

Tournament Pro Elite

**Designed by
Air Hockey Champions!**

Mark Robbins

- 2 Time World Air Hockey Champion
- U.S. Air Hockey Association Pioneer
- Founder and Owner, Gold Standard Games

Professional quality extra-sturdy goal end designed for maximum player comfort and durability.

Puck glows bright under black light!

Exclusive player-activated black light/white light option. Play under either white light (competition mode) or black light (cosmic mode)!

Air Hockey Champions

Recommended by 10-Time USAA World Champions Danny Hynes and Tim Weissman.

- Created by Air Hockey Champion Mark Robbins
- Same as our commercial-quality coin-operated tables, with free play button instead of coin mechanism
- Exclusive player-activated black light/white light option. Play under either white light (competition mode) or black light (cosmic mode)
- Professional-style low profile, high-density aluminum rails for maximum bounce and bankability
- Fully sanctioned for tournament play by the U.S. Air-Hockey Association (USAA)
- Commercial-quality cabinet and leg construction designed for years of heavy use
- Commercial blower for championship-level air flow
- Special wear-resistant laminate top for years of durability
- Centerline and face-off circle for competitive play
- 3 1/2" diameter USAA-sanctioned glass-filled Lexan pucks for tournament-level speed and stability on the table
- Heavy-duty, player-friendly goal construction for problem-free operation
- Electronic scoring
- Brand new modern design

Dimensions: Size: 99 1/2" L x 51 1/4" W x 31" H, Weight: 600 lbs
