# A B O U T U S

## MADE IN THE USA: 20 YEARS TRANSFORMING OUTDOOR LIVING

Natures Composites was founded in Wyoming nearly two decades ago with a vision to develop sustainable products that look better, last longer, and cost less than traditional outdoor materials. With an unwavering commitment to environmental responsibility, we embarked on a mission to develop a proprietary sustainable composite formula utilizing wheat straw, a by-product derived from wheat grain harvesting. Our primary goal is to harness the abundant annually renewable materials found throughout the USA, offering an eco-friendly alternative to wood in conventional composite materials, commonly known as WPC (Wood Plastic Composites).

# B E T T E R T H A N W O O D

## Environmentally Friendly

- Our patented formula is based on wheat straw, a by-product of wheat harvesting, with high density polyethylene (HDPE), a safer, longer lasting plastic alternative.
- Wheat straw has limited nutritional value for animal feed, leading to substantial waste during annual production.
- Compared to wood pickets, where a percentage of material is not usable, 100% of NC pickets are usable.

## Low Maintenance

- Our mono composite pre-finished formula requires no seasonal painting, staining or sealing.
- HDPE acts as a water shield to help resist moisture absorption without leaching.
- Composite pickets are insect-free due to their composition coupled with potential chemical treatments.
- No need for harsh cleaners. Clean with soap and warm water.

## Easy-to-Use

- Available in dog ear and square top.
- Installs, cuts and screws just like wood, with standard wood working tools.
- Our boards can be trimmed without compromising the integrity of the picket, as color and sealant goes all the way through the board.
- Unlike other WPC products, our pickets require no pre-drilling.

## Durable

- Unlike wood, will not splinter, rot or crack over time due to sun exposure and weather changes.
- Engineered to have long-lasting color, a textured finish and non-reflective surface
- Stronger and 33% lighter in weight than competitors.
- 25 Year Warranty.

M O D E R N F E N C I N G

READY-TO-INSTALL AND  
ENGINEERED TO MAKE YOUR  
LIFE EASIER.

This patented system, with a wind rating of 100 mph (Category 1 Hurricane Wind 74-95 mph on the Saffir Simpson Hurricane Wind Scale), and STC rated at 24 by Intertek USA (suggests a reduction of over 75% of perceived loudness) allows our boards to effortlessly free float, eliminating the need for fasteners. Offered in four wood-inspired colors, these neighbor friendly contemporary fences present a variety of fencing options, including composite full privacy and semi-privacy, as well as a diverse selection of mixed materials. The latter integrate steel cable, nautical marine rope, artificial green ivy, welded wire, and even printed screens.

Horizontal Privacy  
(Color: Rosewood)

Horizontal Semi-Privacy  
(Color: Slate Grey)

Vertical Privacy  
(Color: Timber Brown)

Vertical Semi-Privacy  
(Color: Raven)

Wire Mesh  
(Color: Rosewood)

Ivy Green  
(Color: Slate Grey)

Stainless Steel Cable  
(Color: Timber Brown)

Marine Rope  
(Color: Raven)

Print Screen  
(Color: Rosewood)

Two-Board Ranch Rail  
(Color: Raven)

Three-Board Ranch Rail  
(Color: Rosewood)

The range of products within this Collection present a contemporary canvas of absolute privacy using horizontal boards without gaps. Beyond its modern aesthetic, this design substantially elevates security measures by restricting both visibility and access, ensuring a greater sense of seclusion and protection.

## BRING TIMELESS CHARM TO YOUR PROJECT WITH OUR TRADITIONAL AND SHADOWBOX PICKET FENCES.

The traditional and shadowbox fence systems use our classic 3.5 inch and 5 inch wide pickets in four natural wood-inspired colors. Designed to look the same on both sides to be neighbor friendly, this collection is available in full size and perimeter, offering options for both semi-privacy and full privacy needs. Engineered as a ready-to-install, user-friendly system, all components are pre-drilled and include all necessary hardware. Once posts are buried in the ground, only a screwdriver is required to complete installation. If you prefer to work outside of our pre-engineered fence systems, we also offer our 3.5" and 5" composite pickets in packs of 7 and 10.

Choose the prestige of classic design with our pre-drilled and engineered Traditional Fence System - where sophistication meets simplicity. Time-tested and beloved, we have reworked these classic designs for swift installation. Available in four luscious wood-inspired colors, our panels bring the charm of evenly spaced pickets to your outdoor haven.

**PRACTICAL SOLUTIONS FOR  
COMMERCIAL APPLICATIONS:  
WE'VE GOT YOU COVERED.**

Available in both 6 and 8 ft tall, this line of sustainable products is designed for commercial projects due to their exceptional endurance, including a wind rating of 130 mph (Category 3 Hurricane Wind 111-129mph on the Saffir Simpson Hurricane Wind Scale). The design of our composite boards features air pocket cavities that enable noise reduction. Whether your needs pertain to HOA applications, government municipalities, dumpster enclosures, auto charging stations, utilities fencing, field operations fencing, or commercial pool fencing, we are committed to exceeding your requirements.

### Composite Commercial Grade Horizontal Privacy Fence (6 ft. H x 6 ft. W)

# C O M P O N E N T S

## YOUR FENCING, YOUR WAY: INDIVIDUAL COMPONENTS FOR CUSTOM PROJECTS

We recognize that certain fencing projects demand a more personalized approach, often outside the scope of pre-engineered systems. Hence, we provide a range of individual components to cater to your unique needs. Choose from our selection, including classic dog ear and square top pickets for fences and gates, contemporary free-floating tongue and groove boards from our modern fencing systems, as well as sturdy 5x5 fence posts and reinforced commercial fence posts. With these individual components, we empower you to tailor your fencing solutions precisely to your project requirements.

If you prefer to work outside of our pre-engineered fence systems, we also offer our all four color variations of our 3.5" and 5" composite dog ear and square top pickets in packs of 7 and 10.
