NEW PRODUCT!

GLACIER DC

The Glacier DC has been designed for Australian conditions with modern aesthetics in mind to compliment any decor. Uncompromising in design, the aero-dynamic blades provide high airflow, comfort and whisper quiet operation.

1. Environmentally Friendly

Using up to 75% less energy than a traditional AC fan, the Glacier DC is cost effective, environmentally friendly option to help reduce your carbon footprint.

2. Whisper Quiet

The DC motor also produces less noise, resulting in quieter fan operation. Particularly beneficial in bedrooms and other quiet spaces.

3. All Year Round

The reversible motor helps distribute air evenly all year round and the variable speed remote control (included) offers a range of setting to suit your comfort.

ENERGY SAVING DC

Intelligent energy saving DC technology

High airflow capacity

Low noise levels - ideal for bedrooms

In built anti-vibration system

Reversible direction ideal for gentle heat circulation in winter

Glass fibre composite blades for added strength and durability

Quick click blade assembly

Skyfan^{DC}

The future in fans

THE FUTURE IN FANS HAS ARRIVED

A beautifully crafted range of fans which uses ultra-silent DC motor technology and aerodynamic blade design to create exceptional levels of both energy efficiency, and performance.

Green Facts

- Amazing running costs of approximately 1 cent per fan per night - Based on 8 hours usage, ECO speed (5.4w) and electricity cost of \$0.30 per kWh.
- Reduce your carbon footprint, and save hundreds by reducing air conditioning usage

DC 3 BLADE CEILING FAN

Three fundamental objectives were the inspiration behind this latest addition to the Skyfan DC family

1. Value

Market leading DC fan prices

2. Performance

Market leading 'air volume' per 'watt' performance ratios translates to superior energy efficiency

3. Style

Designed to compliment any decor, also available with stylish and functional wall controller options

ENERGY SAVING DC

Intelligent energy saving DC technology

Quick click blade assembly

SPYDA

ULTIMATE ENERGY EFFICIENCY

- **Spyda EC** - This slimline version of the iconic Spyda Fan offers the perfect combination of style, performance and energy efficiency
- **EC vs AC/DC** - The unique EC (electronically commutated) brush-less motor uses up to 75% less power than a comparable AC fan and is considered a 'step up' from existing DC technology
- **Durable** - EC motors run at much lower temperatures than traditional motors and can operate continuously even in harsh tropical conditions
