

HydraBallast™ Datasheet

The HydraBallast™ product from Watershed Innovations® offers instant weight on demand. Simply fill with water for a 40 pound weight when and where you need it. HydraBallast provides a portable, reusable, and eco-friendly solution for adding stability where needed.

HydraBallast Applications

HydraBallasts store flat and provide a portable solution for weighing things down. Simply fill with water and HydraBallast can be used to hold down objects that need to be held down - from wedding tents to pool covers to more. With its white color, HydraBallast blends in and is non-intrusive. A reinforced handle allows HydraBallasts to be hung indefinitely. Other HydraBallast applications include providing weight for load testing, augmenting HydraBarriers®, or storing emergency water for showering and washing.

HydraBallast Technical Information

Table 1 - HydraBallast Standard Specifications and Order Information

Family Name	Part Number	Base Width (filled)	Base Length (filled)	Height (filled)	Dry Weight	Material	Material Thickness
HydraBallast	HBLST-05	10 in	15 in	10 in	1 lbs	PVC Tarpaulin	20 mil

Table 2 - HydraBallast Recommended Operating and Storage Conditions

Parameter	Parameter Range (recommended)
Operating Temperature	0°F to 120°F
