PVC SLATWALL

Modular system for storage, organization and display solutions.

Our PVC Slatwall is perfect for either retail stores, homes or workspaces.

Its modular design makes it simple to install and to be reconfigured at any time. It can be easily cut to size and arranged to fit any space and storage needs.

It's compatible with accessories from any standard slatwall hanging system with 3" slats: hooks, bins, baskets, shelves, brackets, tool holders, racks, and many more.

Say goodbye to clutter.

Organize your garage, basement, mudroom, craft room, playroom, laundry room, home gym, kitchen, retail store, store display, workshop, office, restaurant, factory... You name it.

GROOVEPRO

Versatile:

It can be easily cut to size and arranged to fit any space and storage needs. It can be installed in one section or complete wall and even around corners. With the use of our trims, you can have consistent or seamless looks.

It's compatible with accessories from any standard slatwall hanging system with 3" slats. It allows a flexible layout that easily adapts to changing storage needs over time. Accessories can be reconfigured at will.

Easy to install:

Our PVC Slatwall can be easily cut to size with a power tool. To install it, just screw it directly to wood studs, through drywall to wood studs or into concrete and brick.

Each piece has a tongue and groove. Start from the bottom and interlock one with another. Finish your installation with our trims to have the desired look.

Download our complete installation guide for reference.

Easy to Clean:

Just wipe down. Use a damp cloth and clean dirt, marks, or stains.

Long-lasting:

The PVC formulation of our PVC Slatwall is rich in additives. It won't crack. Color won't fade or wear off over time. Scratches will be less noticeable since the color throughout the thickness of the product.

Water and moisture resistant:

By its nature, PVC is water resistant. Our PVC Slatwall can be hosed down with a water hose. It can be installed in humid environments, and even in marine environments.

Unlike pressboard slatwalls, ours won't absorb moisture, rot, rust and disintegrate or fall apart. It won't support the growth of mold, mildew, or bacteria and it won't be affected by insects or plagues either.

Fire resistant:

PVC is an inherently flame retardant material. It won't light up with fire.

Non Toxic:

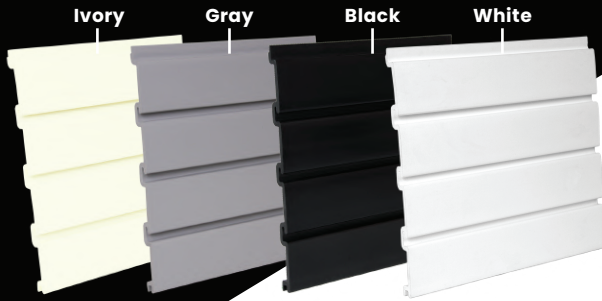

Lead free, Phtalates and plasticizer free, formaldehyde free and BPA free

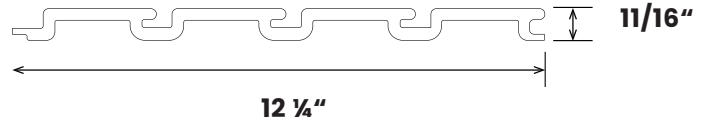

Environment-friendly:

Our PVC Slatwall is made with up to 30% of recycled materials and is 100% recyclable.
