LOUIS TELLIER

RIEN NE REMPLACE LE FAIT MAIN

1887

This story starts two years before the construction of the Eiffel Tower. Paris was becoming the centre for world creation. French gastronomy had exploded forth, and had excited the curiosity of gourmets and chefs from around the world.

Increasingly sophisticated desserts became the unmissable gourmet symbols of special occasions. A visionary entrepreneur, ETIENNE GOBEL, bet on the fact that the craze for patisserie was only just beginning, and he launched into making cake moulds from copper and tinplate. Success was immediate and international. Etienne Gobel soon found himself hemmed by his premises in Paris, so he set up his factory in Touraine, where it has been ever since and where tradition is maintained.

1947

Sixty years later, France was in the throes of reconstruction. People found vegetables on their plates once again, especially the potato. Established as one of the pearls of French gastronomy in the nineteenth century, its return had been awaited by restaurateurs.

One of them asked a mechanic friend to design a device to make it easy to prepare purée. LOUIS TELLIER took up the challenge and invented the world's first professional food mill – a kitchen revolution! An inventor of genius, the former seafarer and veteran of the First World War would multiply achievements in his factory in the suburbs of Paris; the factory remains at the cutting edge of innovation.

A year earlier and under the same circumstances, the hand-powered steel vegetable cutter was invented in Thonon les Bains, on the banks of Lake Léman: the Bron mandoline was born, and would come into use in leading professional kitchens around the world. In over seven decades, the BRON factory would see the advent of several leading inventions – and will specialize in the Convivial appliances with in particular the traditional Alpage® and Brézière® raclette appliances.

TODAY

Now called LOUIS TELLIER, the group continues to play a part in the great history of French cuisine through its innovations and two iconic brands:

LOUIS TELLIER for equipment for food preparation and sharing food, GOBEL for baking utensils and bakeware.

Present in more than ninety countries, these brands accompany, as they have always made, the pleasure of handmade.

2 PRODUCTION WORKSHOPS 3 AREAS OF EXPERTISE

GOBEL
Manufactures bakeware and baking utensils.

LOUIS TELLIER
Raclette appliances and other cookware for sharing food.

LOUIS TELLIER
Specialises in equipment for cutting fruit and vegetables.
Manufactures food mills.

Groupe Louis Tellier's two production sites have the EPV (Living Heritage Company) label. This label is a mark of recognition awarded by the French government to French companies demonstrating excellent craftsmanship and industrial expertise.

The main products for cutting fresh fruit and vegetables made in the LOUIS TELLIER workshops are NF certified. Awarded by an independent, impartial body, the NF mark certifies compliance of products or services with relevant national, European and international normative documents. These include standards supplemented, where appropriate, by technical specifications reinforcing the quality level of the certification.

Groupe LOUIS TELLIER belongs to SYNEG, an organisation that brings together and represents catering equipment manufacturers. Members of SYNEG are carefully chosen based on strict criteria. They adhere to an environmentally and socially responsible approach.

Groupe LOUIS TELLIER is also a member of UNITAM, an organisation bringing together French manufacturers of quality catering equipment.

LOUIS TELLIER

FOOD PREPARATION

LOUIS TELLIER is undoubtedly the food prep specialist, with a wide range of creative, innovative and productive equipment adapted to the needs of professional kitchens, including institutional catering services, traditional restaurants and trades within the food industry.

It offers more than **300 innovative solutions for cutting all forms of fruit and vegetables**, some of which have become iconic tools.

A wide range of professional, effective manual and electric can openers to improve productivity on a daily basis. From school kitchens to retirement homes, via community kitchens and hospitals, our NF-certified can openers perfectly meet professional hygiene standards.

A complete range of reliable and precise measuring equipment. Mechanical or electric and waterproof, our scales cover all needs and our thermometers, all technologies (including infrared and probe).

LOUIS TELLIER continues to innovate and expand its range of cooking utensils, with a commitment to providing the best solutions to meet the technical requirements of each use and make each task easier with precision and respect for the ingredients.

LOUIS TELLIER IS COMMITTED TO PRODUCING AND PROVIDING UTENSILS
USING THE BEST QUALITY, LONG-LASTING, SAFE MATERIALS.

LOUIS TELLIER

RIEN NE REMPLACE LE FAIT MAIN

SHARING FOOD

LOUIS TELLIER also offers a range of professional quality appliances for sharing food for indoor or outdoor use, depending on the equipment or speciality.

BRASERO – TABLETOP BBQ

A high-quality, functional and professional tabletop charcoal barbecue that brings people together.

Brezières

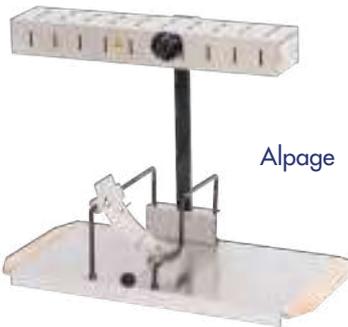

RACLETTE

LOUIS TELLIER designs and distributes a complete range of raclette appliances in the pure alpine tradition.

Three types of appliances depending on the size of cheese chosen (¼ wheel, ½ wheel or thin slices):

Brezière (¼ wheel) or **Alpage** (½ wheel) are available in three versions:

- Original: textured bronze for a traditional style
- Basalte: textured black for a modern style
- Inox: with solid beech handles for a chic, classic style

Alpage

4-pan raclette appliance (sliced cheese)

- All stainless steel, this professional quality appliance is hard-wearing and durable with a plug enabling you to connect several appliances.

GRILL STONE WITH OR WITHOUT STAND

Natural soapstone to be heated in the oven (300°C).

PLANCHETTAS

Ceramic plate with (alcohol gel) burners.

COLD SMOKER

For fish, vegetables, shellfish, meat and more. With or without resistance.

FRANCE 1887

GOBEL®

rien ne remplace  le fait main

BAKEWARE AND BAKING UTENSILS

For 135 years, GOBEL has been making bakeware and baking utensils and selling them to catering professionals and prestigious specialised shops in over 90 different countries.

GOBEL covers all the needs of professionals in the baking industry with one commitment: provide a solution for each creation, recipe or speciality with respect for the ingredients by using high-quality, long-lasting and safe materials.

BAKEWARE

GOBEL tin plate, non-stick and Obsidian cake tins, pastry sheets and baking pans are all made at our site in Joué-lès-Tours (Indre-et-Loire).

Tin plate: this eco-friendly 100% recyclable, safe material is highly conductive! Guaranteeing an unequalled taste, our tin plate moulds are renowned for creating crisp pastry that is golden on the outside and soft on the inside.

Non-stick: professional quality, PFOA-free, with a double-layer coating, this material is much higher performing than single-layer materials and is easy release. Its upper layer contains mica, making it highly resistant to abrasion.

Obsidian: a technological innovation, Obsidian has a new, even better coating. It has excellent non-stick properties, strengthened by ceramic for more resistance and a 10-year non-stick guarantee.

Stainless steel: GOBEL offers a wide range of thick, solid, hard-wearing and easy-to-clean, "Made in France" stainless steel products, including rings, tart rings, cake frames, baking sheets, cutters, fluted cutters and icing tips.

PASTRY SHEETS

GOBEL pastry sheets are vital for oven baking and are available in stainless steel, aluminium and aluminium with a non-stick coating. They can also be used when preparing or storing food in refrigerators and warming drawers.

UTENSILS

GOBEL also offers a wide range of baking utensils and accessories, including mixing bowls, bowls, pastry mats, baking mats, whipped cream dispensers, piping bags, rolling pins, spatulas and pastry brushes.

CERTIFICATIONS AND NORMS

NF HYGIÈNE ALIMENTAIRE

The NF mark is a sign of acknowledgement that is the result of a voluntary approach by professionals dedicated to making genuine commitments to their clients. It offers a guarantee of quality and safety in relation to the products that display it. The "NF Hygiène Alimentaire" mark issued by AFAQ AFNOR CERTIFICATION, 93571 La Plaine Saint-Denis Cedex, certifies compliance with regulation NF 031, which covers suitability for cleaning.

