# ADVICE

## FOR ABSENTEE & NEW BIDDERS

- As a bidder at our Public Auction, you will be able to decide the level at which you would like to purchase an item. To assist bidders in the preparation of their bids, the Auctioneer has set an “estimated market price” on each lot. This is a conservative guide to the market value of the items described, and you may bid above or below this estimate. Please note however, that bids below 60% of this estimate will not be processed.
- Purchase of lots on extension (extended payment terms) will NOT be permitted
- Our descriptions are complete and our grading is conservative. Our aim is to give you the best possible guide to the actual condition of the item you are seeking. We value our absentee bidders and believe that our grading and pricing policies work to the mutual long term benefit of both the vendor and buyer.
- Your bids will be executed in the strictest confidence by an official representative of the Company. They will be regarded as the maximum bids that you are prepared to pay and we will always try to purchase on your behalf at a price lower than your maximum bids given.
- On items that you anticipate the price may far exceed the estimate, we can offer you some flexibility in the execution of your bid. Obviously, you may submit a bid well above the estimate and this will be treated as your maximum bid (excluding the buyer's commission). Alternatively, you can place a conservative bid and, if the bidding far exceeds it, you can elect to increase that bid by a fixed percentage. The higher bid will only be executed if necessary, and strictly according to your instructions. Please fill in the appropriate space on the bid sheet if this is required.
- If you are interested in a number of lots, but only wish to spend a limited amount of money, please write down your bids and then clearly indicate, in the space provided, the maximum amount you wish to spend.
- If you are interested in a particular item, and there are two or more identical lots; you can clearly indicate on your bid sheet that you wish to bid for “one or more only” of the nominated lots on offer. This must be made very clear on the bid sheet.
- Remember, the benefit is yours by buying at Public Auction: you can decide exactly what you want to pay for any item, and bid to that level.
- In preparing your bids, it is important to note that a 22.0% buyer's commission including GST with a minimum charge per lot of \$10, is added to the knock down price of each lot. Do not add commission to your maximum bid.

**Remember that successful absentee bids at the same level will be awarded to the earliest bidder at that level – so bid early!  
And please note that bids submitted by normal mail may be affected by recent Australia Post delivery policy changes.**

### Gradings and terminology used in this catalogue

**Proof:** Proof coins are the most beautiful coins imaginable. They are struck using specially hardened dies, and highly polished blanks. The result is a coin of great clarity and depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

**Prooflike:** Often a non-official mint strike, or medallic in nature.

**Brilliant Uncirculated (B/Unc) or choice Unc:** Uncirculated, but with higher than normal sheen.

**Uncirculated (Unc):** An uncirculated or unused item. Full detail, no wear, brilliance and lustre are hallmarks of an uncirculated coin, whereas no bends, folds or staining are qualities of an uncirculated banknote.

**Extremely Fine (EF):** Coins show only traces of wear to the high points of the design and only light surface marks from circulating. Otherwise the design is clear and sharp and the coin will have much lustre. Notes are clean and crisp with only the slightest signs of creases and folds.

**Very Fine (VF):** Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

**Fine (F):** The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will

have clear signs of soiling and heavy creasing, possibly also some tearing.

**Very Good (VG):** Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life, and are of little value unless they are very scarce or rare.

**choice:** An exceptional example of the given grade.

**good (g):** Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

**about (a):** Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

The lot(s) are to be paid for by Australian buyers within two days of receiving the invoice, and by overseas buyers within 7 days of receiving the invoice. **A service charge of 2% per month will be added to all overdue accounts.** Failure to pay in full within the specified time also entitles the Auctioneer to re-sell the lots, with any resulting deficiency being made good by the defaulter.

## Delivery/Collection of Lots

- Lots can be picked up from 3 Redland Drive Mitcham. No lots will be delivered to buyers without payment in full. Lots purchased on behalf of absentee bidders will be forwarded, fully insured, by the most practical method at the risk of the purchaser who shall bear **all costs** incurred. No lots will be delivered or collected during the Auction.

Absentee and room bidders may vary these delivery methods, but at their own risk. Such alterations must be advised in advance.

## General

- Each lot is sold as genuine and correctly described. Unless described, all official packaging and relevant certificates are presented within the lot. The purchaser is at liberty to return the lot by giving written notice with seven days (or in the case of overseas buyers, within 14 days) of the sale, if he/she proves that the lot is not genuine or not correctly described. The onus on proving a lot to be not genuine lies with the purchaser. Proof of the inability of a recognised expert to express a definite opinion will not discharge this onus.
- Watches, instruments and devices with working mechanisms are verified to be accurately described. Whilst every care is taken to provide secure packaging for all items in transit, no responsibility may be assigned to the Auctioneer for lots which are described as being 'in working order' but are found to be not working at time of receipt. Such lots are sold "as is" and are not subject to return.
- No lot is to be rejected if subsequent to the sale it has been removed from its sealed holder and/or has been treated by any process, unless the Auctioneer's permission to subject the lot to such treatment has first been obtained in writing.
- No lot is to be rejected if the purchaser or their agent has inspected the lot prior to the sale, irrespective of whether or not any item or items are incorrectly described.
- Failure on the part of the bidder or purchaser to comply with the conditions stated previously, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots may be re-sold by public or private sale and any resultant deficiency shall be made good by the defaulter.
- Bids from minors will not be accepted unless accompanied by a full cash deposit or suitable guarantee.
- Phone bids are most welcome but must be confirmed in writing well before the sale.

