2021 Donations That Made A Difference

Every year, Renee's Garden donates seeds to a wide variety of organizations and educational programs worldwide that strive to improve social, economic and health conditions, and promote sustainable organic gardening. We also encourage retailers to donate unsold Renee's Garden seeds to local nonprofit organizations at the end of the season. We are pleased to share just a few successful outcomes from among the many reports we received...

The Garden Project Bath, MI

"The Garden Project, a program of the Greater Lansing Food Bank, supports over 100 community gardeners and around 600 low-income home gardeners helping them break down barriers to growing nutritious food and working together to build stronger communities. The program starts and distributes transplants to gardeners around Greater Lansing, MI. The program is highly dependent on donations and Renee's has been a great partner for many years."

Lower Columbia School Gardens, Longview, WA

"Lower Columbia School Gardens empowers our community by connecting kids and families with real food and hands-on learning. Through dynamic garden and cooking programs, we cultivate health, equity, life-long learning, and stewardship of the world around us. Our team now works with 19 elementary and middle schools where our staff and volunteers garden and cook with hundreds of kids every week."
