# WELCOME

## TO SALE 346

Sure to prove a fabulous finale to fantastic year, I am delighted to welcome you to Downies Australian Coin Auctions' fourth and final sale of 2022 – Sale 346!

One of the largest and most comprehensive sales we have conducted in nearly 60 years of public auctions, Sale 346 encompasses more than 3,700 lots. This gigantic sale is highlighted by perhaps the largest range of predecimal notes we have offered in a single auction, including a 1942 Armitage/McFarlane Ten Shillings Star – graded by PCGS at 63 Choice Unc, and possibly the finest known! Also featuring a 1927 Canberra Florin Proof, a 1935 Halfpenny & Penny Proof Pair, a 1930 Penny and an 1852 Adelaide Pound, plus a strong range of RAM and Perth Mint issues, our last sale of the year is sure to command attention worldwide.

To ensure that collectors from our ever-increasing global audience are able to participate fully, and place bids in 'real time', our popular Live Auction Platform ([auctions.downies.com](https://www.auctions.downies.com)) will once again be up and running in Sale 346. To keep up-to-date with our viewing and sale conditions, please keep an eye on our website, [www.downies.com/auctions](https://www.downies.com/auctions).

As always, I would like to pay tribute to the Downies Australian Auctions staff, who have put in an extraordinary effort to ensure that Sale 346 will prove a sensational conclusion to 2022. To all who have consigned to the auction, I thank you for your contribution to what is certain to be another outstanding Downies sale.

Scarcely pausing to draw breath, preparations for our first sale of 2023 – to be held in February – are well and truly underway. If you are keen to sell part or all of your collection, we would be delighted to discuss any consignment matters.

To all Downies collectors, I hope you enjoy reviewing the wealth of material found in Sale 346. Enjoy your collecting!

# ADVICE

## FOR ABSENTEE & NEW BIDDERS

- As a bidder at our Public Auction, you will be able to decide the level at which you would like to purchase an item. To assist bidders in the preparation of their bids, the Auctioneer has set an “estimated market price” on each lot. This is a conservative guide to the market value of the items described, and you may bid above or below this estimate. Please note however, that bids below 60% of this estimate will not be processed.
- Purchase of lots on extension (extended payment terms) will NOT be permitted
- Our descriptions are complete and our grading is conservative. Our aim is to give you the best possible guide to the actual condition of the item you are seeking. We value our absentee bidders and believe that our grading and pricing policies work to the mutual long term benefit of both the vendor and buyer.
- Your bids will be executed in the strictest confidence by an official representative of the Company. They will be regarded as the maximum bids that you are prepared to pay and we will always try to purchase on your behalf at a price lower than your maximum bids given.
- On items that you anticipate the price may far exceed the estimate, we can offer you some flexibility in the execution of your bid. Obviously, you may submit a bid well above the estimate and this will be treated as your maximum bid (excluding the buyer's commission). Alternatively, you can place a conservative bid and, if the bidding far exceeds it, you can elect to increase that bid by a fixed percentage. The higher bid will only be executed if necessary, and strictly according to your instructions. Please fill in the appropriate space on the bid sheet if this is required.
- If you are interested in a number of lots, but only wish to spend a limited amount of money, please write down your bids and then clearly indicate, in the space provided, the maximum amount you wish to spend.
- If you are interested in a particular item, and there are two or more identical lots; you can clearly indicate on your bid sheet that you wish to bid for “one or more only” of the nominated lots on offer. This must be made very clear on the bid sheet.
- Remember, the benefit is yours by buying at Public Auction: you can decide exactly what you want to pay for any item, and bid to that level.
- In preparing your bids, it is important to note that a 22.0% buyer's commission including GST with a minimum charge per lot of \$10, is added to the knock down price of each lot. Do not add commission to your maximum bid.

**Remember that successful absentee bids at the same level will be awarded to the earliest bidder at that level – so bid early!  
And please note that bids submitted by normal mail may be affected by recent Australia Post delivery policy changes.**

### Gradings and terminology used in this catalogue

**Proof:** Proof coins are the most beautiful coins imaginable. They are struck using specially hardened dies, and highly polished blanks. The result is a coin of great clarity and depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

**Prooflike:** Often a non-official mint strike, or medallic in nature.

**Brilliant Uncirculated (B/Unc) or choice Unc:** Uncirculated, but with higher than normal sheen.

**Uncirculated (Unc):** An uncirculated or unused item. Full detail, no wear, brilliance and lustre are hallmarks of an uncirculated coin, whereas no bends, folds or staining are qualities of an uncirculated banknote.

