RELIEF™

Supports A Healthy Inflammation Response

- Supports normal inflammatory response*
- Supports healthy joints and flexibility*
- Soothes muscles with an active lifestyle*

90 Capsules | 45 Servings

RELIEF PROVIDES:*

An all-natural, certified organic and wildcrafted proprietary blend of botanical extracts formulated to support normal inflammatory response.

Certified Organic Turmeric is composed of several active compounds known as curcuminoids of which curcumin is one of the most common. Turmeric is a powerful antioxidant that has been shown to support the body's natural defense from free radicals. Turmeric has also been shown to support a healthy, normal inflammatory response, as well as provide cognitive health. The Turmeric in BodyHealth RELIEF is grown without pesticides and standardized to 95% pure curcuminoids using a gentle chemical free extraction process unlike most other turmeric extracts which require chemical solvent extraction.

Boswellia Serrata is a gum resin extracted from a tree (the entire species of Boswellia is commonly known as Frankincense). The Boswellia extract in BodyHealth RELIEF is wildcrafted (grown in the wild without harsh chemicals) and extracted using a gentle method without harsh chemicals commonly used by most extraction methods. The active compounds are known as boswellic acids, that act on cytokines that regulate healthy inflammation.

Ginger Extract is another one of nature's potent ingredients found in BodyHealth RELIEF. Ginger has been used historically to support gastrointestinal health, healthy

blood sugar, and musculoskeletal health. Our ginger is certified organic, grown without pesticides and extracted using a gentle method without harsh chemicals commonly used by most extractions.

BioPerine® Black Pepper Extract is a patented technology that utilizes microbubbles of fat to ensure optimal absorption and utilization of RELIEF'S ingredients.

Supplement Facts

Serving Size: 2 Capsules

Servings Per Container: 45

	Amount Per Serving	% Daily Value
Proprietary Blend	1,200 mg	**