NSF INTERNATIONAL

NSF International (National Sanitation Foundation) is an independent public health standard from the United States. It organizes and develops standards, product certification, testing, auditing, environmental education and environmental and public health risk management services. The Logo on the data sheet or packaging serves as information on whether the product is labeled or not, the product does not receive a specific reference, only the NSF list serves as proof with the Name and/or Reference of the manufacturer.

IP WATERTIGHTNESS
Water and dust.

HACCP

Hazard Analysis Critical Control Point, is a work method for mastering the health security of foodstuffs and guaranteeing hygiene in the kitchen. The HACCP approach is taken into account when products are developed, especially their suitability for cleaning.

PROFESSIONAL FOOD MILL NO. 5

Sieves Ø 1 and 1.5 mm: for sauces and coulis.

Sieves Ø 2 and 3 mm: for mashed potatoes, soups and compotes.

Sieves Ø 4 mm: for fish soups and stringy vegetables as leeks and spinach.

In 1947, Louis Tellier revolutionised the world of cooking by creating the first professional food mill. The LT grinding mill was so on a runaway success with restaurateurs. In a smaller-sized model, the LT mill brought purees, soups, compotes, and coulis within everyone's reach.

Always as effective and robust, in its 65th anniversary year, mill no. 5 contributed to the record for the world's largest potato puree. The record was set on 29 September 2012 using Joël Robuchon's famous recipe.

FOOD MILL

Allows the preparation of coulis, compotes and purees with ease. Equipped with 3 grids of different sizes. Household size.

FRENCH-FRIES CUTTER

LOUIS TELLIER
BIEN NE REMPLACE LE FANT MAÏN

Homemade French fries, the best fries for a queen of the plate!

Home French fries are known for their incomparable taste and texture, crispy on the outside and soft on the inside. No more pre-cooked or frozen fries! In France, in restaurants, the «homemade French fries» designation is obtained by peeling potatoes and preparing them on the spot.

In 1960, Jean Tellier (Louis Tellier's son) came up with a chip cutter to a new design; he exhibited it at the Paris Fair. The chip cutter was swiftly made in hundreds of thousands of units and went around the world. Tellier's invention was awarded a prize at the Stockholm International Design Competition, and took part in the worldwide success of the «French-style chip» as well as the business's worldwide reputation.

TOMATO MOZZARELLA SLICER

LOUIS TELLIER
NEUF NE REMPLACE LE TROISIÈME

Made in France

NO PRODUCT WASTE:
11 hollow-edge blades glide cleanly through the food

PRACTICAL:
Raised trolley to eject the slices into a GN H65 tray. Appliance with **table wedge** and safety pin

PRODUCTIVITY GAIN: 3.5kg/min. - 1pc./ 2.5sec.
Cuts the whole product easily in **only 1 gesture** in **regular 5.5mm slices**

HYGIENIC:
100% stainless steel and HDPE pusher, **easy to clean**

RESPECT OF PRODUCT: Fitted pusher + fine and tight teeth of the blades for **perfect piercing** of delicate skin and flesh

This tomato mozzarella slicer is adapted to the requirements of large productions such as collectivities and fast-food restaurants.

Ideal for pizzas, salads, hamburgers or sandwiches.

TOMATO MOZZARELLA SLICER

The 1st Mozzarella Slicer. 11 blades especially sharpened for slicing and respecting tender flesh. Regular slices. Sliding trolley on HDPE, raised to eject the sliced product in a GN H65 tray. For communities, pizzeria, fast-food...

Stainless steel, HDPE et PP strips

3,5 kg/min. 1 pc. / 2,5 sec.

Stainless steel

In 2001, the inventor Benny Engdah designed the Alligator out of a wish to make it easier to prepare his favourite Swedish dish: Kroppkakor, potato balls garnished with sliced onions and bacon.

He registered a patent, and success quickly spread worldwide: the ease of using the revolutionary vegetable cutter won over professional chefs as well as individuals.

Pierre Tellier, as a manufacturer of professional devices for cutting fruit and vegetables, was naturally won over by the small, efficient, and space-saving device, and introduced the Alligator to France in 2005.

The Alligator vegetable cutter stands out by its robustness as well as the quality of its blades and grills.

ELECTRIC PEELER

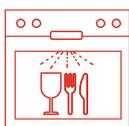

This professional utensil enables large-volume peeling of citrus fruit, onions and all round and oval fruits and vegetables.

The difference between the 2 models : the pro model has a stainless steel trident and centring tip; those parts are made in plastic in the semi-pro model.

WEDGE CUTTER

LOUIS TELLIER
BIEN NE REMPLACE LE FAST MASH

Réf. CAX104,106,108, 112

Réf. CAX104P, 106P, 108P

CULINARY PREPARATION

Efficiency: centring the fruit gives a **regular** cut

Set of **interchangeable** blades and push-pieces

Hygiene: made from stainless steel and detergent-**resistant** composite materials, making it dishwasher-safe

Distance between feet allows the use of a Gastronorm GN 1/2 stainless-steel **collecting tray**

Safety: **no contact** with the blades. **3 suction cups** ensure good contact with the work surface

Cuts all stone-free fruit and vegetables into 4, 6, 8, or 12 sections

This tomato and citrus cutter, high-section version, is tailored to the requirements of large-scale production, e.g. community catering and fast-food establishments. Cuts tomatoes, citrus fruits, kiwi fruit, etc., into sections.

Coring knife available as accessory.

LEMON CUTTER - HALF AND WEDGES

¼ slice (6 mm cut): Mojito, Caïpirinha and Ti-punch, prepared three times faster.
½ slice (12 mm cut): for seafood, fish and cocktails.

EGG TOP CUTTERS

LOUIS TELLIER

RIEN NE REMPLACE LE FAIT MAIN

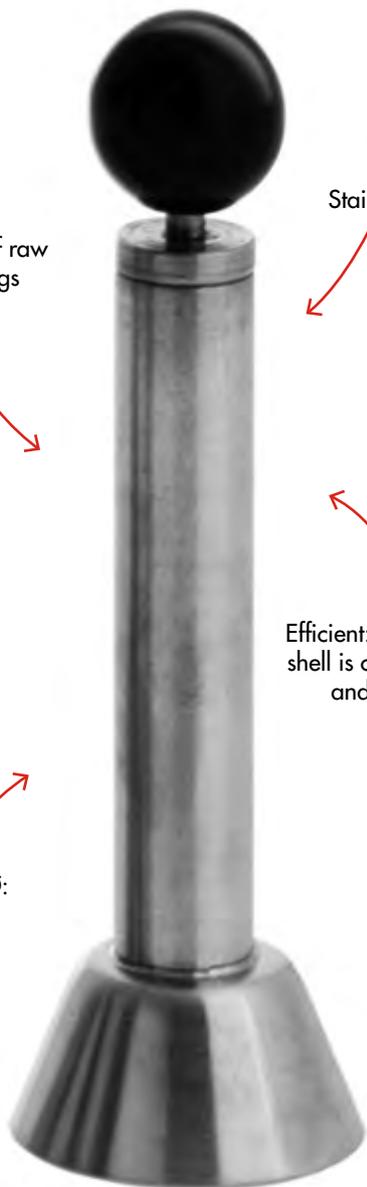

Precision cutting of raw or hard-boiled eggs

Stainless steel

Efficient: ensures that the shell is opened **cleanly** and **precisely**

Cutting Ø: 3.5 cm

Hygienic: provides a **clean** and **easy** solution for topping eggs

Gastronomic chefs and caterers also use it for creative cooking: once the shell has been emptied, it becomes an original container for scrambled eggs with truffles, eggs with a chocolate garnish, etc. Infinite possibilities for creating menus that are tempting for eyes and tastebuds alike.

ELECTRIC CAN OPENER FOR INSTITUTIONAL ESTABLISHMENTS

LOUIS TELLIER
RIEN NE REMPLACE LE FAIT MAIN

Tool-free removal of the «opening head» for daily cleaning in a dishwasher and sterilisation

High-output motor with **low energy use***

Opens all **cylindrical** or **rectangular** cans, even if dented to a height of between 5 and 27 cm

Clean opening: no filings inside the can. The same lever strikes and opens the can in a **single** movement.