## Viewing

- Downies Australian Coin Auctions will apply the following strict guidelines for intending auction viewers:
- Viewers will be admitted to the viewing room subject to positive proof of identity – this requires the furnishing of a Government issue photo ID (such as a driver licence, passport). These conditions will be strictly adhered to, regardless of any previous dealings the viewer has had with Downies or Downies Australian Coin Auctions.
- No hand luggage (such as bags) or hand-held apparel will be permitted in the viewing room under any circumstances. Staff are happy to hold such items in a secure room on your behalf.

### SINGLES

- 1776** WWI Military Cross George V and second award bar on replacement copy suspender and ribbon without brooch pin, the reverse of the MC chisel engraved with Major J Doherty 7th F.A.Bde AIF, housed in original case of issue. The medal EF

*James Doherty, a company secretary, was born 6th March 1888 in Balmain Sydney and was educated at Sydney University. He enlisted 3rd Sept 1915 and embarked Melbourne on HMAT A20 Hororata 27th Sept 1915 with 1 FAB Reinforcements (1-11). He served with 102nd (Howitzer) Battery, 2nd Australian FAB on the Western Front, earning an MID in March 1917 and was wounded near Ypres 31st July 1917 before being awarded the MC and second award bar. On gaining his first distinction, General Birdwood wrote:*

*I write to convey to you my heartiest congratulations on the Military Cross, which has been awarded to you in recognition of the conspicuous bravery you displayed when in charge of your battery. Thank you so much for your prompt and gallant action, which undoubtedly saved much damage and loss of life Subsequently transferring to the 7th Australian Field Artillery Battery and gaining promotion to Major, Doherty died of bronchopneumonia on 26th Feb 1919 whilst still in service and is buried in Brookwood Military Cemetery Surrey. His entitlement incl the 1914-15 Star as 2/Lieut, and BWM and Victory Medal with Oak Leaf as Major*

*MC London Gazette 16 August 1918 - the original Recommendation, dated 14 January 1918, states*

*This officer during the temporary absence of his Battery Commander was in charge of his Battery on Wyschaete Ridge. N 14 January 1918, during a series, a premature explosion occurred in one of his guns completely wrecking the piece, putting the entire detachment out of action (3 wounded, 2 dangerously) and setting the charges and pit on fire. Captain Doherty was quickly on the spot, and regardless of the fact that High Explosive and Lethal Gas shells were stored in the fiercely blazing pit, entered alone and attempted to extinguish the flames. He then organised a chain of fire buckets, himself remaining in the pit, and personally got the fire under control. His action was most prompt and courageous, and undoubtedly saved much damage and probable loss of life MC Second Award London Gazette 16 September 1918 - the original Recommendation, dated 16 May 1918, states*

*For conspicuous gallantry and devotion to duty. On the night of 28-29 April, at Le Heupier near Caestre when the 102nd Battery Wagon Lines were subjected to a sudden burst of shell fire. A large tree near which some men were sleeping was hit and fell on four of the men. This officer organised a rescue party and was successful in extricating them, two of whom were killed. The further shelling set fire to a dump of ammunition which spread to the stables. Captain Doherty then turned his attention to the extinguishing of this fire, and the withdrawal of the horses from the stable. By his courage and ability he set a splendid example to the party of men he organised and in addition to the rescue of the men referred to, was instrumental in saving valuable government property*

*On the following day, April 21, 1943, he was ordered to keep touch with the enemy. ## Sports Memorabilia

### ATHLETICS

- 1846** National Olympic Association for Promoting Physical Education medal 42mm in silver by maker M&K missing suspension ring, ribbon and suspender bar, thus not allowing us to determine the nature of the award, although silver medals were awarded to winners of association sporting events. Of uncertain age but possibly pre 1896. The medal with a few light field marks else VF or better and most interesting all the same  
*Prior to the establishment of the International Olympics Committee and the creation of the (new) Olympic Games from 1896, the National Olympian Association (NOA) was founded in Britain in November 1865 by William Perry Brookes (a local Much Wenlock doctor) principally to establish an amateur multi-sport National Olympian Games to be held in cities around the country each year (Olympick, Olympian and Olympic Games and festivals had previously been conducted in Britain before this time - including in Much Wenlock - but were largely localised affairs.) Despite the association's commitment to foster the popularity of, and to support physical education and exercise through sporting activities; the Games, after events in 1866\* (London) and 1867 (Birmingham) failed to prosper (not helped by pressure from the newly formed Amateur Athletic Association) with the sixth and final event held in a village called Hadley in 1883. The association later became the National Physical Recreation Society which took the Latin motto of Brookes "the strength of the citizen is the strength of the state" as appears on the obverse of this medal. After attending the Wenlock Olympian Games in 1890, Baron Pierre de Coubertin founded the International Olympic Committee, and credited Brookes for the inspiration. The 2012 London Olympics mascot - Wenlock - drew its name from the town that helped inspire the Olympic movement \* Interestingly, the winner of the 440 yard hurdle race at the Crystal Palace Games was a W.G. Grace who had been excused from fielding for the England XI v Surrey cricket match at the Oval! Artefacts of the NOA are held by the Wenlock Olympian Society (founded by Brookes in 1850) in Britain which - prior to the Covid pandemic - were also connected to the Heathcote (Victoria) Community Games in Australia, where WOS medals to winners of key events were presented  
Edited from "The British Olympics: Britain's Olympic Heritage 1612-2012" by Martin Polley, and contributions from the Wenlock Olympian Society *Est. \$100**
