01/16/2024 SAFETY DATA SHEET [According to OSHA Hazard Communication Standard (HCS) 29 CFR 1910.1200]

ion beandard (neb) 2

SECTION 1. IDENTIFICATION

PRODUCT INFORMATION

TRADE NAME	:	ECO Seal UV
FORMULA	:	UV-2019-3
HMIS NUMBER	:	3-0-0
CHEMICAL NAME	:	ACRYLATED MATERIAL
CHEMICAL FAMILY	:	ORGANIC COMPOUND
PRODUCT USE	:	A PROTECTIVE AND/OR DECORATIVE FINISH OR ACCOMPANYING PRODUCT
		(reference label or product data sheet for more information).
NOT RECOMMENDED FOR	र:	ANY OTHER USE NOT DETAILED ON PRODUCT DATA SHEET OR LABEL.

SUPPLIER INFORMATION

MANUFACTURER	:	Woodcare USA LLC 2670 N. Berkeley Lake Rd., Suite 7 Duluth, GA 30096
		Phone: 770-232-7177 Fax: 770-232-7180
EMERGENCY PHONE	:	CHEMTREC (800)424-9300

SECTION 2. HAZARD(S) IDENTIFICATION

GHS CLASSIFICATION

Skin Corr./Irrit.	2	Skin corrosion/irritation
Eye Dam./Irrit.	1	Serious eye damage/eye irritation
Skin Sens.	1	Skin sensitization
Aquatic Acute	2	Hazardous to the aquatic environment - acute

LABEL ELEMENTS

HAZARD PICTOGRAMS:

Page 1 of 10

•

SECTION 2. HAZARD(S) IDENTIFICATION

HAZARD STATEMENTS:

H318 H315 H317 H401	Causes serious eye damage.
Н315	Causes skin irritation.
Н317	May cause an allergic skin reaction.
H401	Toxic to aquatic life.

PRECAUTIONARY STATEMENTS:

Wear protective gloves and eye/face protection.
Avoid breathing dust/fume/gas/mist/vapours/spray.
Avoid release to the environment.
Contaminated work clothing should not be allowed out of the workplace.
Wash with plenty of water and soap thoroughly after handling.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Immediately call a POISON CENTER or doctor/physician.
IF ON SKIN (or hair): Wash with plenty of soap and water.
Take off contaminated clothing and wash before reuse.
Dispose of contents/container to hazardous or special waste collection point.

Woodcare USA			UV-2019-3 Page 3 of 10
SECTION 2. HAZARD(S) IDENTIFICATION			
SPECIAL PACKAGING REQUIREMENTS			
OTHER HAZARDS		,	
No specific dangers known, if the regulations/	notes for storage a	and handling are co	nsidered.
According to Regulation 1994 OSHA Hazard Commu	nication Standard;	29 CFR Part 1910.1	.200
Emergency overview			
DANGER: Irritating to skin. May cause sensitization by skin contact. Risk of serious damage to eyes. Avoid contact with the skin, eyes and clothing Avoid inhalation of mists/vapours. Use with local exhaust ventilation. Wear a NIOSH-certified (or equivalent) organic Wear NIOSH-certified chemical goggles. Wear protective clothing. Wear full face shield if splashing hazard exis	vapour/particulate	e respirator.	
SECTION 3. COMPOSITION, INFORMATION ON INGRE	DIENTS		
INGREDIENT DESCRIPTION CAS NUMBER	PERCENT BY WGT		
INGREDIENT DESCRIPTION	CAS NUMBER	PERCENT BY WEIGHT	
No known hazardous ingredients			
"X" Indicates substance is a HAP,reportable un 10,000 lbs of an item used per calendar year.	der SARA III, Secti	on 313, if	
SECTION 4. FIRST AID MEASURES			
FIRST-AID INSTRUCTIONS			

SKIN CONTACT Wash affected areas thoroughly with soap and water. Seek medical attention.

EYE CONTACTWash affected eyes for at least 15 minutes under running water with eyelids
held open. Seek medical attention.INHALATIONIf difficulties occur after vapour/aerosol has been inhaled, remove to fresh
air and seek medical attention.

INGESTION Rinse mouth immediately. Give exposed individual 6 to 9 oz of liquid. Consult physician.

MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND CHRONIC

Symptoms: The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11., Further important symptoms and effects are so far not known.

UV-2019-3 Page 4 of 10

SECTION 4. FIRST AID MEASURES

RECOMMENDATIONS FOR IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

SECTION 5. FIRE-FIGHTING MEASURES

FLASH POINT OVER 200 deg C TCC N/R LEL N/A UEL N/A

EXTINGUISHING MEDIA: Foam, C02, dry chemical, water fog.

Unsuitable extinguishing media for safety reasons: water jet

UNUSUAL FIRE AND EXPLOSION HAZARDS: The material will not support combustion.