Output: **40 to 80** cans
5x1 at a time

Accessories:
cover-retaining **magnet**

Professional electric can opener for community catering of between 300 and 800 covers:

- Made from rustproof materials. For reasons of hardness, the wheel is made from tempered steel and treated against rust.
- Two-speed motor protected by a Duralinox cover.
- High-output geared motor.
- All-metal reduction gear (metallic gearing mounted on ball bearings).
- «Motor - opening head» unit with vertical movement assisted by a gas spring enabling effortless positioning depending on the height of the can to be opened.
- Can-height adjustment stop.
- Wearing parts (blade and wheel) can be replaced by non-qualified staff.
- Tabletop device: stainless-steel base and 4 suction cups.

Patented model.

*Motor details:

230 V single-phase - 50 Hz / 60 Hz

Rating: 75 W - Couple : 13 N/m

Metallic pinion gear

ELECTRIC CAN OPENER FOR INSTITUTIONAL ESTABLISHMENTS

2 speeds (80 rpm / 125 rpm). 80 cans in one session. Single-phase. IP41. Free-standing. Assisted vertical movement. 300 to 800 covers. Opens all cylindrical and rectangular cans, including dented ones, from 5 to 27 cm height. Easy disassembly and cleaning. Complies with NF (Normes Françaises - French Standards) and HACCP.

Reversible double-life blade, 1 wheel Ø36 mm, 1 metal brush, base with 4 suction pads, magnet to hold the cover

HIGH-CAPACITY PROFESSIONAL ELECTRIC CAN OPENER

Opens all cylindrical and rectangular cans of a height of 5 to 27 cm, even if dented

Easy cleaning and dismantling

Pneumatic spring-assisted vertical movement

Productivity:
400-500 cans/hour

LOUIS TELLIER
BIEN NE REMPLACE LE FAIT MAIR

High-capacity professional electric can opener for 800+ covers.

3 models available.

Made of stainless materials.

The wheel is made of rust-proof tempered steel to make it more durable.

NON-CUTTING EDGE CAN-OPENER

Effortless

Safely opens cans of food:
neat, blunt edges

No filings

Patented system

The device **is never in contact** with the inside of the can

Hygiene, safety,
and robustness

Opens round cans of all sizes by cutting the external seal: edges are neat, and there is no risk of cutting oneself. The can's cap can be used to protect its contents from dust and splashes (the cover no longer offers hermetically-sealed conservation).

Its weight enables it to be stable on the tin and to ensure optimum guidance.

The head design limits wearing parts as well as gaps where dirt may become lodged.

Available with a clamp plate or a screw plate.

Dishwasher-safe.

Patented system.

Made in France.

SAFETY CAN OPENER TO SCREW

Patented system. Open round cans of all sizes (ex. 5/1) by cutting out the outer setting. The edges are smooth, no risk of cutting, and it is possible to reuse the box cap to protect its contents. Be careful, once the box is open, the closure is no longer hermetic.

Stainless steel

CAN PRESS

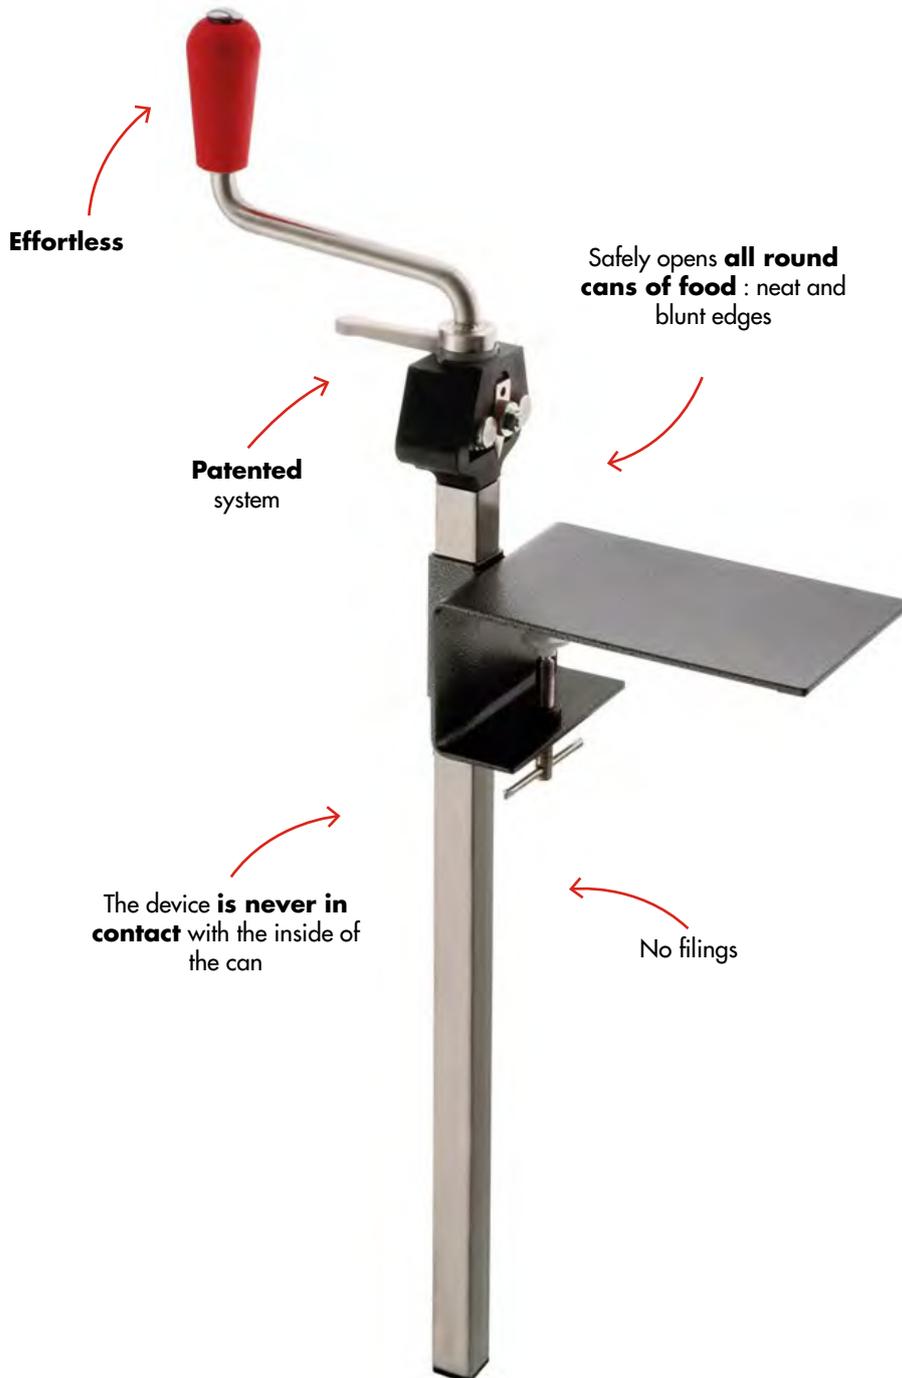

80% less waste volume! Fits to round cans 5 x 1 and 3 x 1. To crush cans.

Stainless steel

Ref.				
N8019	28,5	40,5	112	20,09

ECONOMICAL MANUAL CAN OPENER- TABLE CLAMP

Opens all round cans of all sizes by cutting the external seal : edges are neat, and there is no risk of cutting oneself. The can's cap can then be used to protect its content from dust and splashes (the cover no longer offers hermetically-sealed conservation).

The table clamp fixing guarantees optimal stability.

Its weight enables it to be stable on the tin and to ensure optimum guidance.

The crank ensures effortless opening of boxes without filings.

Patented system.

Made in France.

COMPACT & WATERPROOF PROFESSIONAL ELECTRONICAL SCALE

LOUIS TELLIER

CULINARY PREPARATION

All stainless steel

IP67: **fully protected** against dust and temporary immersion (up to 1 m and for 30 minutes)

Compact:
reduced dimensions

Designed for all **industrial** and **food-related** applications

Units of measure:
kg, g, lb, oz

Two models available:

1. Maximum weighing 5 kg - accuracy at 0.5 g
2. Maximum weighing 10 kg (minimum 20 g) - accuracy at 1 g.

Designed for all industrial applications (especially in the agri-food industry) in difficult and humid settings (refrigerated white rooms, community catering, bakeries, etc.).

