

BOLT-120 LED Batten Light CCT 21w/42w White

~~\$89.90~~ ~~\$116.87~~

Product Description

The Bolt 1200mm LED Batten is a direct replacement to traditional T8 and T5 Fluorescent battens. Incorporating a “quick fix” solution, designed specifically to allow for ease of installation.

The Bolt 1200mm LED Batten also features a dual Wattage option 21w or 42w, so if the area is too bright, simply press the switch located on the LED Driver to reduce the output by almost half.

Pressed body is constructed from high-quality sheet metal, white powder coated with a high transparency opal polycarbonate diffuser.

Also available in 600mm length.

Suitable for domestic applications such as laundries, garage, storerooms. Also commercially for underground car parks.
