# WELCOME TO SALE 347

I am delighted to welcome you to Sale 347 – the first sale in Downies Australian Coin Auctions' 60th anniversary year!

Australia's oldest and most respected numismatic auction house, we held our first sale way back in 1963. Over the last six decades, and now 347 consecutive public auctions, Downies has established a formidable reputation for expertise, enthusiasm and professionalism. Whilst staying true to our values, we are always looking for ways to improve – as exemplified by the new 'seasonal' changes to our auction catalogue cover! We hope you like the look of our Summer edition!

This landmark year in our company's history is set to be our biggest yet. Thanks to a huge number of consignors putting their trust in Downies, the four sales of 2023 are already littered with a vast array of important, highly desirable collectables across a wide range of fields. The action starts right here, with the sensational wealth of material seen in Sale 347.

Encompassing more than 3,700 lots, the sale is highlighted by a spectacular selection of Australian predecimal banknotes – including what is perhaps the largest number of Cerutti/Collins notes we have ever offered! Also featuring an about Uncirculated 1852 Adelaide Pound Type II, a 2006 Error Proof Set (with 2005 Roos \$1) and a very rare 1855 Port Phillip Farmers Society Gold Prize Medal – plus an excellent range of Ancients, Antiquities, British and more – the tremendous diversity of our first 60th anniversary sale will command attention worldwide.

As always, I would like to pay tribute to the Downies Australian Coin Auctions staff, who have worked incredibly hard to ensure that Sale 347 is a fitting start to our 60th anniversary year. Please note that our popular Live Auction Platform ([auctions.downies.com](https://www.downies.com)) will once again be up and running in Sale 347, and to keep up-to-date with our viewing and sale conditions, please keep an eye on our website, [www.downies.com/auctions](https://www.downies.com/auctions).

With our 60th birthday sure to bring unprecedented focus on our auctions in 2023, there has never been a better time to consign to Downies. We are still accepting consignments for Sale 348, to be held in May, with sales to follow in August and October. If you are keen to sell part or all of your collection, we would be delighted to hear from you.

To all Downies collectors, I hope you enjoy reviewing the array of material found in Sale 347. Enjoy your collecting!

# ADVICE

## FOR ABSENTEE & NEW BIDDERS

- As a bidder at our Public Auction, you will be able to decide the level at which you would like to purchase an item. To assist bidders in the preparation of their bids, the Auctioneer has set an “estimated market price” on each lot. This is a conservative guide to the market value of the items described, and you may bid above or below this estimate. Please note however, that bids below 60% of this estimate will not be processed.
- Purchase of lots on extension (extended payment terms) will NOT be permitted
- Our descriptions are complete and our grading is conservative. Our aim is to give you the best possible guide to the actual condition of the item you are seeking. We value our absentee bidders and believe that our grading and pricing policies work to the mutual long term benefit of both the vendor and buyer.
- Your bids will be executed in the strictest confidence by an official representative of the Company. They will be regarded as the maximum bids that you are prepared to pay and we will always try to purchase on your behalf at a price lower than your maximum bids given.
- On items that you anticipate the price may far exceed the estimate, we can offer you some flexibility in the execution of your bid. Obviously, you may submit a bid well above the estimate and this will be treated as your maximum bid (excluding the buyer's commission). Alternatively, you can place a conservative bid and, if the bidding far exceeds it, you can elect to increase that bid by a fixed percentage. The higher bid will only be executed if necessary, and strictly according to your instructions. Please fill in the appropriate space on the bid sheet if this is required.
- If you are interested in a number of lots, but only wish to spend a limited amount of money, please write down your bids and then clearly indicate, in the space provided, the maximum amount you wish to spend.
- If you are interested in a particular item, and there are two or more identical lots; you can clearly indicate on your bid sheet that you wish to bid for “one or more only” of the nominated lots on offer. This must be made very clear on the bid sheet.
- Remember, the benefit is yours by buying at Public Auction: you can decide exactly what you want to pay for any item, and bid to that level.
- In preparing your bids, it is important to note that a 22.0% buyer's commission including GST with a minimum charge per lot of \$10, is added to the knock down price of each lot. Do not add commission to your maximum bid.

**Remember that successful absentee bids at the same level will be awarded to the earliest bidder at that level – so bid early!  
And please note that bids submitted by normal mail may be affected by recent Australia Post delivery policy changes.**

### Gradings and terminology used in this catalogue

**Proof:** Proof coins are the most beautiful coins imaginable. They are struck using specially hardened dies, and highly polished blanks. The result is a coin of great clarity and depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

**Prooflike:** Often a non-official mint strike, or medallic in nature.

**Brilliant Uncirculated (B/Unc) or choice Unc:** Uncirculated, but with higher than normal sheen.

**Uncirculated (Unc):** An uncirculated or unused item. Full detail, no wear, brilliance and lustre are hallmarks of an uncirculated coin, whereas no bends, folds or staining are qualities of an uncirculated banknote.

**Extremely Fine (EF):** Coins show only traces of wear to the high points of the design and only light surface marks from circulating. Otherwise the design is clear and sharp and the coin will have much lustre. Notes are clean and crisp with only the slightest signs of creases and folds.

**Very Fine (VF):** Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

**Fine (F):** The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will

have clear signs of soiling and heavy creasing, possibly also some tearing.

**Very Good (VG):** Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life, and are of little value unless they are very scarce or rare.

**choice:** An exceptional example of the given grade.

**good (g):** Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

**about (a):** Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

Lots purchased on behalf of absentee bidders will be forwarded, fully insured, by the most practical method at the risk of the purchaser who shall bear **all costs** incurred. Absentee and room bidders may vary these delivery methods, but at their own risk. Such alterations must be advised in advance.

