

# Aww....you must *really* love your cat!

## Great - but boy does it reek!

My cats absolutely love this cute large soft mouse. Months later and they are still attracted to it - the best toy mouse I've ever bought - only problem is, it absolutely reeks and when it's new it does stink the room out - but worth it for how much the kitties love it.

## Amazing, but the smell . . . urgh!

Compared to a catnip filled mouse, this is amazing, my cat goes mad for it, rubbing his face on it and playing with it endlessly. It does however smell awful, and can clear a room! We store it in it's bag to keep down the smell when not in use!! Will be buying more!

## Great Buy

My cat didn't seem to fussed by catnip so I thought I would try these pillows. He was playing with them and enjoying them as soon as they came out of the packet. Great Value for money too! In regards to the smell, I find them quite strong but only if you have been handling them. I will definitely be buying more.

## Tested by 10, loved by all

I bought 3 of these expecting them to be easily shared between my 6 cats. I really wish I'd bought 10 in total! I gave my parents 4 cats a little sniff while picking up my items and had to leave it there because I couldn't get it back off them. As soon as I got home my cats could smell it on my bag and they've been wrestling the remaining 2 off each other since. While it does smell quite strongly of cheesy feet, it's doesn't bother me as the cats really love it. Will be buying more in my next order!