PROFESSIONAL ELECTRONIC SCALE IP53

IP53. Integrated level. Height-adjustable feet. Units of measure: kg or oz. Tare function. Programmable weight alarm. Easy recalibration. Battery-usage indicator.

Works with DC 6V 100 Ma adaptor

ABS, stainless steel removable plate

SOUSVIDE SUPREME™ WATER OVEN

SousVide
SUPREME™

Healthy, flavourful cooking that preserves all the organoleptic and nutritional properties of foods as well as their textures

No risk of over-cooking

Stress-free, unsupervised cooking thanks to the timer

Precise temperature regulation accurate to **0.5 °C**.

Even, precise, and controlled cooking, thanks to the integrated proportional **integral differential** temperature regulator

Simple functioning: prepare, season, seal, simmer, and serve!

Meat, fowl, fish, fruit, vegetables, eggs, soups, yogurt, infused alcohols, desserts, organic products, etc.: all food types can be cooked in the SousVide Supreme™ bain-marie.

It enables delicate cooking of foods sealed in vacuum-sealed hermetic bags at gentle temperatures ranging from 30 °C to 100 °C.

Cooking time varies from 20 minutes (lean fish) to 72 hours (game). The chosen temperature is maintained during the whole cooking time and thereafter: the foods can remain in the bain-marie for far longer than the required time, with no over-cooking.

The proportional integral differential temperature regulator maintains the water at a constant temperature during cooking, and uses thermal convection to ensure even temperature distribution. The foods are evenly cooked on both sides, their flavours are enhanced, and their tenderness is restored at the end of cooking.

The bain-marie functions with no:

- External pump
- Replacement of parts that may deteriorate
- Risk of pump failure
- Noise
- Risk of evaporation

SOUSVIDE SUPREME™ WATER OVEN - BLACK

For 8 to 12 parts of 115 g. Homogenous and precise temperature control. (33°F maximum gap in the water oven). Continuous monitoring of bath temperature on an LCD screen. Temperature rise in 20 minutes (from 68°F to 95°F). Sous vide cooking re-therming. Silent. Without any evaporation.

8,7 L - 2,4 gallons

Timer. Support grid for vacuum-packed bags.

Patented filling channel

Can hold **40 g**

Carbon-steel mechanism,
cast-aluminium body

Made in limited numbers in France
since 1946

The very best of vintage beautiful objects made in France!

Prized by collectors, present on great foreign tables for seven decades, and passed down from generation to generation in leading USA and English families, Perfex mills are made in France and are available on the French market.

Perfex mills, manufactured in limited number in France since 1946 in a high-precision mechanical workshop, are jewels of technicality.

Made of robust moulded aluminium and fitted with a special steel mechanism, cut and treated to ensure optimum grinding, this mill with an «industrial» design and «vintage» packaging is timeless.

Please note: no exchange or return.

RACLETTE APPLIANCE BRÉZIÈRE® THE SIGNATURE RANGE

LOUIS TELLIER
BIEN NE REMPLACE LE FAIT MAÎTRE

Made in France

Foldable model with transport hook: space-saving, easy to store and easy to put into service

Suitable for **1/4** to **1/6** cheese wheel, i.e. 1 to 4 people

Robust: In **stainless steel** and epoxy painted **steel** for the colors

2 Height-adjustable heating ramps to adapt to the cheese portion

Removable stainless steel cheese holder: dishwasher safe

2,20 m cord

In the purest of traditions, Brèzière raclette appliances can be combined with different types of cheese, such as raclette cheese, plain, smoked, with peppers, the morbier, etc.

Accessories are also available for your reblochonnades (x2 ref. : REB02 or x1 ref. : REB03)

The special CAR01 raclette knife, essential for scraping and cutting your grilled cheese, is sold separately.

Find the colour variation of the Signature range on Alpage® appliances.

RACLETTE APPLIANCE - BRÉZIÈRE® - SIGNATURES - ORIGINAL

The Original in its textured bronze color, suitable to the number of the guests (from 1 to 4 persons). Revolving heating cases according to the size of the round cheese: from 1/6 to max 1/3 round cheese. Foldable device: reduced size. Removable St cheese holder.

Ignition switch. Carry handle. Removable cheese holder and dishwasher safe. Electric cord: 2,20 m.

BRASERO - TABLE BARBECUE

Professional quality and robustness:
 - **18/10 stainless steel** = does not rust
 - Thick **polished stainless steel** grill:
 non-deformable and reduces food adhesion

Fully **dismountable**
 for easy cleaning

Perfect stability for more security
 = thanks to its weight
 and **solid beechwood tray**

Lower insert for reserving
 or heating dishes or pan

Functional :

- Lighting speed: ready to use in **10 min - 20 min** for embers
- 1 **removable** charcoal burner for preheating or reserving the embers out of the table
- + 1 ignition gel receptacle **to boost** the ignition

This outdoor barbecue can be placed in the center of a table to cook rib of beef, fish, skewers, etc. on a lawn, around the swimming pool, at the foot of your fishing rods, etc. anywhere you want according to your imagination!

It has only one side open to avoid catching the wind for optimum safety.

It is easy to store because of its size and its square block.

TABLE BARBECUE WITHOUT HEARTH FOR SKILLET

For cooking thin slices of meat on charcoal. The barbecue can be lighted on a gascooker (perforated bottom's hearth). Removalbe hearth. Manufactured in compliance with NF standards.

4 rubber feet

Epoxy painted steel, base in massive beech wood

Réf.				
BRAS01	29	18	21,7	6,98

GOBEL[®]

rien ne remplace le fait main

NON-STICK COATING

«THE EASY WAY»

EASY AND QUICK DEMOULDING

- Fat-free, perfect demoulding
- Two-layer non-stick coating, guaranteed PFOA-free, professional quality

VERY GOOD DISTRIBUTION HEAT

- Impeccable and uniform cooking
- Good conduction by its non-stick coated steel material

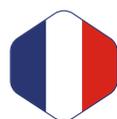

RESISTS HIGH TEMPERATURES

- Heating temperature up to 250°C
- Mould thickness of 0.5 mm : best compromise between robustness and cooking qualities

CHEF'S ADVICE

To keep the quality of the non-stick coating, avoid scratches. Thus favor a cut of the preparation outside the mould.

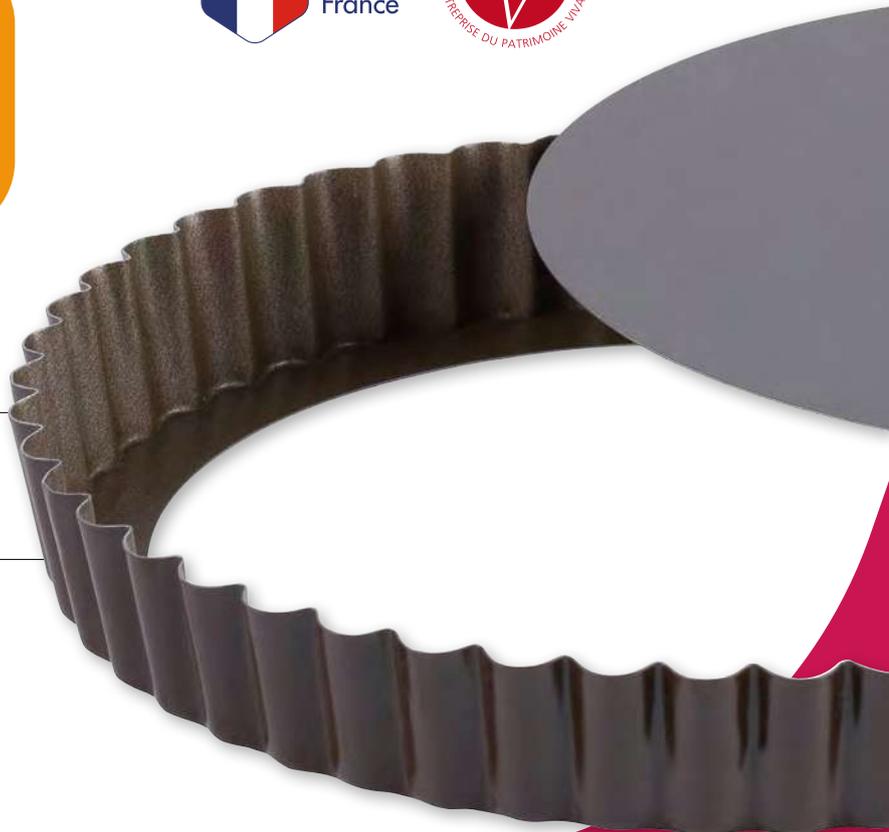

Made in France

MAINTENANCE

- Clean before first use
- Prefer hand washing
- Wash with soapy water

TART MOULD

Two-layer non-stick
professional quality allowing
a perfect demoulding

Removable bottom:
100% easy to remove
from the mould

Perforated bottom:
even heat distribution,
perfect for thick preparations

Since 1887, Gobel non-stick has been recognized for:

- Its excellent non-stick properties: much more efficient than a monolayer and ensures perfect release.
- Its good resistance to abrasion: the two-layer finish makes it possible to load the layer superior in mica and makes it less fragile.
- Its longevity: a greater thickness of the coating ensures an increased longevity.

