 7'x30' Solid White Side = \$40.00
 8'x10' Stillwater/Sailcloth Side = \$50.00

Elite are styles of pole tents with superior weather performance. While easiest to put up on grass, they may be installed on a parking lot or gravel if permission is granted to stake through those surfaces. Center poles hold up the interior areas of the tent and gives the tents a more dramatic height than frame tents or clearspan structures. Pole tents are less expensive per square foot than similar width frame tents or clearspan structures. We are happy to provide a CAD layout for you of your tent with the items you are thinking about putting under it (tables, chairs, dancefloor, etc) to make sure you have the best possible fit for your event. We also provide site checks at no cost to ensure that your space is big enough to accommodate the tent you want. Please call to set up a site check with us! 616-392-8539 For all tent set ups, it is important that you call MISS DIG several days prior to our arrival 1-800-MISSDIG
