### Unparalleled Benefits

New Twin Cell Technology

Newest ionizer **HYBRID** technology includes a dedicated hydrogen cell PLUS an electrolysis chamber to adjust your water's pH and add antioxidants. It's the **FIRST** ionizer to **EVER** provide molecular hydrogen from a neutral pH level through to high alkaline pH levels.

New Exclusive Jog Dial Control With Molecular Hydrogen Water (H<sub>2</sub> Water) Button

Provides molecular hydrogen water at a neutral pH level – **FIRST-TIME** ever possible in a water ionizer

Supercharged Xtreme Molecular Hydrogen Boost

Pre-fitted with a unique hydrogen cell and maximum amperage to give you the highest levels of antioxidants from molecular hydrogen

Genuine Stainless Steel Accents

Beautifully compliments your kitchen décor

Rounded Edges and Compact Size

Space-saving design provides optimal function and takes up less counter space

SMPS Plus™ Power Supply

Provides instantaneous electrolysis with the maximum amount of power needed to give you the healthiest water

Front-Load Filter Access With Easy-Touch Reset

Changing your filters is easier than ever! The front panel opens so you can swap out your filters quickly and easily

Touchscreen With Multi-Color Backlight

Modern interface makes water selection simple

Turbo Button

Get optimal pH levels without the use of chemicals

360° Smart Spout™

Fully rotatable dispenser – put on either side of your sink

Water By Design™ With Adjustable Power Settings

3 Alkaline levels, 2 Acidic levels, Turbo level and Purified H<sub>2</sub> level. Plus fully adjustable power settings enable you to adjust the pH of your water based on your source water

Dual Filters With .01 Micron Filtration

The best water ionizer filtration available! Removes over 200 dangerous contaminants from your tap water

Interactive Audio & Visual Indicators, Integrated Temperature Sensor, Auto Shutoff and Multiple Languages

Provides safe operation, and enables you to always know how your ionizer is performing
