Product Highlights:

KS13PST is the economy choice for batting cages and low traffic areas. ST13PST-U has an all weather unitary backing. Product will provide a clean look and offer some protection for baseballs. Protection for pivot points and high traffic areas is required.

Please note this product is made with a lower grade untwisted, non-spring set commercial yarn that will display crush marks and other visual inconsistencies such as streaks and lay down of the pile height. Traffic patterns will occur in areas of consistent use.