**Extremely Fine (EF):** Coins show only traces of wear to the high points of the design and only light surface marks from circulating. Otherwise the design is clear and sharp and the coin will have much lustre. Notes are clean and crisp with only the slightest signs of creases and folds.

**Very Fine (VF):** Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

**Fine (F):** The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will

have clear signs of soiling and heavy creasing, possibly also some tearing.

**Very Good (VG):** Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life, and are of little value unless they are very scarce or rare.

**choice:** An exceptional example of the given grade.

**good (g):** Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

**about (a):** Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

 (for overseas transfers. Please add \$30 for bank fees)

### Paypal Details

Paypal Account Name: auctions@downies.com  
 Paypal surcharge - Australia 3% & International 3.5%

### Purchaser

1. The purchaser is to be the highest bidder. Any dispute arising as to the highest bidder will be determined by the Auctioneer who may re-offer any disputed lot.

### Auctioneer

2. The Auctioneer shall regulate all bidding. The procedure is for bids to be advanced on the previous bid at the Auctioneer's discretion or as per the table below. The Auctioneer's starting price shall be one bid over the second highest absentee bid received. Absentee bidders should bid early, as first bids at the same level receive priority.

Online platform Bid Increment Table

| From     | To       | Increment |
|----------|----------|-----------|
| \$0      | \$100    | \$5       |
| \$101    | \$200    | \$10      |

| \$15,001 | \$30,000 | \$1,000   |
| \$30,001 | +        | \$2,000   |

3. If so requested, room buyers may be required to pay the whole or part of the purchase price at the sale. Failure to comply with this rule in respect of any lot entitles the Auctioneer to re-sell the lot or lots with any resulting deficiency being made good by the defaulter.
4. The Auctioneer reserves the right to (a) refuse any bid and (b) bid on behalf of clients. While every care and attention is taken in executing bids and written instructions, the Auctioneer regrets that he/she cannot accept responsibility for any errors.
5. The Auctioneer shall not be liable to the vendor for any default of the Purchaser or Vendor.

### Disputes

6. In the event of any dispute, the Auctioneer shall have sole discretion to resolve the dispute and may re-offer the disputed lot.

### Reserve Price

7. Bids below 60% of the published estimate will not be accepted.

### Buyer's Premium

8. A 22.0% buyer's premium (including GST) with a minimum charge of \$10 per lot will be added to the hammer price of each lot and is payable by ALL buyers.

## Bidder Details

- All bidders must complete a bidder's registration form and supply sufficient information and references as required by Downies Australian Coin Auctions – this will require the furnishing of sufficient proof of identity.

The submission of absentee bids constitutes registration; though the Auctioneer reserves the right to further establish the bona fides of such bidders and require a security deposit or credit card details prior to acceptance of the bids.

Clients unknown to Downies Australian Coin Auctions must register no later than 24 hours prior to the commencement of the sale.

## Agent Bidding

- Agents bidding on behalf of disclosed and undisclosed clients do so on their own responsibility both for payment and safe delivery of the lots.

Agents will be responsible for any non-payment or shortfall of accounts.

## Payment Terms

- Title of purchased lots shall not pass until the purchase price and buyer's expenses are paid in full with cleared funds in **Australian Dollars**. We accept Cash, EFTPOS, Electronic Funds Transfer, Bank or Personal Cheque, Paypal and Credit Card (subject to surcharge). Overseas buyers not using credit card facilities will be required to add AUD \$30 to payments to cover bank charges; this will appear on the buyer's invoice.

Clearance of cheques and confirmation of direct deposits will delay collection/delivery.

## Purchaser Responsibilities

- The buyer of each lot is to be responsible for it from the time it is "knocked down". Payment is to be made in full with cleared funds before delivery or collection. The lot(s) are to be paid for by Australian buyers within two days of receiving the invoice, and by overseas buyers within 7 days of receiving the invoice. **A service charge of 2% per month will be added to all overdue accounts.** Failure to pay in full within the specified time also entitles the Auctioneer to re-sell the lots, with any resulting deficiency being made good by the defaulter.