## General

- Each lot is sold as genuine and correctly described. Unless described, all official packaging and relevant certificates are presented within the lot. The purchaser is at liberty to return the lot by giving written notice with seven days (or in the case of overseas buyers, within 14 days) of the sale, if he/she proves that the lot is not genuine or not correctly described. The onus on proving a lot to be not genuine lies with the purchaser. Proof of the inability of a recognised expert to express a definite opinion will not discharge this onus.
- Watches, instruments and devices with working mechanisms are verified to be accurately described. Whilst every care is taken to provide secure packaging for all items in transit, no responsibility may be assigned to the Auctioneer for lots which are described as being 'in working order' but are found to be not working at time of receipt. Such lots are sold "as is" and are not subject to return.
- No lot is to be rejected if subsequent to the sale it has been removed from its sealed holder and/or has been treated by any process, unless the Auctioneer's permission to subject the lot to such treatment has first been obtained in writing.
- No lot is to be rejected if the purchaser or their agent has inspected the lot prior to the sale, irrespective of whether or not any item or items are incorrectly described.
- Failure on the part of the bidder or purchaser to comply with the conditions stated previously, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots may be re-sold by public or private sale and any resultant deficiency shall be made good by the defaulter.
- Bids from minors will not be accepted unless accompanied by a full cash deposit or suitable guarantee.
- Phone bids are most welcome but must be confirmed in writing well before the sale.

- No hand luggage (such as bags) or hand-held apparel will be permitted in the viewing room under any circumstances. Staff are happy to hold such items in a secure room on your behalf.

- 1104** 2006 Proof set incorrectly including a One Dollar 2005 Mob of Roos coin, exceedingly rare and not often seen on the market these days

*An error of this type may normally have been accepted as an accidental (albeit relatively valuable) error in the hands of collectors - an example of a similar error is the 1986 Mint set where a quantity of sets contained a 1985 Ten Cents coin. The exciting aspect of this error set is that the One Dollar 2005 Mob of Roos coin was not even struck for the 2005 Proof set which contained the Dancing Man design - the coin therefore was not even meant to be struck for release in the first place! The coin is therefore exceedingly rare in its own right*

*First discovered by Downies Coins as 2006 Proof sets were being mailed out to purchasers when they were initially released, it has since been estimated that only about 40 sets with this error were released or have been identified. Subsequently, a few of the 'error' 2005 One Dollar coins have been separated from sets and sold individually, but it is believed that most sets containing the error remain complete* *Est. \$3,500*

The odd circulation coin around the Millennium a little off grade otherwise a very comprehensive mainly choice grade collection - any collector of this theme would be proud to own it (127 coins) *Est. \$350*
- 1146** Two Dollars set 1988 to 2018 very near complete (missing only 2017 Lest we Forget, 2018 Invictus Games and Armistice Remembrance) in Dansco 'Supreme' One-Two Dollars album - the red poppy and coronation coins are both C mintmarks. A few pre 2006 coins a little dull in appearance although the collection as a whole is exceptional - a highly desirable set (52 coins) *Est. \$750*
- 1147** Year sets 1966 to 2013 very near complete in plastic page album: an unusual collection with the Twenty and Fifty Cents issues separated from the year sets, but noted baby set-only Dollars and 2-coin set-specific issues present in most cases (also noticed Twenty Cents 2013 coloured coin), heaps of extras for many dates, and small collection baby mint set tokens (total F/V exceeds \$210). Missing a few notable mint-set-only types otherwise in mixed condition but with some very good pickings (100s) *Est. \$350*
- 1148** Group of partial sets in Dansco press-in albums: Five Cents 1966-2006 less 1972, 1985 and 1986 but with two spare 1997  
Five and Ten Cents 1966-1996 less Five Cents 1972, 1985, 1986; Ten Cents 1985, 1986, 1987, 1991, 1995 and 1996  
Twenty and Fifty Cents album containing Twenty Cents 1973, 1974, 1975, 1977, 1979, 1981, 1982; Fifty Cents 1966 and 1970  
The lot also contains Scholastic Twenty Cents 12-coin and Fifty Cents 27-coin collections of mainly commem issues to 2005. Condition quite mixed but generally Fine and much better with a few Unc-choice Unc issues. The Dansco albums in good to excellent order (lot) *Est. \$60*

**3112** Federal Bank of Australia Limited certificate for 50 partly paid £5 shares dated 15th Sept 1892. Usual spike and pin holes top left corner, some light staining centre of right margin otherwise crisp VF or better with nice vignette

*The Federal Bank of Australia was established in Melbourne in 1881 about the same time as the Federal Building Society, and opened for business in April, 1882. Initially successful, the company expanded to New South Wales by absorbing the Sydney and Country Bank Limited in 1882*

*The managing director was the politician James Munro (Premier of Victoria 1890-1892) who was also president on the Federal Building Society. Both institutions principally invested in speculative land companies which boomed in the 1880s and peaked around 1890. The boom was followed by a crash, and the precipitous decline in property prices led to the collapse of building societies burdened by unsustainable debts, with the uncertainty soon spreading to banks. A run by depositors in late 1892 forced the Federal Bank to close its doors "temporarily" on 30 January 1893, but it never reopened and became the first associated bank (as opposed to building society) to fail as part of the Australian banking crisis of 1893* *Est. \$250*

The Association offered to lend £100,000, conditional on the provision of security and full disclosure of the bank's accounts. The Mercantile refused to allow inspection of its books and the offer was withdrawn. The bank closed on 5th March. It, like the Federal Bank of Australia, was closely linked with a building society which added to the fragility of its financial standing - building societies suffered failures/collapses earlier than banks in the 1890s depression* *Est. \$200*
