

What You Need to Know About Vitamin C and Alzheimer's Disease

It's hard to believe that over the past 115 years since its discovery, there are still no treatments or drugs to cure Alzheimer's disease. Over 5.6 million Americans are currently living with Alzheimer's, and that number is expected to triple by 2050. Alzheimer's and other dementias are thought to start 10 to 20 years before any symptoms appear.

Alzheimer's Stages

1. No significant symptoms
2. Mild: minor memory lapse, confusion, loss of words, names, and events
3. Moderate: Loss of critical thinking, growing frustration, and anxiety
4. Severe: Forgetting family/friends, lack of judgment, cannot maintain personal care, irritability, hostility, loss of speech, and incontinence
5. End-Stage: Death is imminent due to complications such as inability to swallow food, chronic infections, or stroke, to name a few.

Due to numerous issues like diabetes, the standard American "low fat" diet, toxins, and chronic illness, Alzheimer's and dementia can affect almost anyone. Patients usually have some form of vascular issues and plaque that builds up in the brain. Traditional medications that are prescribed are thought to slow the progression of the disease; however, many experts now believe that plaque is the body's way of protecting the brain from the disease.

Plaque is known as Atherosclerosis, and while it may offer protective measures against the initial stages of Alzheimer's, it is the primary cause of stroke and other vascular issues. One sign that this is occurring in your body is the diagnosis of high blood pressure or high cholesterol.

The Benefits of Vitamin C

There have been multiple studies on patients with various diseases, including Alzheimer's, that received high doses of IV (intravenous) vitamin C, and the promising results of these patients improving is remarkable.

In testing the brain and blood of Alzheimer's patients, it has been well documented that they have severe vitamin C deficiencies. Vitamin C can dissolve toxic protein aggregates in the brains of Alzheimer's patients. Having sufficient vitamin C is one of the critical components to staving off or combating this progressive disease. It would behoove patients if the specialists treating Alzheimer's patients looked more closely at vitamin C therapy because it is thought to be a significant treatment breakthrough for patients with neurodegenerative diseases. High doses of vitamin C have also been studied in the favorable improvement of the myelin sheath that protects the nerves. The myelin sheath plays a crucial role in patients with neurological issues.

IV Therapy Advantages

Vitamin C can be absorbed in relatively large quantities by the body, but even more so by IV therapy. When given intravenously, larger amounts are absorbed and not excreted than by taking a supplement or by eating fruits and vegetables alone.

While eating a healthy diet and taking vitamins is very beneficial, the IV-induced vitamin C is able to enter the bloodstream, infiltrate tissues and pass through the blood-brain barrier easier than with traditional supplementation.

Vidaful offers numerous IV therapy treatments. Intravenous Nutrient Therapy is a method of feeding vitamins, minerals, and other natural therapeutic substances directly into the bloodstream and cells, bypassing the digestive tract where many

nutrients may be partially or fully lost due to higher than normal blood levels of specified nutrients, which have been shown by the scientific literature to be effective in the treatment of many conditions and disease processes.

Vidaful Offers Numerous Services Including the Following:

- IV Therapy
- Ozone Therapy
- Colon Hydrotherapy
- PEMF
- Hormone Therapy
- Hyperbaric Chamber
- Stem Cell Therapy
- Functional Blood Analysis
- Other Alternative Options That are Safe and Drug Free

Naturally Heal & Replenish Your Body

Vidaful is a life enhancing alternative medicine office in Naples, FL. Vidaful seeks to improve health through IV therapy, Stem Cell therapy, Hyperbaric Chambers, Ozone Therapy, Colonics and other alternative medicine without the use of drugs. We love finding new ways to advance and develop the lives of the people we meet in whatever state they are when we meet. This is why we have sought to implement the latest developments in life enhancing alternative natural medicine to the whole of our patients lives. We're committed to blending the best of traditional medicine with the fundamentals of naturopathic principles. To this end, we have formed compelling therapies designed to prevent undue aging and circumvent disease while promoting the patient experience of balanced health.

To find out more, or to schedule your appointment, please call **(484) 588-5355** or visit **www.vidaful.com**.
