

HydraTarp® 16 Mil Super Heavy Duty Tarp

DON'T WORRY - WE'VE GOT YOU COVERED!

Rugged Reversible Waterproof Design

Not your typical tarp -- HydraTarps are built to last

We don't cut corners, all HydraTarps are produced with higher cost virgin material. We stay away from cost reduced recycled materials to provide our customers with a product designed to last for many years!

About Watershed Innovations

Watershed Innovations was founded in 2008 with the goal of creating user-friendly products that protect valuable property and land from water damage. Our customers include construction companies, agricultural entities, manufacturing facilities, premiere hotels, the military, and other organizations that have large-scale water protection needs.

No Compromises - We built this HydraTarp as if we will be using it ourselves

Double Reinforced Corners

The corner of a tarp is the most vulnerable section. Instead of fitting a small rubber piece to the corners, we sew an extra layer of material to each corner adding significant strength.

Thick Rope Along Edges

We heat seal a thick nylon rope along all the edges of our tarps. This minimizes tarp shearing and tearing as the material wears and adds significant overall strength to the covering.

Corrosive Free Strong Grommets Spaced Every 18"

HydraTarps have hardened Grommets spaced at 18" intervals (instead of 24" spacing), the additional grommets provide additional tie down options and spread the stress over a greater area allowing less stress per grommet.

Waterproof and Reversible

HydraTarp Super Heavy Duty tarps are designed for general purpose use and are manufactured with industrial grade materials that are built to last.

Material Specifications

Weight - 8oz per Sq Yd.
 Thickness - 16 Mil
 Cross Weave 14 x 14
 Color - Reversible White/Brown

The HydraTarp Difference

- Double reinforced corners
- Thick Rope Heat Sealed in Edges
- Hardened Brass Grommets every 18"
- UV Protection on both sides
- 100% Waterproof

16 Mil HydraTarps are Great for Protection from the Elements

Not All Tarps are Created Equal -- Tired of Changing Out Your Tarps Every Year?

Perfect for Roofs!

Need coverage for a thinning or "holy" roof? Say goodbye to disintegrating tarps and get ready for a real tarp that will last for many seasons.

Full Vehicle Coverage

Keep your vehicles undercover and protected throughout the seasons! HydraTarp covers vans, campers, RVs, motorcycles, boats and more when the are not in use!

Keep your Pool Clean!

This waterproof, reversible Tarp can be installed with either the White or Brown side facing up. This tarp protects pools from the elements and keeps your swimming area clean!

And many more uses for your home and property!
