

Mechanical Locker Instruction Manual

WASAI[®]

Please keep the safe open, when you set the code.

A) Set the code

Step 1 Factory preset code is 0-0-0-0,

Step 2 No matter the lock is unlocked or locked, as long as the code is correct. Adjust code dialing lever to inverted triangle position

Step 3 Turn the number dials to your preferred combination, "2-0-2-3"

Step 4 Dialing the code dialing lever back. Now your password is "2023"

If you want to change the password, please repeat above steps 2 to 4.

B) Find the code

When you forget your code, use the key and find the code.

Step 1 Insert the key into the keyhole, and turn it **clockwise 180°**.

Step 2 Turn the dial numbers one by one, it will **stop** at the correct number.

Step 3 After all the passwords are recovered, turn the key **counterclockwise 180°**

Note: Please keep the key properly.

Thank you for your purchasing!
