Your intentions are seeds of manifestation, and the flow and shape are the energy, nourishment and nurturing that allow the seeds to grow. Plant your intention in this fertile field and let the energy and the flow harvest it.

The pendant imprints your intentions as a cellular level. Be sure the seeds you plant are positive and what you truly desire.

Examples of Seeds of Manifestation:

- Keep your Biological Age at the Master Number 33. This number indicates the ability to manifest your gifts of gentleness and purity furthering you on your Path to Ascension.
- Protect you from all past, and future viruses, bacteria, and fungi.
- Clear all your past, present and future lives.

How to Use the Melchizedek Vortex pendant:

When you work with the Melchizedek Vortex, imagine that the axis of this shape is directed from your heart to the central sun. Put your intentions into this circling rotation so that it will be amplified and be included in the motion. It's this motion that allows your intentions to manifest.

The more intensity you send through axis from the central sun to your heart and back from your heart to the central sun, the more power you are giving your intentions to manifest in 3D. This is a dual directed motion along the axis. You are attracting the energy of the central sun into your heart and from your heart to the central sun. This creates a toroidal field of manifestation and activation.

Your visualization of working together with the central sun in your heart and vice versa is a crucial part so this shape can do its work as planned. You can also imagine that this shape is floating in God's Flow of Creation. This will add intensity to your work bringing in more layers of this energetic work by attracting energy from the surrounding space created by the Vortex into your work. This way, the shape works as a condenser of energy.
