

Tsurumi 50PNI2 Auto Submersible Drainage Pump

Perfect for sewage and draining, the 50PNI2 are manufactured by Tsurumi Pump, they come with GFRP (Glass fiber-reinforced polymer, vortex impellers, and a Silicon carbide shaft seal.

The floats are bell shaped and small, which make these pumps suited to applications where a sump is narrow, that require precise level control or where a traditional pendant type float's operation could be fouled.

Both main models of pumps in this range are the 50PNI2.45(A) and the 50PNI2.755(A).

Optional item: auto-coupling TOK4-P (motor sizes 0.40kW to 0.75kW)

Suitable for:

- Basement flooding
- Sumps
- Domestic
- Utilities
- Processing

Model	50PNI2.4S(A)	50PNI2.75S(A)
Manual or Auto	А	А
Outlet (BSPF)	2"	2"
kW	0.40	0.75
Volt	230	230
Flow Ltr/ min	280	340
Head/ m	12	15.5
free passage (mm)	10	10
W x L x H (mm)	246 x 241 x 380	246 x 241 x 380
On level * (mm)	325	345
Off level * (mm)	110	110
Weight/ Kg	7.4	9.5
