

ÉLEVER
AUSTRALIA

Midnight in Monaco

A black and white close-up portrait of a woman's face in profile, looking downwards. She is wearing a large, ornate earring with a circular top section featuring a central gemstone and a long, textured tassel. Her hand is visible near her chin, wearing a ring with a large, faceted gemstone. The background is dark and out of focus.

Élever Australia celebrates and reimagines jewellery design from the 1960s, 1970s and 1980s. Timeless, luxurious and fashion-forward.

Inspired by European styles and opulent destinations, Élever breaks from the traditional to elevate the everyday.

Élever is for those who find beauty in boldness. Striking statement pieces and unapologetic glamour. Élever.

About the collection

Attempting to encapsulate the soul of a brand is no easy task, but I feel our premiere collection, *Midnight in Monaco*, does just that.

Deeply inspired by European glamour, warm nights in the French Riviera and the undeniable beauty of gemstones, this collection exudes the DNA of what it means to be part of the World of Élever. Elevating the everyday one design at a time.

My simple, but vivid intention, was to create a collection of pieces that are as unashamedly captivating, as they are inspiring to wear.

Connecting to a global network of craftspeople and makers, these pieces are a showcase of the awesome alchemy of creativity and natural beauty.

Featuring unique pieces which have never been seen in Australia, our Privé range showcases some of the most exclusive high-end statement jewellery available.

I proudly run Élever Australia in Adelaide, on the land of the Kurna people.

Welcome to *Midnight in Monaco*.

Nathan James Crane
Creative Director