SPECIAL FIREFIGHTING PROCEDURES: Hazards during fire-fighting: harmful vapours.Evolution of fumes/fog. The substances/groups of substances mentioned can be released in case of fire.

ADVICE FOR FIREFIGHTERS:

Protective equipment for fire-fighting: Wear a self-contained breathing apparatus. Further information: The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed of in accordance with official regulations. Impact Sensitivity: Remarks: Based on the chemical structure there is no shock-sensitivity.

SECTION 6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES

Further accidental High risk of slipping due to leakage/spillage of product. release measures:

Personal precautions, Use personal protective clothing. Keep people away and stay on the protective equipment, upwind side. emergency procedures

ENVIRONMENTAL PRECAUTIONS

Do not discharge into drains/surface waters/groundwater

METHODS AND MATERIALS FOR CONTAINMENT AND CLEANUP

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Remove with inert absorbent. Sweep or scrape up and containerize disposal.

Page 5 of 10

SECTION 7. HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING

Keep away from sources of ignition - No smoking.

Protection against fire Heated containers should be cooled to prevent polymerization. and explosion: Take precautionary measures against static discharges.

STORAGE:

Further information on storage
conditions:Avoid all sources of ignition: heat, sparks, open flame.Storage stability:Protect from direct sunlight.Storage temperature:equal or less than 35C

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

CONTROL PARAMETERS

EXPOSURE CONTROLS

```
ENGINEERING CONTROLS:
Provide exhaust ventilation or other engineering controls
to keep the airborne concentrations of vapors below their respective occupational
exposure limits. Ensure that eyewash stations and safety showers are
proximal to the work-station location.
```

PRECAUTIONS:

SKIN PROTECTION: Long sleeves and pants to avoid skin contact

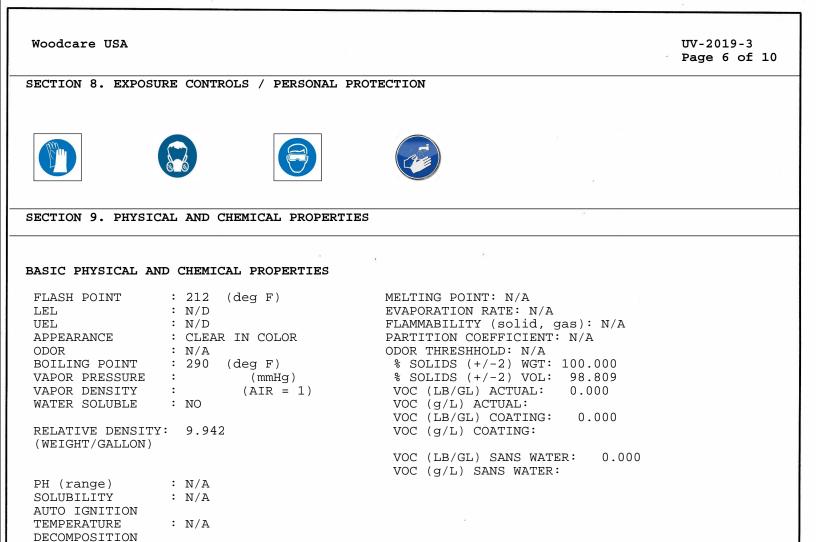

HAND PROTECTION: Gloves.

EYE PROTECTION: Splash goggles/face shield.

RESPIRATORY PROTECTION:

Vapor respirator.A respirator protection program that meets OSHA 1910.134 and ANSI Z88.2 or applicable federal/provincial requirements must be followed whenever work place conditions warrant respirator use. NIOSH's "Respirator Decision Logic" may be useful in determining the suitability of various types of respirators. Be sure to use an approved/certified respirator or equivalent. Wear appropriate respirator when ventilation is inadequate.

OTHER PROTECTIVE EQUIPMENT: Ensure that eyewash stations and safety showers are proximal to the work-station location.

VISCOSITY : SEE PRODUCT DATA SHEET

Density, %solids and %VOC analysis reference method 24 VOC IS LESS ANY FEDERALLY EXEMPT SOLVENT

SECTION 10. STABILITY AND REACTIVITY

REACTIVITY

TEMPERATURE

No hazardous reactions if stored and handled as prescribed/indicated. Oxidizing properties: not fire-propagating Based on its structural properties the product is not classified as oxidizing. (other)

Formation of Forms no flammable gases in the presence of water.

flammable gases:

CHEMICAL STABILITY

Stable.