OBSIDIAN NON-STICK

**OBSIDIAN BAKING SHEETS AND
MOULDS**

215

OBSIDIAN

THE NON-STICK COOKWARE 10-YEARS WARRANTY

«DURABILITY»

New «two-layer» ceramic reinforced coating with 20% more thickness

EXTREME RESISTANCE OVER TIME

- 10 year warranty
- For a **sustained frequency of use** and **exceptional non-stick** properties

EASY AND FAST DEMOULDING

- **Fat free**, perfect release
- Non-stick coating, guaranteed without PFOA, **professional quality**
- Compliance with REACH standards

CONTROL OF CARAMELIZATION

- For precision coloring
- Tough against sugar and jam

CHEF'S NOTE

Ideal for pastry making, this non-stick is also suitable for savoury recipes!

MAINTENANCE

- Clean before 1st use
- Preferably wash by hand
- Wash with soapy water

Always attentive to innovations and technical progress, Gobel exclusively offers the OBSIDIAN range, the latest in coating technology, suitable for normal to intensive use.

The OBSIDIAN GOBEL non-stick range, guaranteed for 10 years, is made of very high quality coated steel whose thickness is increased by 20% compared to our historical steel plates (i.e. 0.6 mm), for even more robustness.

GOBEL[®]

rien ne remplace le fait main

TIN

«THE AUTHENTICITY»

HEALTHIEST MATERIAL

- Tinplate is a natural, durable and 100% recyclable material!

EXCELLENT HEAT CONDUCTOR

- Perfect and homogeneous cooking
- Fast heat up

IDEAL CARAMELIZATION

- Crispy on the outside and soft on the inside!
- The contact of the mould favors the caramelization of the sugar

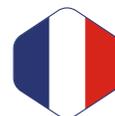

CHEF'S NOTE

For an impeccable unmoulding, grease the pan with butter, flour or a release spray!

MAINTENANCE

- Dry well after cleaning
- Do not put in the dishwasher
- Avoid abrasive sponges

Made in
France

MADELEINES BAKING SHEET - 6 XXL CAVITIES

THE GOBEL MADELEINES BAKING SHEET

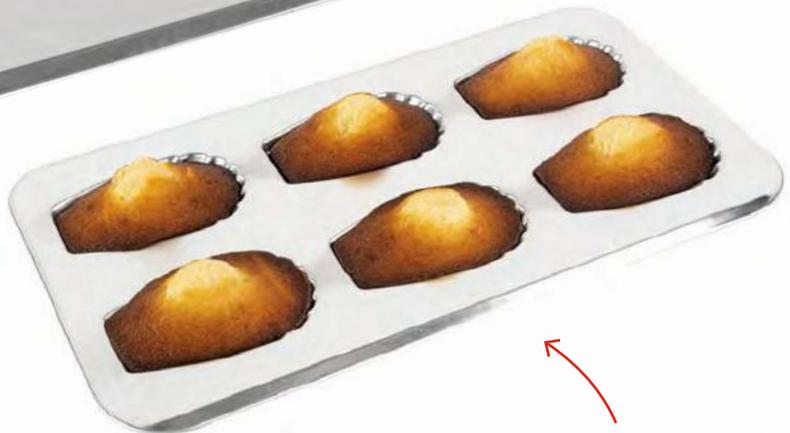

Makes madeleines perfectly golden

Rolled edge

Tin plate, a recyclable material

Free from bisphenol A and perfluoro-octanoic acid

Cavities that allow the dough to be cooked evenly

Since 1887, GOBEL has placed at your service all its experience and know-how in manufacturing tin-plate moulds. Today, it is one of the last mould-making workshops that continues to crimp its moulds in this eco-material that offers exceptional thermal conductivity!

Guarantors of an unequalled tasting result, the moulds are reputed for making dough crunchy: golden on the outside and soft on the inside, your pastry creations are thus refined.

SWISS ROLL TIN

Stamped. Raised edges reinforced with wire.

THE PROFESSIONAL PAPER MOULD

«THE PRACTICALITY»

100% BIODEGRADABLE MATERIAL

- Natural paper mould
- Compostable at home*

EASY AND QUICK TO REMOVE FROM THE MOULD

- No fat, perfect demoulding
- Professional quality
- The natural mould used in bakery is finally available to all consumers

EXCELLENT HEAT CONDUCTOR

- Perfect and homogeneous baking
- Fast heat up to 220°C

* Tart and tartlet mould

CHEF'S NOTE

Ideal for your events (picnics, birthdays, etc.) for sweet and savory recipes

HOW TO USE

- Single use
- Oven and microwave cooking
- Refrigerator and freezer
- Avoid humidity

ADJUSTABLE CAKE RING

FRANCE 1887
GOBEL
 rien ne remplace le fait main

MATÉRIAU - MATERIAL
RECYCLABLE
 SAIN / HEALTHY

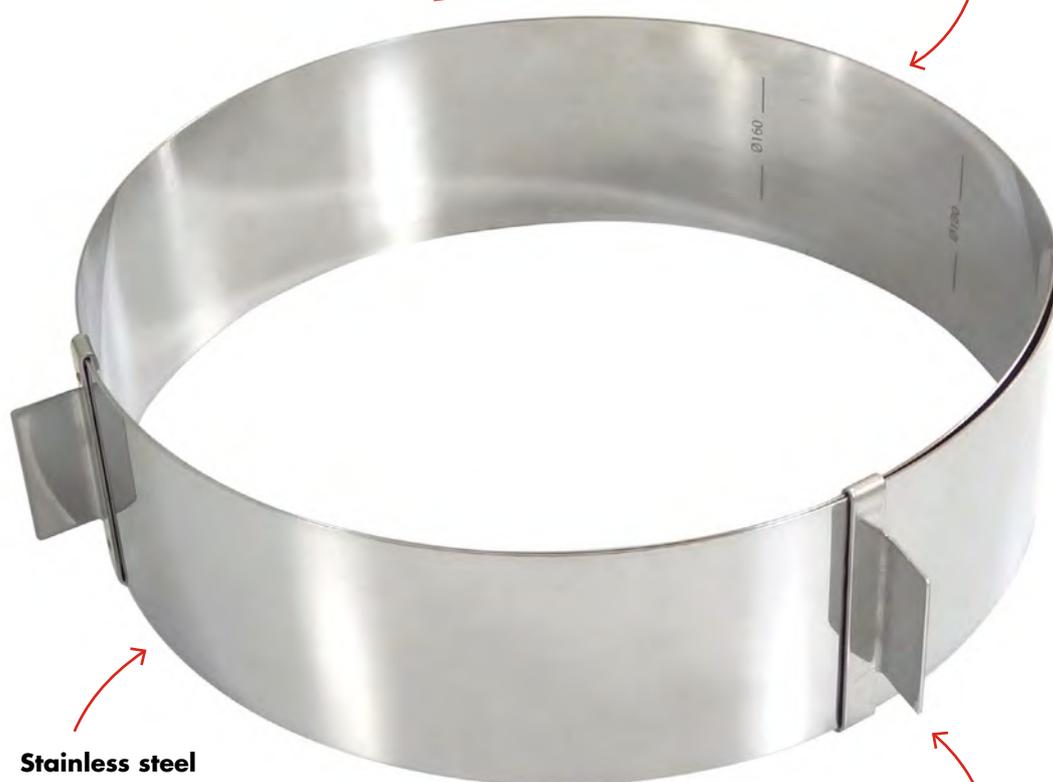

Made in
 France

SANS
 FREE
**BPA
 PFOA**

All diameters **possible**
 from **16 to 28 cm**

The interior is
 graduated every **2 cm**

Stainless steel

Locks at the **desired size**
 using the fixing loop

Ideal for making recipes using raw vegetarian pastry and for tiered cakes, it is the professional pastry chef's tool for making cakes, génoises, mousses, intermediate courses, and vacherins. Perfect for careful presentation of savoury dishes: tians, parmentier, etc.

