Sports Turf - Sport Series

MODEL:SPORT-COLLEGIATE-36

SPORT-COLLEGIATE-36-5mm
36oz Monofilament Polypropylene

The Collegiate 36 sports turf features the new monofilament turf fiber that is 500 denier; which is 20 times thicker and larger than the typical multifilament yarns used in many cheaper indoor/outdoor athletic turfs.

The monofilament yarn gives the following advantages: durability in high traffic areas, improved ball roll, better foot traction, no pile direction. The new "spring set" yarn always looks new and fresh. The monofilament polypropylene is a little stiffer yarn and thus has a scratchier surface and is not as desirable for heavy ground work or sports applications where skin abrasion may occur frequently.

The Collegiate 36 sports turf is very popular in batting cages, crossfits and general fitness applications for sprints and sled work.

ROLL SIZE / CAPABILITIES

Width/Colors Available:

12' Wide - Green, Black, Red, Yellow, Blue,
Orange, Maroon

15' Wide - Green

Roll Lengths:

Minimum Length: 10'

Maximum Length: 140'

BACKING OPTIONS

Unitary

No Foam Padding, Urethane Backing only

5mm Pad

5mm Thick Foam pad secondary backing

8mm Pad

8mm Thick Foam pad secondary backing

** 10,000 sq. ft. minimum order

TURN SPECIFICATIONS

Face Weight: 36oz

Fiber: Monofilament Polypropylene

Pile Height: 1/2"

UV Stabilized: Yes

Drainage Perforations: Available on
Custom orders for additional charge

INSTALLATION METHODS

Permanent:

Full Glue Down Direct to Concrete
or Wood Substrate

Semi-Permanent:

12" Turf Seam Tape & Glue

Temporary/Portable:

Factory Installed Velcro Seams on Edges
