

DID YOU KNOW?

The National Institute of Justice (NIJ) establishes and updates voluntary minimum performance standards for body armor, conducts testing against these standards to ensure that body armor complies with the standards, and sponsors research to improve body armor.

LIMITED WARRANTY:

For your safety and satisfaction, all WarBird protection products have been made to our high standards of quality control. Your vest is warranted to be free of material and workmanship defects that impact functionality under normal use. WarBird offers a limited five (5) year warranty on ballistic panels and a one (1) year warranty on carriers from the date of purchase.

WarBird, at its option, will at no charge, repair or replace the product, or refund the purchase price of product that does not conform to this warranty. This warranty is valid only in the United States and Canada and extends to the first purchaser only and is not transferable.

EXCLUSIONS: This warranty does NOT cover defects or damage resulting from misuse, neglect, alteration, cosmetic damage, or improper care and storage.

Visit warbirdpro.com for more information.

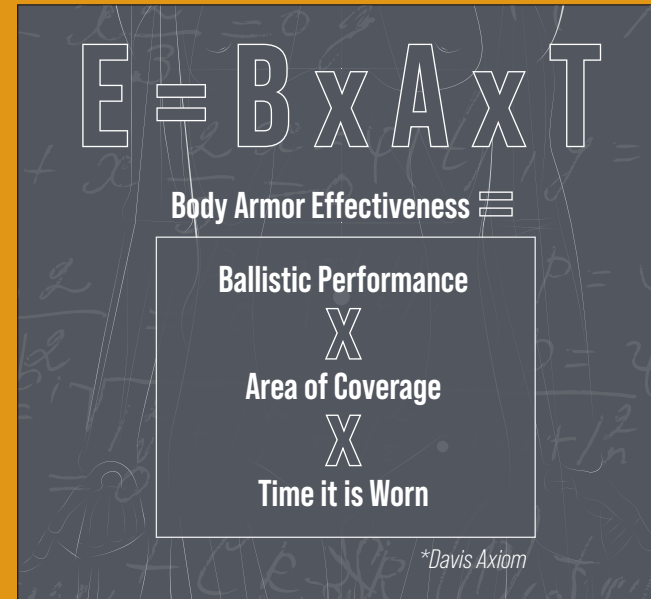

IMPORTANT!

It is vital to replace your soft armor panels at the end of their five (5) year warranty period. Ballistic performance can not be ensured after the warranty period. Contact WarBird to inquire about replacement panels.

CORE™ PATTERN SYSTEM

WarBird's CORE pattern system incorporates decades of industry experience, anthropometric data and human engineering factors to ensure your soft armor system is comfortable and fits great.

The effectiveness of body armor is equal to its ballistic protection, times the area of coverage, times the time it is worn.

The WarBird CORE pattern system strives to perfect the balance between comfort and area of coverage which allows you to stay on the job and in the fight.

SOFT ARMOR PANELS

USER MANUAL

PROTECTING YOUR WORLD

CAUTION

Body Armor is composed of multiple layers of advanced textiles to form a unidirectional protective product. The soft armor ballistic panels must be inserted into the carrier so that the **BODY SIDE** is facing the body and the **STRIKE FACE** is facing the threat when worn.

Failure to correctly assemble this product could result in **DEATH** or **SERIOUS INJURY**. Review the User Manual and Assembly Instructions in their entirety before use.

THE NIJ APPROVED LABEL INDICATES KEY INFORMATION REGARDING YOUR SOFT BALLISTIC ARMOR PANELS.

STORAGE

Proper storage of your soft armor panels is essential to maintaining their life throughout the warranty period. Store your vest laying flat in a clean and dry area at normal room temperatures. **DO NOT** fold or crease your armor. **DO NOT** store your vest in the backseat or trunk of a vehicle. Keep your vest out of direct sunlight.

From the training field to the frontline, WarBird is for everyone who chooses to stand against darkness. No experience level left behind.
