## **SuperSaver™ Traffic Signal Lamps by Sylvania**

**Save 10 percent of your energy costs with these five, energy-saving, long-life traffic signal lamps.**

Sylvania, the pioneer in energy-saving lamps, now offers five, long-life, incandescent lamps featuring Krypton gas fill. They will cut your traffic light energy costs 10% over ordinary traffic signal lamps. Yet SuperSavers give nearly the same lumens as standard traffic signal lamps. At the same time, the 54, 60 and 90 watt lamps offer an average life of 8000 hours; the 135 watt lamp lasts 6000 hours which greatly reduces replacement frequency. Result: significant energy and labor savings without sacrificing visibility, service or safety!
