Sports Turf - Sport Series

MODEL: SPORT-SUPER-COLLEGIATE-42

SPORT-SUPER-COLLEGIATE-42-1mm
42oz Monofilament Polypropylene

The Super Collegiate sports turf features the new monofilament turf fiber that is 500 denier; which is 20 times thicker and larger than the typical multifilament yarns used in many cheaper indoor/outdoor athletic turfs.

The Super Collegiate has a heavy 42oz face weight for excellent durability and resistance to traffic patterning.

The Super Collegiate sports turf is primarily used in indoor and outdoor batting cages over concrete as it requires a full glue down.

The AT Extreme Weather Backing has a high strength Propex 4oz 18 pic primary backing, a 2.2oz spun bonded sheet is attached by needle bonding the 2 layers together and a natural rubber latex is added with action back woven skrim reinforcing layer is immersed and vulcanized into the rubber backing (similar to a rebar grid in concrete).

This process creates the strongest, most durable outdoor backing on the market - the AT Extreme Weather Backing.

ROLL SIZE / CAPABILITIES

Width/Colors Available:

12' Wide - NA

15' Wide - Green

Roll Lengths:

Minimum Length: 10'

Maximum Length: 140'

BACKING OPTIONS

Unitary

No Foam Padding, Urethane Backing only

5mm Pad

5mm Thick Foam pad secondary backing

8mm Pad

8mm Thick Foam pad secondary backing

** 10,000 sq. ft. minimum order

TURN SPECIFICATIONS

Face Weight: 42oz

Fiber: Monofilament Polypropylene

Pile Height: 1/2"
