# WELCOME TO SALE 352

Sure to catch the eye of collectors around the world, I am delighted to welcome you to Downies Australian Coin Auctions' second sale of 2024 – Sale 352!

Notable for our 'seasonal' catalogue cover, celebrating Autumn, Sale 352 comprises 2,800 lots. Encompassing an excellent selection of Australian predecimal coins & notes, a broad array of world coins and notes, and a lovely range of Ancients – as well as more than 1,000 decimal coin lots! – the sale features some key individual highlights.

Sale 352 is undoubtedly headlined by an excessively rare 1813 NSW Holey Dollar. Provenanced to the JC Freeman, BJ Hibbard and Barry McGown Scott Collections, this iconic Australian colonial rarity is graded Fine with clear countermarks. Notably, a superior example of the 1813 NSW Dump is also found in Sale 352 – graded aVF and very rare as such.

The sale is also highlighted by a strong representation of Australian banknotes, including a rare 1942 Armitage/McFarlane Ten Shilling Star and a rare 1988 Johnston/Fraser Bicentennial Specimen note. Given the extensive range of world coins and notes, as well as an impressive collection of Australian and world military medals and militaria – plus stamps, watches, model cars and more – there's something for everyone in Sale 352!

At this point, I would like to pay tribute to our staff, who have worked tirelessly to assemble a tremendous selection of material for Sale 352. To all who have consigned to the auction, I would like to thank you for your contribution to what is sure to be another fantastic sale. Please note that our Live Auction Platform ([auctions.downies.com](https://www.downies.com/auctions)) will be up and running in Sale 352, and check our website, [www.downies.com/auctions](https://www.downies.com/auctions), to keep up-to-date with our viewing and sale conditions.

While the focus is naturally on Sale 352, preparations for our final two sales of 2024 are well underway – including what is already looking set to be a massive Sale 353 in August. If you would like to sell part or all of your collection, we would be delighted to discuss any consignment matters.

To all our collectors, I hope you enjoy tremendous range of material in Sale 352! Enjoy your collecting!

# ADVICE

## FOR ABSENTEE & NEW BIDDERS

- As a bidder at our Public Auction, you will be able to decide the level at which you would like to purchase an item. To assist bidders in the preparation of their bids, the Auctioneer has set an “estimated market price” on each lot. This is a conservative guide to the market value of the items described, and you may bid above or below this estimate. Please note however, that bids below 60% of this estimate will not be processed.
- Purchase of lots on extension (extended payment terms) will NOT be permitted
- Our descriptions are complete and our grading is conservative. Our aim is to give you the best possible guide to the actual condition of the item you are seeking. We value our absentee bidders and believe that our grading and pricing policies work to the mutual long term benefit of both the vendor and buyer.
- Your bids will be executed in the strictest confidence by an official representative of the Company. They will be regarded as the maximum bids that you are prepared to pay and we will always try to purchase on your behalf at a price lower than your maximum bids given.
- On items that you anticipate the price may far exceed the estimate, we can offer you some flexibility in the execution of your bid. Obviously, you may submit a bid well above the estimate and this will be treated as your maximum bid (excluding the buyer's commission). Alternatively, you can place a conservative bid and, if the bidding far exceeds it, you can elect to increase that bid by a fixed percentage. The higher bid will only be executed if necessary, and strictly according to your instructions. Please fill in the appropriate space on the bid sheet if this is required.
- If you are interested in a number of lots, but only wish to spend a limited amount of money, please write down your bids and then clearly indicate, in the space provided, the maximum amount you wish to spend.
- If you are interested in a particular item, and there are two or more identical lots; you can clearly indicate on your bid sheet that you wish to bid for “one or more only” of the nominated lots on offer. This must be made very clear on the bid sheet.
- Remember, the benefit is yours by buying at Public Auction: you can decide exactly what you want to pay for any item, and bid to that level.
- In preparing your bids, it is important to note that a 22.0% buyer's commission including GST with a minimum charge per lot of \$10, is added to the knock down price of each lot. Do not add commission to your maximum bid.

**Remember that successful absentee bids at the same level will be awarded to the earliest bidder at that level – so bid early!  
And please note that bids submitted by normal mail may be affected by recent Australia Post delivery policy changes.**

### Gradings and terminology used in this catalogue

**Proof:** Proof coins are the most beautiful coins imaginable. They are struck using specially hardened dies, and highly polished blanks. The result is a coin of great clarity and depth of detail. Most modern proofs (1966 onwards) contrast a brilliant mirror background against delicately frosted detail.

**Prooflike:** Often a non-official mint strike, or medallion in nature.

**Brilliant Uncirculated (B/Unc) or choice Unc:** Uncirculated, but with higher than normal sheen.

**Uncirculated (Unc):** An uncirculated or unused item. Full detail, no wear, brilliance and lustre are hallmarks of an uncirculated coin, whereas no bends, folds or staining are qualities of an uncirculated banknote.

