat-resistant for reheating in microwave oven. However, the lids are not microwave safe since the lids have a stainless steel pump. With Platinum Vacuum Storage Containers you can keep food fresh much longer, save food cost, reduce food waste and enjoy convenient dishwashing.

## FEATURES/BENEFITS

- BPA free SAN/ABS plastic material protects your food from harmful chemicals
- High-strength vacuum pump protects food from dehydration and freezer burn
- Stackable containers to maximize kitchen space
- Stainless steel pump knob is conveniently built into lid so it can never be misplaced

# EASY TO USE

---

Here are four easy steps on how to use your Platinum Vacuum Storage Containers.

## STEP 1

Use pump enough to remove air. We recommend 10-15 pumps per one liter.

## STEP 2

**Press and turn the pump knob to the right to completely provide Vacuum Lock;** the arrow indicates Vacuum Lock.

*Tip: Check the silicone to ensure that it is clean. If it has dirt or coffee powder, remove it or wash the silicone.*

## STEP 3

**Turn the knob to the left and push the black button** to release vacuum, when you are ready to enjoy or reheat container contents.

## STEP 4

In usage, all containers are microwave safe. Post usage, all containers and lids are dishwasher safe.
