

PRODUCT SPECIFICATIONS

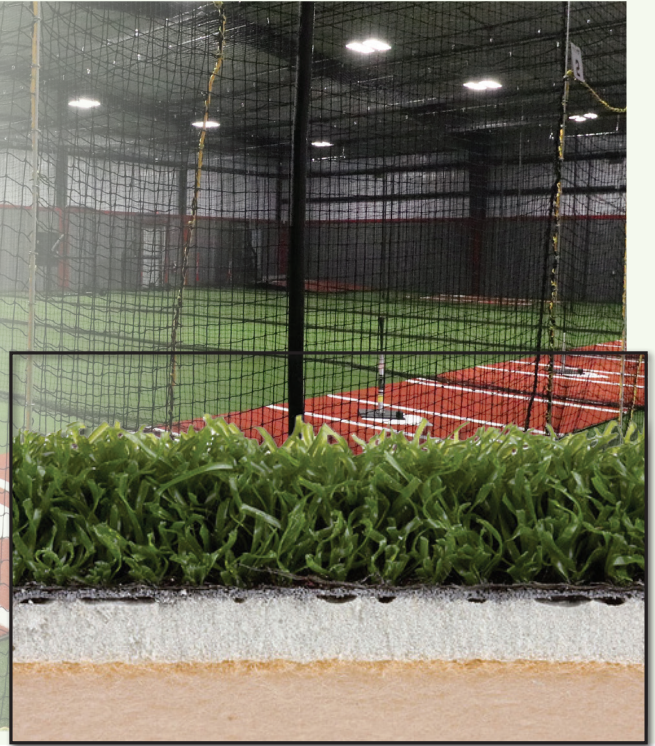

Sports Turf - Sports Series

MODEL: SPORT-COLLEGIATE-36

SPORT-COLLEGIATE-36-5mm
36oz Monofilament Polypropylene

The SPORT-COLLEGIATE-36 sports turf is designed for **COMMERCIAL FITNESS CENTERS, BATTING CAGES, INDOOR SOCCER, FOOTBALL, & LACROSSE.**

- Collegiate 36 sports turf features the new monofilament turf fiber that is 500 denier; which is 20 times thicker and larger than the typical multifilament yarns used in many cheaper indoor/outdoor athletic turfs.
- Monofilament yarn gives the following advantages: durability in high traffic areas, improved ball roll, better foot traction, no pile direction. The new "spring set" yarn always looks new and fresh
- Monofilament polypropylene is a little stiffer yarn and thus has a scratchier surface and is not as desirable for heavy ground work or sports applications where skin abrasion may occur frequently.
- Collegiate 36 sports turf is very popular in batting cages, crossfits and general fitness applications for sprints and sled work.

PROPERTY	DESCRIPTION		
Fiber	100% Polypropylene		
Yarn Denier	Texturized 4600/1 570 DPF, Spring Set		
Gauge	3/16" Cut Pile		
Stitch Rate	6 Stitches per Inch		
Pile Height	1/2" Polypropylene		
Face Weight	36oz	Total Weight	118oz
Width	12'W or 15'W		

PROPERTY	DESCRIPTION
Standard Color	Green
Upcharge Color	Black, Red, Blue, White, Orange, Clay (12' wide only)
Primary Back	Dual Woven Polypropylene
Secondary Back	Unitary Polypropylene Backing or 20oz urethane precoat with 65oz 5mm Foam Pad
Shipping Weight	12 lbs per linear foot with 5mm foam
Warranty	8 Year Fade/UV and 5 Year Wear (excluding pivot points and kick zones)
Notes	Due to the complexity of dual fiber/texturizing, expect some striations to occur and is not a warrantable claim
