

FPS PUMPS

Umbra Pompe Eurojet Submersible Well Borehole Pumps

Umbra Pompe have made the Eurojet multi-stage pump for use solely with a clean water supply. It is made with a 304 stainless steel delivery housing and motor jacket. Used in both industrial and domestic applications, it has been heavily utilised in potable and processing water, along with being the ideal pump for irrigation, spraying, garden, industry and agriculture.

The shaft of the Eurojet pump is made from 420 stainless steel and it is fitted with a singular mechanical seal. One of the significant advantages of the Eurojet pump is its simplicity and ease of installation. It is delivered with a motor protector and an integral starting capacitor. This pump comes with, or without a float switch.

The Eurojet pump comes with 20m of heavy-duty rubber cable, there is the option to upgrade to a 30m cable if this is needed.

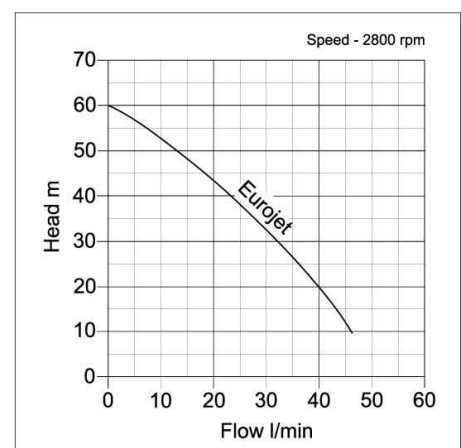

There is also the optional extra of a sand filter made from stainless steel. This addition will help to prevent damage to the pump if you are intending to use any abrasive liquids.

Model	TD200	TD300
Inlet/ mm	50	80
Outlet/ mm	50	80
Engine	GX120	GX160
Flow ltr/m	120	240
Fuel	Petrol	Petrol
HP	4	5.5
Oil Alert	Yes	Yes
Head/ m	17	18
Free Passage/ mm	30	30
W x L x H/ mm	610x620x510	740x660x510
Weight/ Kg	39	46

Suitable for:

- Irrigation
- Garden spraying
- Industry
- Processing water
- Agriculture

Optional Extra	Site trolley 5.5
Optional Extra	50mm Quick release coupling kit (2x Part C, 2x Part A, 3x heavy duty hose)
Optional Extra	80mm Quick release coupling kit (2x Part C, 2x Part A, 3x heavy duty hose)