## Delivery/Collection of Lots

- Lots can be picked up from 3 Redland Drive Mitcham. No lots will be delivered to buyers without payment in full. Lots purchased on behalf of absentee bidders will be forwarded, fully insured, by the most practical method at the risk of the purchaser who shall bear **all costs** incurred. No lots will be delivered or collected during the Auction.

Absentee and room bidders may vary these delivery methods, but at their own risk. Such alterations must be advised in advance.

## General

- Each lot is sold as genuine and correctly described. Unless described, all official packaging and relevant certificates are presented within the lot. The purchaser is at liberty to return the lot by giving written notice with seven days (or in the case of overseas buyers, within 14 days) of the sale, if he/she proves that the lot is not genuine or not correctly described. The onus on proving a lot to be not genuine lies with the purchaser. Proof of the inability of a recognised expert to express a definite opinion will not discharge this onus.
- Watches, instruments and devices with working mechanisms are verified to be accurately described. Whilst every care is taken to provide secure packaging for all items in transit, no responsibility may be assigned to the Auctioneer for lots which are described as being 'in working order' but are found to be not working at time of receipt. Such lots are sold "as is" and are not subject to return.
- No lot is to be rejected if subsequent to the sale it has been removed from its sealed holder and/or has been treated by any process, unless the Auctioneer's permission to subject the lot to such treatment has first been obtained in writing.
- No lot is to be rejected if the purchaser or their agent has inspected the lot prior to the sale, irrespective of whether or not any item or items are incorrectly described.
- Failure on the part of the bidder or purchaser to comply with the conditions stated previously, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots may be re-sold by public or private sale and any resultant deficiency shall be made good by the defaulter.
- Bids from minors will not be accepted unless accompanied by a full cash deposit or suitable guarantee.
- Phone bids are most welcome but must be confirmed in writing well before the sale.

## Viewing

- Downies Australian Coin Auctions will apply the following strict guidelines for intending auction viewers:
- Viewers will be admitted to the viewing room subject to positive proof of identity – this requires the furnishing of a Government issue photo ID (such as a driver licence, passport). If no photo ID is available, then two forms of ID, with at least one with a signature (credit card etc.), will be acceptable. These conditions will be strictly adhered to, regardless of any previous dealings the viewer has had with Downies or Downies Australian Coin Auctions.
- No hand luggage (such as bags) or hand-held apparel will be permitted in the viewing room under any circumstances. Staff are happy to hold such items in a secure room on your behalf.

**Auction Department Staff:** Tony Gordon, Arturo Elizalde, Roger Liversidge, Christopher Pavey, Em Kiratipun, Michael Wade

## SINGLES

**1987** WWI Military Cross George V and second award bar on replacement copy suspender and ribbon without brooch pin, the reverse of the MC chisel engraved to Major J Doherty 7th F.A.Bde AIF, housed in original case of issue. The medal EF

*James Doherty, a company secretary, was born 6th March 1888 in Balmain Sydney and was educated at Sydney University. He enlisted 3rd Sept 1915 and embarked Melbourne on HMAT A20 Hororata 27th Sept 1915 with 1 FAB Reinforcements (1-11). He served with 102nd (Howitzer) Battery, 2nd Australian FAB on the Western Front, earning an MID in March 1917 and was wounded near Ypres 31st July 1917 before being awarded the MC and second award bar. On gaining his first distinction, General Birdwood wrote:*

*I write to convey to you my heartiest congratulations on the Military Cross, which has been awarded to you in recognition of the conspicuous bravery you displayed when in charge of your battery. Thank you so much for your prompt and gallant action, which undoubtedly saved much damage and loss of life*

*Subsequently transferring to the 7th Australian Field Artillery Battery and gaining promotion to Major, Doherty died of bronchopneumonia on 26th Feb 1919 whilst still in service and is buried in Brookwood Military Cemetery Surrey. His entitlement incl the 1914-15 Star as 2/Lieut, and BWM and Victory Medal with Oak Leaf as Major*

