

# ✧ Renee's Garden ✧

Your Garden To Table Seed Company

*Extend Your Growing Season Into Fall!*

Heat loving vegetables such as tomatoes, peppers, summer squash and eggplant are winding down as fall weather approaches. But there are plenty of tasty, super nutritious leafy greens and crispy roots to plant from seed that are invigorated by the sunny days of late September and early October.

*Here's a list of what to grow:*

## *Fall Planting List for Mild Winter Climates*

*(Where the ground does not freeze hard.)*