**Extremely Fine (EF):** Coins show only traces of wear to the high points of the design and only light surface marks from circulating. Otherwise the design is clear and sharp and the coin will have much lustre. Notes are clean and crisp with only the slightest signs of creases and folds.

**Very Fine (VF):** Lustre has gone and there will be flatness on the design of a coin. Other traces of wear may also be evident. Banknotes of this grade will show distinct signs of handling though the paper will still be reasonably crisp.

**Fine (F):** The effects of handling will be quite evident from the amount of flatness to the design of a coin. Notes will

have clear signs of soiling and heavy creasing, possibly also some tearing.

**Very Good (VG):** Most details of a coin's design will be all but gone, but the basic design and date are still visible. Notes of this grade are near the end of their useful life, and are of little value unless they are very scarce or rare.

**choice:** An exceptional example of the given grade.

**good (g):** Use of the prefix good (e.g. gVF) indicates that the item is slightly better than the grade stated.

**about (a):** Use of this prefix (e.g. aEF) indicates that the item is almost at the grading designated.

Overseas buyers not using credit card facilities will be required to add AUD \$30 to payments to cover bank charges; this will appear on the buyer's invoice.

## Purchaser Responsibilities

- The buyer of each lot is to be responsible for it from the time it is "knocked down". Payment is to be made in full with cleared funds before delivery or collection. The lot(s) are to be paid for by Australian buyers within two days of receiving the invoice, and by overseas buyers within 7 days of receiving the invoice. **A service charge of 2% per month will be added to all overdue accounts.** Failure to pay in full within the specified time also entitles the Auctioneer to re-sell the lots, with any resulting deficiency being made good by the defaulter.

## Delivery/Collection of Lots

- Lots can be picked up from 3 Redland Drive Mitcham. No lots will be delivered to buyers without payment in full. Lots purchased on behalf of absentee bidders will be forwarded, fully insured, by the most practical method at the risk of the purchaser who shall bear **all costs** incurred. Absentee and room bidders may vary these delivery methods, but at their own risk. Such alterations must be advised in advance.

## General

- Each lot is sold as genuine and correctly described. Unless described, all official packaging and relevant certificates are presented within the lot. The purchaser is at liberty to return the lot by giving written notice with seven days (or in the case of overseas buyers, within 14 days) of the sale, if he/she proves that the lot is not genuine or not correctly described. The onus on proving a lot to be not genuine lies with the purchaser. Proof of the inability of a recognised expert to express a definite opinion will not discharge this onus.
- Watches, instruments and devices with working mechanisms are verified to be accurately described. Whilst every care is taken to provide secure packaging for all items in transit, no responsibility may be assigned to the Auctioneer for lots which are described as being 'in working order' but are found to be not working at time of receipt. Such lots are sold "as is" and are not subject to return.
- No lot is to be rejected if subsequent to the sale it has been removed from its sealed holder and/or has been treated by any process, unless the Auctioneer's permission to subject the lot to such treatment has first been obtained in writing.
- No lot is to be rejected if the purchaser or their agent has inspected the lot prior to the sale, irrespective of whether or not any item or items are incorrectly described.
- Failure on the part of the bidder or purchaser to comply with the conditions stated previously, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots may be re-sold by public or private sale and any resultant deficiency shall be made good by the defaulter.
- Bids from minors will not be accepted unless accompanied by a full cash deposit or suitable guarantee.
- Phone bids are most welcome but must be confirmed in writing well before the sale.

## Viewing

- Downies Australian Coin Auctions will apply the following strict guidelines for intending auction viewers:
- Viewers will be admitted to the viewing room subject to positive proof of identity – this requires the furnishing of a Government issue photo ID (such as a driver licence, passport). If no photo ID is available, then two forms of ID, with at least one with a signature (credit card etc.), will be acceptable. These conditions will be strictly adhered to, regardless of any previous dealings the viewer has had with Downies or Downies Australian Coin Auctions.
- No hand luggage (such as bags) or hand-held apparel will be permitted in the viewing room under any circumstances. Staff are happy to hold such items in a secure room on your behalf.

*In total, 115 Australians were court-martialled during WWI and sentenced to death for serious military crimes - primarily desertion.*

*Under the military law that governed members of the Australian Imperial Force during WWI, desertion was defined as leaving or refusing to enter the front lines or being absent from areas behind the front lines for more than four weeks. Desertion was considered such a serious offence because the soldier had refused to do the duty for which he had enlisted, wasted resources, weakened military strength and endangered comrades. But Australian law - specifically the Defence Act first passed in 1903 - effectively precluded the Australian Imperial Force from carrying out the death penalty. Soldiers could be sentenced to death, but none were executed*

Confirmed in London Gazette 4th January 1917

Recommended for Military Cross 29th September 1917:

*For consistent good work and devotion to duty during the last six months. This Officer, by his energy and personal example, has raised his Company to a very high standard of efficiency and discipline.
