

# ACTIVGRIP

## ACTIVGRIP 569 NITRILE DOUBLE FULL DIP GLOVE

AG569

Towa ActivGrip AG569, maximum all-round performance in slippery-grip and non-hazardous chemical applications

Nitrile double full dip with MICROFINISH™

Excellent combination of strength and dexterity

High performance in both dry and wet conditions

Towa's patented MICROFINISH™ palm coating offers the best grip in the industry!

Coating: double layer nitrile gives 360 degree protection

13-gauge nylon liner

Sizes 8-11

### PERFORMANCE FEATURES

Covered Backhand & Fingers

- + In addition to the palm, ActivGrip™ AG569 is fully coated on the back of the hand and all fingers, creating more protection against multiple hazards—soil, dirt, and oil.

Oil Resistant Protection

- + ActivGrip™ AG569 is coated with a double layer nitrile formula, allowing more resistance against liquid penetration while keeping its unparalleled grip with MicroFinish®

Grip Performance

- + With Towa's original MicroFinish® technology, ActivGrip™ AG569 promises the best grip in the market in both dry and oily situations. With MicroFinish®, the user requires less force to hold objects, resulting in less fatigue on the hands.

Comfort

- + Towa's original former used for ActivGrip™ AG569 is ergonomically designed, assuring maximum comfort and maximum hand fatigue.

### COLOUR

- + Black/Purple

### SUITABLE FOR

- + Automotive
- + Engineering
- + Maintenance
- + Oily material handling
- + Cartage/freight
- + Concrete
- + Brickwork/paving