Instructions for use

- Tighten the handles to reduce the size of the circle, and loosen them to widen the circle,
- Move the loop to the left to lock the circle, and to the right to unlock it,
- Use on a pastry plate covered with baking paper.

ADJUSTABLE CAKE RING

Adjustable from 160 to 280 mm.

WATERTIGHT YULE-LOG MOULD

7-recipe booklet **included**

Watertight mould

Patented

Removable **non-slip** over-moulded silicone nozzles

Easy **demoulding**

Oven-compatible up to 230 °C

Thanks to its silicone nozzles, the Gobel patented stainless-steel yule-log mould enables easy demoulding whilst being watertight.

This mould is indispensable for successful Christmas logs. It is also used all year round for ice creams, terrines, aspics, tuiques, etc.

ROUNDED YULE-LOG MOULD

Patented.
Removable ends for easy turning out. Airtight. Recipe booklet included.

PASTRY SHEETS

PASTRY SHEETS

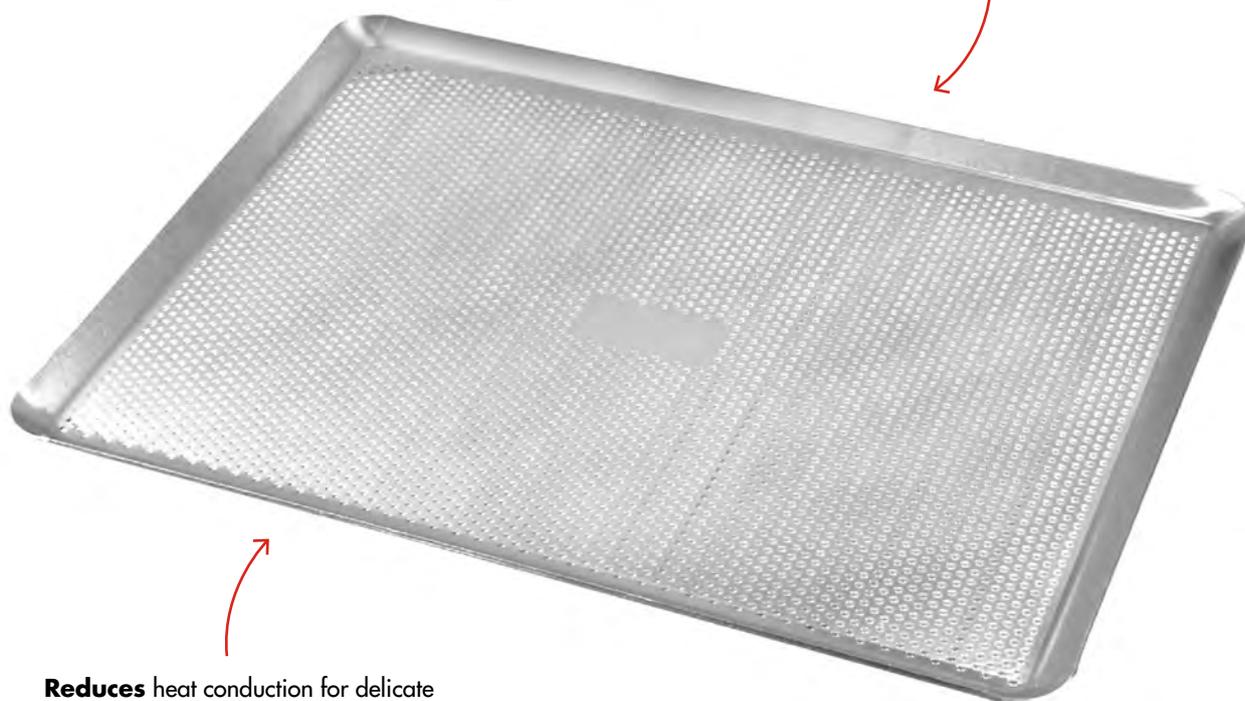

267

FLAT PERFORATED PASTRY SHEET

Microperforations
 Enable excess humidity to be removed for cooking deep-frozen dough, and preserve crunchiness

Encourages hot-air circulation in the oven and around baking sheets

Reduces heat conduction for delicate preparations (macarons)

GOBEL's crimp-edged pastry sheet are available in stainless steel, aluminium, and non-stick coated aluminium.

Indispensable for oven cooking, they also serve as preparation and storage support in refrigerated cabinets and proof rooms.

ST/ST PASTRY SHEET

The stainless steel pastry sheets are both dishwasher and oven safe (maximum cooking temperature: 570°F / 300°C). You can also put them in the refrigerator (-4°F to +42,8°F / -20°C to +6°C). Perfect for storage.

NON-STICK PASTRY SHEET

The aluminium with non-stick coating pastry sheets combine the thermal conductivity of the aluminium and the excellent non-stick properties of the four-layered coating, PFOA-free. The use of baking paper is unnecessary. They will last for a very long time and give you permanent satisfaction, thanks to the thickness of the sheets and the great quality of the non-stick coating.

PROFESSIONAL WHISK

Unbreakable, untwistable stainless steel wires. Highly resistant to pulling (tested to over 80 kg)

The curved* shape of the handle enables washing liquid to **be passed** and **drained** from between the wires

Whisk-rest collar

Completely and totally watertight* (compliant with the hygiene requirements of the supervisory authorities). Full overmoulding of the handle.

Microtactile insulating handle* that is pleasant to the touch. Suitable for contact with food.

Octagonal* upward-splayed shape for **maximum grip**: anti-fatigue and anti-tightness

This professional whisk is light, balanced, and easy to use. It meets all hygiene and cleaning requirements. The ergonomic, watertight handle offers comfortable use and endurance. Durable: adapted to intensive use.

*All those characteristics are covered by a patent application.

SEMI-PROFESSIONAL WHIPPED CREAM DISPENSER - KAYSER

KAYSER

For hot preparations,
maximum 70 °C

Dishwasher-safe

For Chantilly cream, hot and
cold sauces and emulsions, as
well as sweet and savoury items

Made in the **EU**

They are essential creativity tools for chefs and caterers, and also a way to create nice effect at a lower cost: little raw material is needed to make hundreds of verrines.

Useful for dishes from the entire menu: mises en bouche, verrines, starters, side dishes, sauces, creams, mousses, etc., based on foie gras, seafood, vegetables, and infused cream.

All the parts of the head can be removed for optimum hygiene.

KAYSER SEMI-PRO CREAM WHIPPER

For whipped cream and cold sauces and mousses. The tank is dishwasher safe. All parts of the head are hand wash recommended.

 Stainless steel tank, aluminium head

3 MESH SCREEN

No.16

No.20

No.25

3 meshes **available:**
No.16, 20, 25

Inox

Removable sieve with **interchangeable** cloths

Must have
in pastry making

Optimal mesh tension in both parts of the sieve thanks to the **fixing system**

Hygiene

This 3-piece stainless steel sieve is hygienic and easy to use.

Mesh No.25 (mesh size 0.9 mm) is a fine grid for icing sugar, flour or cocoa.

Mesh No.20 (mesh size 1.1 mm) is a medium grid for almond or hazelnut powder.

Mesh No.16 (mesh size 1.4 mm) is a wide grid for filtering sauces, coulis, jellies, sieving purees or preparations for espuma.

3 MESHES FLOUR SIEVES

3 meshes: #25 fine, #20 medium and #16 coarse. Removable and interchangeable mesh. For domestic use.

Stainless steel

Réf.		
NC5062860	20	0,46

FLOUR SIEVE 1 PIECE

#20 Medium mesh. The mesh screen is perfectly taut, its border sturdily tucked into the sifter frame.

