CONTOUR

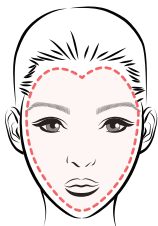

ELIZABETH
MOTT

SLIM FACE

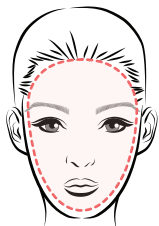

Draw attention to your best features with this easy-to-use palette. The contour shades help define your cheekbones, jaw, forehead, and nose. The highlight colors will lift and brighten while giving you a soft, luminous glow. Anyone can achieve a flattering look by following this step-by-step instructional booklet.

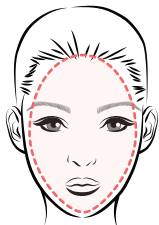

Diamond Shaped

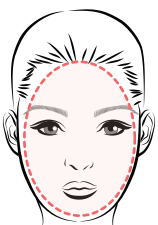

Heart Shaped

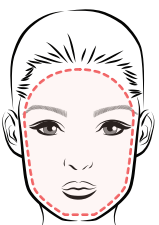

Oblong

Oval Shaped

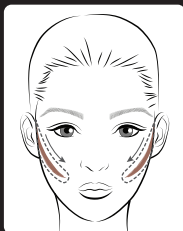

Round

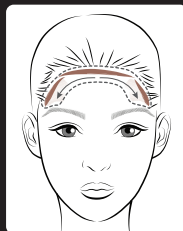

Square

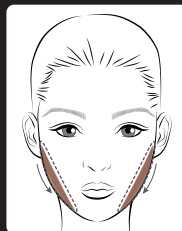

BASIC CONTOURING & HIGHLIGHTING:

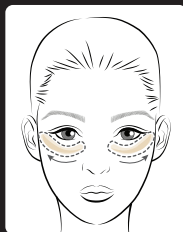

STEP 1: Cheekbones
Start contour at ear level and draw a line down towards the mouth.

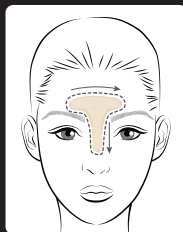

STEP 2: Temples
Draw a contour line from the temples to the forehead. Follow the hairline and blend.

STEP 3: Jawline
Place the contour under the ear and follow the jawline.

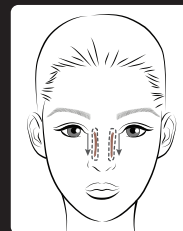

STEP 4: Under Eyes
Apply the highlight beneath the eyes and sweep upward and diagonally.

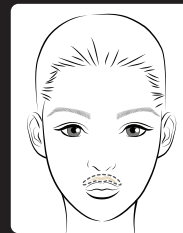

STEP 5: Forehead
Apply the highlight to the center of the forehead and blend down towards the tip of the nose.

EXPERT CONTOURING & HIGHLIGHTING:

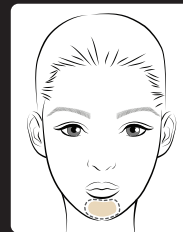

STEP 6: Nose

Using a narrow brush, start the contour at the inner corner of the eye. Draw a straight thin line down the side of the nose. Repeat on the other side. Blend outward.

STEP 7: Cupid's Bow

Use the highlight to trace the center portion of the top lip.

STEP 8: Chin

Dust the highlight onto the center of the chin to complete a flawless look.