*MC London Gazette 16 August 1918 - the original Recommendation, dated 14 January 1918, states*

*This officer during the temporary absence of his Battery Commander was in charge of his Battery on Wyschaete Ridge. N 14 January 1918, during a series, a premature explosion occurred*

*in one of his guns completely wrecking the piece, putting the entire detachment out of action (3 wounded, 2 dangerously) and setting the charges and pit on fire. Captain Doherty was quickly on the spot, and regardless of the fact that High Explosive and Lethal Gas shells were stored in the fiercely blazing pit, entered alone and attempted to extinguish the flames. He then organised a chain of fire buckets, himself remaining in the pit, and personally got the fire under control. His action was most prompt and courageous, and undoubtedly saved much damage and probable loss of life*

*MC Second Award London Gazette 16 September 1918 - the original Recommendation, dated 16 May 1918, states*

*For conspicuous gallantry and devotion to duty. On the night of 28-29 April, at Le Heupier near Caestre when the 102nd Battery Wagon Lines were subjected to a sudden burst of shell fire. A large tree near which some men were sleeping was hit and fell on four of the men. This officer organised a rescue party and was successful in extricating them, two of whom were killed. The further shelling set fire to a dump of ammunition which spread to the stables. Captain Doherty then turned his attention to the extinguishing of this fire, and the withdrawal of the horses from the stable. By his courage and ability he set a splendid example to the party of men he organised and in addition to the rescue of the men referred to, was instrumental in saving valuable government property*

## 1966 LONDON MINT PROOF OF RECORD SET

**2379** It gives us great pleasure to present this 1966 Royal Mint London Proof of Record 4-Coin Collection including the only known London Mint 2 Cents coin in private hands. A largely unknown piece of Australia's earliest decimal history, this astonishing collection is a rarity of the highest order

To ensure a smooth transition from predecimal to decimal currency, the Australian Government needed to have hundreds of millions of coins struck for the decimal currency changeover in 1966. For this purpose, four different mints were employed for the production of the range of coins required; and the newly established Royal Australian Mint (RAM) was joined by the Perth Mint, Melbourne Mint and the Royal Mint London in the race to have the required coins ready for C-Day on the 14th of February 1966

The Royal Mint, which was at that time striking coins for an array of countries converting to decimal currency - including Britain itself - struck the new Stuart Devlin-designed 5c, 10c and 20c coins for circulation in Australia. The RAM struck Proof examples of all six new Australian denominations for the creation of a 'collector Proof Set', but no other mint was required to strike 1966 Proof coins for commercial purposes. As has been common practice for many, many years, however, the Royal Mint did strike specimen examples of the 1966 coins as 'proof of record' pieces. Before the mass production of proof coinage for collector sets, proof and specimen coins were struck by mints for archival purposes, or for distribution to other mints, VIPs or public institutions. As a result, such coins were struck in the tiniest of numbers and rarely if ever reached the hands of collectors. It is this custom that led the Royal Mint to produce a small number of archival examples of the Australian coins it struck in 1966. The Royal Mint struck archival examples of the three coins it struck for circulation in Australia, the 5c, 10c and 20c - each of which is distinguished from Australian-struck coins with a mint variation. All three coins are included in this excessively rare collection, as well as - most intriguingly - an Australian 2c. The Royal Mint did not strike the 2c for circulation in Australia, so, theoretically at least, a British-struck archival 2c should not exist!

The Royal Mint 2c has no identifying mintmark on the reverse. As with the 5c, 10c & 20c, however, the 2c was struck using Royal Mint obverse dies. The portrait of Queen Elizabeth II on all Royal Mint coins features only one eyelash, with Royal Australian Mint coins notable for the presence of two lashes.

No one can say for sure why the Royal Mint did indeed strike the Australian 1966 2c, but what is not in question is the rarity of this collection that was once owned by Elliott Burman, who is believed to have worked in sales for the Royal Mint in the 1950s and 1960s. The 5c, 10c & 20c Royal Mint proof of record coins are very rarely seen on the market individually, but as a set - containing a 2c archival coin - this is likely to be the only known example in private hands

We have never offered such a set previously, and doubt that we ever will have the opportunity again in the future
