

SybraChem Dirt Buster

A powerful acid-based cleaner that effectively removes oxidation and corrosion from aluminium surfaces.

PROPERTIES

SybraChem Dirt Buster's multi-purpose formulation expertly penetrates and removes oxidised scale, dirt, and impurities from aluminium surfaces; can be used as a rust remover; is effective in removing oil, grease and heavy organic deposits from cement floors and metal surfaces; and is chloride-free, making it safe to use on copper surfaces too.

APPLICATION

- Dilute 1 part **SybraChem Dirt Buster** with 30 parts water in a plastic container or sprayer.
- Coat the affected area with the product and allow to penetrate for a few minutes.
- Using a brush or broom, agitate the product on the affected area and rinse off thoroughly with water.
- To minimise streaking, work from bottom to top.
- Do not leave the product on the surface for too long as it may cause corrosion.

TECHNICAL INFORMATION

Product Name: SybraChem Dirt Buster		
TEST	UNIT	SPECIFICATION
Appearance		Clear liquid
Density	g/cm ³	1.09
pH		<1.0
