- Resistance to heavy impact loads
- Resistant to scuffing, gouging & damage
- Naturally resilient against staining, mildew and mold
- Excellent Durability and Life Cycle Cost

Product Specifications

Commercial Grade Rolled Rubber Flooring

Athletic Textiles Rubber is produced from high quality recycled rubber materials from truck tires. The recycling saves energy, reduces oil consumption and keeps millions of pounds of rubber from tires out of landfills and oceans. Our Rubber Flooring meets the indoor air quality and Volatile Organic Compound (VOC) emission requirements.

LEED & Rubber Flooring

MR4 - Recycled Content - Up to 90% Post Consumer Recycled Content
