## APP KHL-20 Submersible Water Pump

The APP KHL-20 pump has a rugged cast iron pump body and vortex impeller, combined with a corrosion resistant 304 stainless steel motor casing.

It has a stainless-steel shaft that is fitted with a double mechanical (pump side: silicon carbide, motor side: carbon ceramic).

The powerful motor has an internal starting capacitor and a motor protector. Suitable for the pumping of clean and dirty water, it is suitable for a variety of industrial applications. It has a high head of 25m, with a 50mm outlet.

The pump is available as a manual or automatic 230V pump, or a manual 400V 3-phase model.

It is ideal for processing, dewatering, irrigation, water features and fixed installations.

Maximum depth of immersion is 6 metres. Supplied with 10 metres of heavy duty rubber power cable. Supplied complete with a 2-year warranty.
