## SIZING GUIDE

### CHOOSING A BANGLE SIZE

#### BY MEASURING HAND

Use a flexible measuring tape or a piece of string and a ruler. Take the measurement of the widest part of your hand by bringing your fingers together and thumb across the palm as if you were about to put on a bangle. Add an additional inch to your measurement. Select a bangle size, using our Size Chart based on the measurement you took.

#### BY MEASURING A PRE-OWNED BANGLE

Measure the inner diameter of a bangle you already have with a flexible ruler, and then use our Size Chart to select a bangle size based on the measurement you took.

Note: For bangle bracelets with hinges and closures use Method 1 or refer to our Bracelet Guide to find the best fit.
