

1812 SERIES

TELEPHONE INTERCOM
RESIDENTIAL SYSTEMS

Residential Systems:
For Single Family Homes and Estates

ACCESS CONTROL SOLUTIONS

1812 Access Plus Telephone Entry + Access Control

Computer Programmable for Larger Residences and Estates

FEATURES

Grant Guest Access

Grant or deny access directly from a touch-tone telephone.

Use a mobile phone number to receive calls from the 1812 and grant or deny access.

Full Duplex

Allows two-way simultaneous voice conversation. Half-duplex systems (like intercoms) allow only one person to speak at a time.

The same quality as the phone company.

Modular Design

Makes installation and service easy.

1812 Access Plus

Estate

Guest House

1812 Access Plus allows standard door and gate access plus 6 additional entry points

1812 ACCESS PLUS

TELEPHONE ENTRY PLUS ACCESS CONTROL

Control from a PC

The 1812 Access Plus combines the essential features of the 1812 Classic and 1812 Plus, and includes programming software allowing you to customize your system right from your PC. Lock and unlock access points with the click of a mouse, schedule time zones and add or delete access codes.

EMAIL ALERTS

Set up to receive an email on selected activities.

MOBILE

When not at home, receive calls and grant/deny access from your cellular phone.

CAMERA READY

Using an IP camera, view who is at your door or gate.

ACCESS TIME ZONES

Pre-set times for entry -- give a delivery person access.

DKS Plug & Play Connection Services

The 1812 Access Plus unit allows Voice and Data connection over either Cellular, Internet, or POTS. DKS offers easy ways to connect fast using the DKS connection services. With the easy to use Access Plus Account Manager programming software, you can customize the system immediately. Connection and set up is a snap.

Voice communication and/or data (programming) to your DKS telephone entry/access control system via the AT&T 4G LTE wireless network.

Use an internet connection for voice and/or data (programming). Compatible with your own VoIP provider, or use DKS's.

POTS (Plain Old Telephone Service) is still available and DKS allows you to connect and program. (POTS is not recommended as DoorKing can no longer guarantee modem connections.)

ACCESSORIES:

Card Readers & Keypads

DoorKing carries a full line of DKS, AWID and HID proximity card readers and cards. DKS 1500 Series Keypads provide access control for virtually any application where stand-alone digital code entry is desired.

Wireless RF controls allow remote operation of vehicular access gates from the safety and convenience of a vehicle.

Heaters & Camera Kits

Heater kits available that allow telephone entry systems to remain operating in cold environments. Camera kits available as an add-on to most telephone entry systems.

Mounting Posts & Kiosks

Several styles of mounting posts are available from DKS. Architectural and designer style posts are typically used with the larger telephone entry systems and are available in gooseneck styles for vehicular traffic or straight styles for walk-up pedestrian use. The mounting kiosks are ideal

for walk-up pedestrian applications and are designed for DKS flush mount telephone entry systems only.
