How to get your Google business review link

use online **free Generator**

Step 1: Click the below link to create your Google review link!

https://taggerlink.com/pages/link

or

https://www.heroesofdigital.com/tools/google-review-link-generator/

Step 2. Enter company name and **address**, search up your company on the bar.

For example: ABC Kicten, East 18th, New York, USA

Step 3. Copy the link
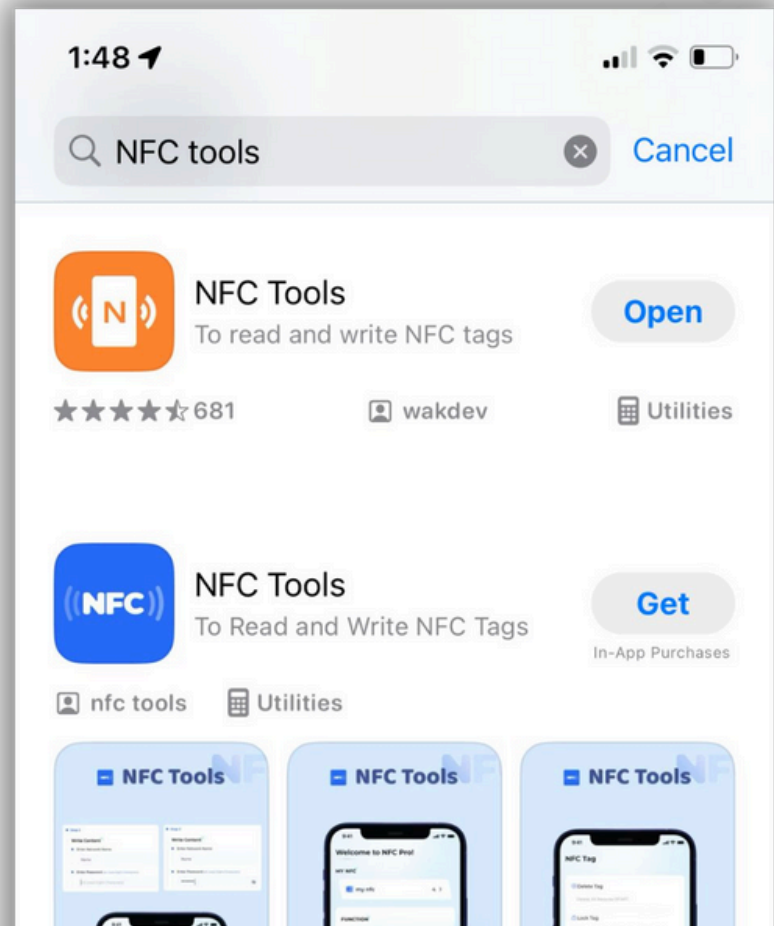

PROGRAMMING IN NFC TOOLS APP

Step 1: Download the "NFC TOOLS" app (Free)

✓ Click **HERE** to download for Apple

✓ Click **HERE** to download for Android

Step 2: Click "Write"

**Step 3**: Click "Add Record"

Step 4: Click "Add URL/URI"

# PROGRAMMING
IN "NFC TOOLS" APP

Step 5: <u>Paste</u> copied "URL" and click "**OK**"

Step 6: Click "Write/76 Bytes"

last Step 7: Tap/Scan "taggerlink"

- Click **"Write/XXX Bytes"** and use the phone Tap / Scan to Taggerlink products

Once scanned you have completed the Taggerlink setup

*See the next page for Programming Multiple Taggerlink

PROGRAMMING MULTIPLE CARDS

*Multiple cards: repeat the scanning process on each card, click "write" again and scan each Taggerlink until finished

UPLOADING DIFFERENT LINKS TO DIFFERENT CARDS

- You'll need to replace the existing link with a new one.

- Simply delete the old link and paste the new one.

- Then, click 'write' to program the next card.

Troubleshooting

## It's showing 'Write Error"
If given this error try the following solutions

1. Try re-scan and re-attempt to scan as necessary, Keep the **closest distance** to tap/scan

2. Check "Byte" Size - If your specific link size "Byte" size is over 1,000 bytes your link will not upload. Try to make the link size smaller.

*Note: To see your **Byte size** it is written beside the **"write/XXX Byte"***

If showing **'That's an error"** on Google page

- **Incorrect URL**: Double-check the URL you entered to make sure it's spelled correctly and formatted properly.

- Make sure there is **'No Space'** at the end when you are programming the URL/link."

Programmed but Not Responding:

- **Cause 1:** This issue is typically caused by an uploaded link containing business information, duplicate HTTPS, or an invalid link.

- **Please double-check the link and remove any business information.**

Record 1 - https://

Marlow Martial Arts Academy & Marlow Batting Club https://g.page/r/ CWTdp5AgaxwAEBM/review

- **Cause 2:** User error – customers may mistakenly return to the menu. After pasting the link, click 'OK,' then click 'Write' and scan.

*Please Note – Links should ONLY contain the following

✅ g.page/EmbedSocial/review

✅ https://g.page/r/Cf04tqbmA5_IEBM/review

❌ Johns Ice Cream Shop g.page/EmbedSocial/review

❌ Johns Ice Cream Shop https://g.page/r/Cf04tqbmA5_IEBM/review

Working with iPhone but Not with Android:

Cause 1: NFC not turned on.

Cause 2: Phone uses a metal or thick phone case. **Cause 3:** Scanning issues.

Can't Download the App; It's Saying Not Supported:

Cause: Device is not NFC supported (such as Ipad, smart watch...etc)

- Try another device that is NFC-supported

Slow Response When Scanning:

Cause 1: Your device or Taggerink may be too close to, surrounded by metal, or covered by something thick.

Once you've programmed it,
you can start collecting reviews with <u>Taggerlink</u> every day,
making your business easier!

- **<u>If it's not working or some issue, please contact us through this CONTACT US</u>**: taggerlink.com

-
- **<u>Provide us detail so we can review your specific issue further.</u>**