STAINLESS STEEL FINE TINNED SIEVE

FRANCE 1887
GOBEL
 rien ne remplace le fait main

Gobel's fine tinned sieve is the essential professional tool for filtering all preparations (bouillons, coulis, emulsions, soups, sauces...) and obtaining an ideal texture without residue.

A wooden food masher is available to facilitate the passage of the preparations.

LOUIS TELLIER SAS

Registered Office : 116 Quai de Bezons – 95100 Argenteuil (France) – Tel : +33 134 113 838 – Fax : +33 134 111 850

Simplified Limited Company (SAS) with a share capital of €6 360 000

Trade and Company Register of Pontoise n° 49 259 93 86

Applicable as from 1st of January 2022

GENERAL TERMS AND CONDITIONS OF SALE

Placing an order implies unreserved acceptance by the purchaser of these sale terms & conditions and the reservation of ownership clause.

All trade negotiations are based exclusively on these sale terms & conditions.

1.OBJECT:

These sale Terms & Conditions apply to purchasers retailing and installing equipment for HORECA end-users (trade associated with human food, canteens, restaurants, hotels), and retailers selling directly to non-professional end-users for private use with regards to the sale of Tellier Gobel & Cie SAS collections incorporating LT Louis Tellier, Gobel, Broncoucke, Yoocook & La Bonne Graine.

2.ACCEPTANCE OF ORDERS:

All orders are registered without any undertaking as to delivery. Prices shall be notified in a document appended to the GTCS. In view of the fact that TG&C has a diversified distribution network, price reductions shall be stipulated by Tellier Gobel et Cie in category-specific terms and conditions of sale ("CTCS") which are established according to specific categories of Purchasers. Pursuant to Article L. 441-6 of the French Commercial Code (Code de commerce), Tellier Gobel et Cie shall send Purchasers, in the same category, its prices, completed by the GTCS and the CTCS. The prices, the GTCS and the CTCS together shall constitute the sole basis of the commercial negotiations and form an indivisible whole. Any order shall be governed by the GTCS/CTCS in force on the date on which the order is placed by the Purchaser. In regards of our diversity of network, every order will need to be accepted and notified by Tellier Gobel et Cie SAS. All cancellation (despite back orders) will have to be accepted and written by Tellier Gobel et Cie. Specific items and packaging cannot be cancelled if fabrics is started or sourcing is done.

3.WEIGHT & DIMENSIONS:

All weight and dimensions indicated in the catalogue are intended with a precision margin of +/- 5%. Any complaints relative to a lower deviation will not be accepted.

4.FREIGHT & SHORTAGE DELIVERIES:

Shipment to Metropolitan France will be carriage free for deliveries of a net value of at least €450 ex-VAT. Should any article including a new price, be unavailable, remains of orders of a net value of under €200 ex-VAT cannot be delivered carriage free.

For orders below €450 before tax, a carriage cost will be applied:

-€15 ex-VAT for orders below €150 ex-VAT

-€20 ex-VAT for orders below €300 ex-VAT

-€25 ex-VAT for orders below €450 ex-VAT

Shipment to foreign countries, DOM-TOM and Corsica starts from Joué-Les-Tours in EXW conditions. FCA French borders incoterm 2020 can be used as France delivery conditions as on above.

TG&C SAS is authorised to make complete or partial deliveries. All partial deliveries may be considered as separate contracts, and in consequence, the Purchaser may not rely upon the fact that it has waited for the remainder of its order as a reason to delay payment for the partial delivery that has been made.

5.SHIPMENT / INSPECTION ON DELIVERY:

The products and their packaging are always carried at the Purchaser's risk, even when sold with carriage paid. It is therefore incumbent upon the Purchaser, where appropriate, to protect its rights vis-à-vis carriers, in accordance with Articles L. 133-3 et seq. of the French Commercial Code, which indicates as follows:

"The receipt of the transported items shall extinguish any claim against the carrier for damage or partial loss if, within three days of this receipt, not including public holidays, the recipient has not notified the carrier, by extrajudicial means or registered letter, of its reasoned protest."

The Purchaser must record any reservations, which must be precise, reasoned and in writing, on the carrier's receipt and must inform TG&C without any delay. Without prejudice to the actions to be taken vis-à-vis the carrier, claims regarding apparent defects, missing products or the non-conformity of the products delivered in comparison with the products ordered or the dispatch note, must be made in writing within 15 calendar days¹ following the arrival of the said products. Claims made after this time limit will not be acted upon by TG&C.

It is the responsibility of the Purchaser to provide evidence of the defects or anomalies it has discovered. It must allow TG&C or its representative all opportunities to observe the said defects and to remedy them. The Purchaser shall refrain from acting itself or from causing a third party to act to this end. In the event of apparent defects, missing products, or damage, evidenced

in this way, TG&C's liability is strictly limited to an obligation to replace the said products to the exclusion of all damages. Delivery times are given for information purposes only and cannot be guaranteed in any way. The Purchaser may not rely upon a delayed delivery as a reason to cancel the order, in any event, or to refuse products in the event of a partial delivery, or as a reason to claim damages. Deliveries shall be made in accordance with availability and in the order in which the orders were received.

6.PRICES:

The prices of goods sold are those in force on the agreed date of delivery. They are expressed in Euros (€) ex-VAT for packaged products. They will therefore be increased by the current rate of VAT, the eco-participation* (French recycling tax) or environmental contribution**, as appropriate, and transport costs applicable on the date of the order.

TG&C SAS is entitled to alter its pricelist at any time with a 30 days' notice. Where the price must be altered between registration of the order and delivery, TG&C undertakes to inform the purchaser.

Packaging and presentation referred to in this pricelist are for information only. We reserve the right to alter packaging and presentation units according to our products. Any specific packaging or presentation will be invoiced additionally.

7. REBATES & DISCOUNTS:

Prices in the pricelist are gross. Trade retailers, installers and retailers benefit from a regular discount confirmed by a special terms letter and agreement, this trade discount, taking account of the purchaser's payment for certain services.

There will no discount for early payment.

8.INTERNET:

Should the Purchaser distribute or present TG&C products on the Internet, these activities must be carried out within the strict scope of application of these GTCS and comply with the charters for the distribution of TG&C products on the Internet, which TG&C shall supply to the Purchaser on request. In consequence, the Purchaser undertakes to inform TG&C of all sales of its products on the Internet. A special agreement allowing a purchaser to sell TG&C to a third party doing online distribution will have to be signed.

All promotional operation online for all TG&C products need to be approved by TG&C SAS.

9. PAYMENT TERMS:

(Articles L.441-6 and D.441-5 of the French Commercial Code, French law no. 2001-420 of 15/05/2001 and European Directive no. 2000/35 EC of 29/06/2000).

Initial orders are payable in advance on pro-forma or COD by SEPA bank credit transfer or wire transfer. After the opening of an account confirmed by our financial department, our invoices are payable at 30 days from the end of the month by SEPA direct debit or magnetic direct bill of exchange.

In the event of default in full or partial payment for goods after the due date stated on the invoice, the purchaser shall pay TG&C default interest of 3 times the official interest rate. The official interest rate concerned is that in force on the date of default. This penalty is based on the total, including VAT, of the outstanding sum and runs from the due date for the price without the need for any prior formal notice to pay. In the event of delay in payment, in addition to default interest,

fixed recovery compensation of €40 will be applied. If these costs exceed €40, they may be invoiced on production of supporting documents.

10.TERMINATION:

We formally reserve the right to terminate order agreements in the event of non-payment, even of a single instalment, whatever the impediment or grounds therefor, without such termination preventing TG&C from making a claim under its reservation of ownership clause.

11. RESERVATION OF OWNERSHIP:

Pursuant to the French law of 25/01/1985, as amended by the law of 01/07/1996, TELLIER S.A.S. retains the ownership of the goods sold until full payment of the price, in principal and incidentals. If the purchaser is in receivership or compulsory liquidation, TG&C S.A.S. reserves the right to claim the goods sold and unpaid for, in the collective procedure. As an essential and determining condition of these General Terms and Conditions of Sale, all sales of products to the Purchaser are subject to a retention of title

clause. In consequence, the products delivered shall remain the property of TG&C SAS until payment in full of the whole price and of any incidental items. Failure to make payment on any of the due dates may lead to the goods being reclaimed. The term "payment" is understood to mean the effective receipt by TG&C all sums due.

