

Turf Style #: ST42SBM

Turf Specifications

Fiber: AT Extreme Fiber 4600™ Polypropylene Monofilament Yarn

Color: Verde Green

Yarn Size: AT Extreme Fiber™ Everblade 4600 570 DPF Texturized, Spring Set

Gauge: 3/16" Cut Pile

Stitch Rate: 7 Stitches Per Inch

Pile Height: 9/16"

Face Weight: 42oz

Width: 15' only (great for batting cages, glue directly to concrete)

Primary Back: Propex 2906 matrix 18 pic woven with a 2.10oz non-woven polypropylene cap, total weight 6.1oz

Secondary Back: Kodiak Extreme Weather Backing™ - 28oz Natural Rubber with a Woven Polypropylene Skrim Inlaid into the rubber

Notes: Due to the complexity of texturizing, expect some striations to occur

Shipping Weight: 7.5lbs Per Linear Foot in 5mm Foam, 5.3lbs Per Linear Foot Unitary

Warranty: 5 Year Fade and Wear (excludes pivot points)

Product Highlights:

The Athletic Textiles KS42SBM turf product is made with a new type of outdoor yarn; each leaf on the grass is now a 500 denier; which is 20 times thicker and larger than the typical yarns used in regular indoor/outdoor athletic turfs. KS42SBM has a heavy 42oz face weight for great look, resistance to traffic patterns and extreme durability in outdoor conditions.

The Extreme Weather Backing™ has a high strength Propex 4oz 18 pic primary backing, which is 64% heavier and stronger than other 18 pic products. To stabilize and ensure flatness, a 2.2oz spun bonded sheet is attached by needle bonding the 2 layers together. In order to keep the product flexible, a natural rubber latex is applied, then the action back woven skrim reinforcing layer is immersed and vulcanized into the rubber backing (similar to a grid of steel in concrete). This process creates the strongest, most durable outdoor backing on the market - the Kodiak Extreme Weather Backing.
