OUR STORY

It All Started With Sun Care

Our founder, renowned Dermatologic oncologist Dr. Robert J. Friedman, believed that protecting skin from UV rays and environmental stressors every day was at the center of our overall wellness. So, he set out to reinvent, elevate, and inspire the daily use of SPF by developing clean, effective formulas equal to clinical grade skincare — that also felt luxurious enough to wear every day.

Today, we remain true to our founding philosophy, yet continue to evolve to meet the changing needs of consumers and our environment. Our groundbreaking products are still at the forefront of SPF Skincare — proving that skin care is sun care and should be a part of your daily routine.