12. RETURN OF GOODS:

No return is accepted without the prior agreement in writing of TG&C S.A.S. Return requests must be made in writing. No return is accepted carriage due. To be accepted, any merchandise returned must:

- be in its original packaging.
- not have been used.
- be in perfect condition.
- include all the documents provided (notices, etc.).

The costs of return transport are payable by the client. Special orders are not taken back. Wooden articles (cutting boards, spatulas, etc.) are neither taken back nor exchanged. For any return or repossession at the request of the client, a deduction of 25% is applied for management costs. No reconditioning costs can be considered, whatever the grounds for the return.

13. LEGAL WARRANTIES:

In accordance with the SYNEG professional charter, the availability of spare parts that we foresee for a repairable product manufactured in our factories is 10 years from its launch date. The after-sales service of TG&C SAS makes exploded views of its products available to resellers and users to ensure maintenance of the devices. The After-Sales Service of TG&C SAS makes certain recalibration procedures available for resellers and users, in particular concerning professional scales, thus facilitating the repair of devices by the user or the reseller.

TELLIER GOBEL et Cie SAS products sold new in France are guaranteed against any manufacturing or material defect, on presentation of proof for 2 years from the date of purchase. In the event of a longer period indicated on the packaging, the period mentioned on the leaflet or the packaging prevails.

This warranty excludes fragile items made of wood, ceramic, or glass, as well as household appliances, used in the course of a professional activity. Beyond this period, the products can be repaired in our Argenteuil after-sales service workshop, after an estimate has been drawn up by our after-sales service.

The warranty applies, excluding wear parts such as blade, wheel, etc., or consumables, for normal conditions of use and maintenance. It does not include normal wear and tear of the product. This warranty does not cover any damage resulting from:

- shocks, falls, impacts, overload,
- misuse, negligence, non-compliance with the operating instructions, an error in commissioning, cleaning, and maintenance
- the use of non-compatible spare parts or accessories, or unauthorized modification or repair

It also excludes the following cases:

- overheating, prolonged exposure to flame or vacuum
- interior or exterior stains, discolorations, or scratches
- all accidents related to fire, flood, lightning etc ...
- direct or indirect damage due to a surge from a storm or work on the electrical network
- liquid infiltration on the electrical parts
- immersion of an unsuitable product, entry of dust, insects into the product,
- use of unsuitable water or consumables
- scaling (all scaling must be carried out in accordance with the instructions in the user manual)
- damage or malfunctions specifically due to use with a voltage, an electric frequency not in accordance with those specified on the nameplate.

The non-stick coating of Gobel moulds, without Bisphenol A, is guaranteed for 2 years in professional use against the formation of blisters and detachment, except for use in a bain-marie or in a dishwasher, and for use on a direct flame or temperature above 250 °C. Any product manufactured since January the 1st of 2016 includes traceability of the batch of material used and the date of manufacture. Tinplate moulds and appliances are not guaranteed against rust. They should be wiped dry after cleaning by hand. Aluminium articles are not guaranteed against stains or oxidation resulting from use in a bain-marie or in the dishwasher.

This warranty does not apply to packaging or transportation problems during shipment of the product by its owner and / or reseller. The guarantees for the products of the brands of the company TELLIER GOBEL et Cie SAS do not affect the legal rights enjoyed by any consumer locally (in France legal guarantee of conformity referred to in articles L211-4, L211-5 and L221-12 of the code consumption as well as the legal guarantee against hidden defects referred to in articles 1641 to 1649 of the Civil Code), which cannot be excluded or limited, nor the legal rights towards a distributor from whom a product has been purchased.

TELLIER GOBEL et Cie S.A.S. cannot be held responsible for a poor

description of its products by the distributor.

Modalities:

Any return for exchange or repair under the exercise of the warranty requires the prior written consent of TELLIER GOBEL et Cie S.A.S., and communication by the Sales Administration Department of an after-sales file number and a form to be completed.

To be accepted, any returned merchandise must:

- be in its original packaging,
 - include all the documents provided (instructions ...)
 - the after-sales service file number and the after-sales service return form
- The return transport costs are the responsibility of the customer.

14. TREATMENT OF EEEW (Electric and Electronic Equipment Waste):

provision applicable in Metropolitan France and DOM-TOMs :

Pursuant to Decree no. 2005-829 of 20/07/2005 on EEEW completed by Decree no. 2012 - 617 of 2/05/2012 and Decree no.2014 - 928 of 23/8/2014, TELLIER S.A.S. is registered in the French national register of electric and electronic equipment producers (ADEME).

* «Household» EEEW:

Pursuant to changes in the law, small electric and electronic equipment which may be used by households will be subject to EEEW household legislation from 1/01/2015, including in sales between traders: The order dated 8 October 2014, amending that dated 13 July 2006 in application of article 2 of decree no. 2005-829 of 20 July 2005, concerning the composition of electric and electronic equipment and the elimination of such waste, provides: «Without prejudice to article L. 2224-14 of the French General Code for territorial authorities, electric and electronic equipment waste of commercial, industrial, institutional and other origin which, in type and quantity, is similar to that for household use and the waste from such equipment which may be used both by households and other users coming within a category other categories 5 and 11 of article R. 543-172-II of the French Environment Code until 14 August 2018 and, from 15 August 2018, within a category other than categories 3 and 7 of article R. 543-172-II of the French Environment Code, are considered as household electric and electronic equipment waste, within the meaning of article R. 543-173 of the French Environment Code, as from 1 January 2015.»

The distributor is obliged to repossess any used appliance brought by the user on purchasing new equipment or have it repossessed, without charge. The distributor is also obliged to inform consumers of the management cost of the EEEW, stating the amount of the visible contribution clearly on the sales invoice. EEEW contributions for small equipment appearing on this pricelist correspond to the scale in force with the eco-organisation as at 1/01/2015, which may change during the year. We advise you to take note of any change in the scales and the amounts stated on our invoices. Payment of this eco-contribution by the distributor and user enables the eco-organisation to fund end-of-life EEEW by the user bringing it to a collection point or by collecting it (at the user's expense, for a volume below 500 kg or 2.5 m³).

** «Trade» EEEW:

The collection and recycling of EEEW exclusively for trade use (eg. electric tin openers and grinders) for Tellier S.A.S. is handled by VALORESTOPRO, managed by the Ecologic eco-organisation. Ecologic also deal with all the administrative and regulatory requirements (Waste Monitoring form, destruction certificate, etc.). The custodian of trade end-of-life EEEW – whether retailer, installer or user – is obliged to contact the Ecologic Eco organisation: by Internet at www.e-dechet.com or by telephone on +33 (0) 1 30 57 79 14, to organise its treatment, by the custodian bringing it to an Ecologic collection point or by collecting it (at the custodian's expense, for a volume below 500 kg or 2.5 m³). The distributor is obliged to inform trade users and custodians of EEE, by any appropriate means, of the collection and treatment of EEEW arranged by Tellier S.A.S. (article R. 543-195 III of the French Environment Code). A user or custodian discharging trade EEE, not requiring the collection and treatment arranged, is obliged to provide ADEME and the producer of the EEE with the information required for observation and treatment of this EEEW. (Decree no. 2014-928 of 19 August 2014 - article R. 543-199). The management cost of trade EEEW is met through an environmental contribution shown on this pricelist.

15. FORCE MAJEURE:

Tellier Gobel & Cie SAS shall not be liable for the non- or delayed performance of any of its obligations described in these Sale Terms & Conditions caused by an event of force majeure. For this purpose, force majeure means any external, unforeseeable, and irresistible event within the meaning of article 1148 of the French Civil Code.

16. JURISDICTION:

The contract of sale is governed by French law. All disputes relating to this sale, even in the event of a warranty claim or a plurality of defendants, shall, if the parties are unable to reach an amicable agreement, fall within the exclusive jurisdiction of the court in whose geographical jurisdiction Tellier Gobel & Cie SAS's address for service is located. The dispute shall be brought therefore the Commercial Court of Pontoise (FRANCE).