POSSIBILITY OF HAZARDOUS REACTIONS:

Woodcare USA

SECTION 10. STABILITY AND REACTIVITY

The product is stabilized against spontaneous polymerization prior to despatch. The product can polymerize if the shelf life or storage temperature are greatly exceeded. Heat develops during polymerization. Reacts with peroxides and other radical components. The product is chemically stable. Radical formation can cause exothermic polymerization

INCOMPATIBILITY (MATERIALS TO AVOID) :

Incompatible materials:

Avoid extreme heat. peroxides, free radical initiators

HAZARDOUS DECOMPOSITION PRODUCTS:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated. Thermal decomposition: 125C, 2 K/min (DSC (DIN 51007))

Polymerization takes place above the indicated temperature.

HAZARDOUS POLYMERIZATION CONDITIONS TO AVOID: None known.

SECTION 11. TOXICOLOGICAL INFORMATION

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

ACCUTE TOXICITY/EFFECTS:

ACUTE TOXICITY

Assessment of acute toxicity: Of low toxicity after single ingestion. Virtually nontoxic after a single skin contact. Inhalation-risk test (IRT): No mortality within 7 hours as shown in animal studies. The inhalation of a highly saturated vapor-air mixture represents no acute hazard. The product has not been fully tested. The statements have been derived in parts from products of a similar structure or composition. Analogous: Assessment derived from products with similar chemical character. Inhalation-risk test (IRT): No mortality within 7 hours as shown in animal studies. The inhalation of a highly saturated vapor-air mixture represents no acute hazard. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Assessment other acute effects Assessment of STOT single: Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

Irritation / corrosion Assessment of irritating effects: Causes temporary irritation of the respiratory tract. Eye contact causes irritation. Skin contact causes irritation.

Skin Species: rabbit Result: Irritant. Method: OECD Guideline 404

Eye Species: rabbit Result: Risk of serious damage to eyes. Method: OECD Guideline 405

Sensitization Assessment of sensitization: The substance may cause sensitization of the respiratory tract. Sensitization after skin contact possible.

SECTION 11. TOXICOLOGICAL INFORMATION

Mouse Local Lymph Node Assay (LLNA) Species: mouse Result: sensitizing Method: OECD Guideline 429

Aspiration Hazard not applicable

Chronic Toxicity/Effects

Repeated dose toxicity Assessment of repeated dose toxicity: No other known chronic effects. After repeated exposure the prominent effect is local irritation. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. No other known chronic effects.

Genetic toxicity

Assessment of mutagenicity: The data available on mutagenic action are not consistent. The substance was not mutagenic in bacteria. The substance was mutagenic in a mammalian cell culture test system. The substance was not mutagenic in studies with mammals. The product has not been fully tested. The statements have been derived in parts from products of a similar structure or composition.

Reproductive toxicity

Assessment of reproduction toxicity: The results of animal studies gave no indication of a fertility impairing effect. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Teratogenicity

Assessment of teratogenicity: Animal studies gave no indication of a developmental toxic effect at doses that were not toxic to the parental animals. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Symptoms of Exposure The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11., Further important symptoms and effects are so far not known.

CARCINOGENICITY:

Substances have not been identified as a carcinogen or probable carcinogen by NTP, IARC, OSHA, EU, ACGIH or CPSC.

SECTION 12. ECOLOGICAL INFORMATION

TOXICITY

Aquatic toxicity Assessment of aquatic toxicity: Acutely toxic for aquatic organisms. The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations Toxicity to fish LC50 (96 h) from 1 to 10 mg/l, Brachydanio rerio (static) Aquatic invertebrates EC50 (48 h) from 10 to 100 mg/l, Daphnia magna (Directive 84/449/EEC, C.2, static) Aquatic plants EC50 (72 h) from 10 to 100 mg/l, Scenedesmus subspicatus (static) Chronic toxicity to fish Study scientifically not justified. Chronic toxicity to Study scientifically not justified. aquatic invertebrates Assessment of terrestrial Study scientifically not justified. toxicity Toxicity to microorganisms OECD Guideline 209 aerobic activated sludge, domestic/EC20 (0.5 h):

SECTION 12. ECOLOGICAL INFORMATION

more than 1,000 mg/l

Nominal concentration.

PERSISTENCE AND DEGRADABILITY

Assessment biodegradation Readily biodegradable (according to OECD criteria). and elimination (H2O) Elimination information From 90 to 100 % DOC reduction (28 d) (OECD 301 A (new version)) (aerobic, activated sludge, domestic) Assessment of stability According to structural properties, hydrolysis is not expected/probable. Bioaccumulative potential Assessment bioaccumulation Because of the n-octanol/water distribution coefficient (log Pow) potential accumulation in organisms is not to be expected.

MOBILITY IN SOIL

Assessment transportThe substance will not evaporate into the atmosphere from the waterbetween environmentalsurface.compartmentsAdsorption to solid soil phase is not expected.

ADDITIONAL INFORMATION

Do not release untreated into natural waters.

SECTION 13. DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD: Observe all applicable Federal/State regulations and local ordinances.
