Co-Chairs' Letter

2017 was a year of growth, not only through the expansion of our Sophie's Place spaces at Sutter Children's Center and Lucille Packard Children's Hospital, but also through our collaboration with DeBartolo Holdings in opening a new 8 to 80 Zone in Hawaii and the renovation of the Forever Young Zone at Lucille Packard Children's.

Forever Young continues to be a family nonprofit. Barb and I share a deep-rooted belief in humanity ... in the goodness of others. We do our best to surround ourselves with like-minded "doers" and continue to share a synchronicity in realizing our foundation's role in service and giving through the guidance of Forever Young's executive director, Sterling Tanner. Sterling understands our desire to serve while ensuring our foundation is sustainable and transparent as we pursue its ever-evolving mission. He, along with our focused team, allows our family to move forward with intentional action.

As we continue to grow, it is increasingly clear how valuable our sponsors' support and feedback have been to our integrated systemic changes. We are in this together, and 2018 looks to be another year of groundbreaking achievement – progress made possible by your continued support.

Thank you,

Barb & Steve Young

FOREVER YOUNG INSTITUTE

Forever Young Foundation has partnered with the Arbinger Institute, a leader in management training and team building, to provide a year-long training for nonprofit leaders. Participants learn how to develop, implement, and update a one year operating plan and a three year long range strategic business plan; hold themselves accountable to their contributors; and keep board members, staff, and volunteers focused on achieving results. Through underwriting from Forever Young Foundation, private donors, and corporations, this training is offered at minimal cost to nonprofit leaders seeking to ensure the sustainability of their organizations for years to come. Since its inception in 2010, more than 250 nonprofits have participated, including 22 in 2017.

ENGAGE NOW AFRICA

Forever Young's charitable efforts in Africa are administered through the African NGO, Engage Now Africa. Created by Lynette and Bob Gay in 2002, Engage Now Africa is committed to fighting poverty, illiteracy, and disease. The ENA mission is to heal, rescue, and lift those living in Africa through the funding and building of schools, microcredit loans, and providing humanitarian assistance.

Forever Young Foundation and Engage Now Africa are empowering Africans to address their challenges with sustainable solutions.

SOPHIE'S PLACE is a dedicated music therapy space built in children's hospitals — providing treatment for young people suffering from pain, chronic illness, and serious injury. While most people know music has an extraordinary power to bring comfort and peace to the soul, clinical studies have proven that music therapy offers a new evidence-based, integrative medical approach in treating young hospital patients.

Music Changes Everything!

HOSPITAL FOREVER YOUNG ZONES are recreational rooms created to provide opportunities to exercise the imagination of seriously ill children who face emotional and physical challenges. These Zones provide a safe space where staff can build supportive relationships with children and teens to help them in their recovery. They provide a sanctuary where children working through serious illness and rigorous treatments can relax, play, and just be kids.

MULTIMEDIA FOREVER YOUNG ZONES are spaces built with a state-of-the-art radio, TV, film, and design studios, as well as a professional-quality recording studio with isolated vocal booths and digital audio mixing boards. The goal of these Zones is to put advanced technological tools into the hands of creative young people, allowing them to develop their own artistic expression while preparing them for careers in media and design.

8 TO 80 ZONES are a collaborative effort between Steve Young and Jerry Rice to provide youth living in underserved communities the skills to pursue careers in technology and media. 8 to 80 Zones not only allow for artistic expression but also afford students the opportunity to gain training on industry standard equipment in the areas of television, radio, voice recording, and graphic design. These Zones also provide additional fundraising opportunities for each center.
