Product Highlights:

KS35N putting green turf was designed for use on putting greens to endure long exposure to sunlight, high traffic of commercial use without losing durability and resisting traffic patterns. The spring set yarn provides a fresh look day in and day out.

- A national branded nylon fiber is used, most companies use unbranded nylons that can be inconsistent quality.
- Nylon will not melt or leave residue in highly abrasive situations
- Extra crimp/spring set in the Nylon adds over 100% more crush resistance
- Dense tufting method creates a true non-directional surface and will not so traffic patterns
