RECHARGING YOUR JET FAN

- Fully charge your jet fan before first of use.
- Always turn off the jet fan before charging.
- Insert one end of the provided USB C to USB A cable into the USB C port on the Jet fan, and the other end into a DC adapter with an USB A output.
- The red charging indicator light will flash when the battery capacity is low.
- The red charging indicator light will remain solid when the battery is recharging.
- The charging indicator light will become green and remain on after the battery is fully charged.
- The charging time is about 3 hours.

Notes:
- The maximum charging input on the unit is 9V/2A 18W Max.
- The unit is only compatible with a USB C to USB A cable.
- The unit cannot work while charging.
- It's not recommended to charge the unit while the ambient temperature is over 40 degrees.

USING YOUR JET FAN

Turn On: Press and hold the power control button for 3 seconds to turn on the jet fan.

Change Speed: Short press the power control button to cycle through the 3 speed levels.

Speed Control: Short press the speed control button to turn each speed level on or off.

Turn Off: Press and hold the power button for 3 seconds to turn off the jet fan.

Auto Shut-Off: The jet fan will automatically turn off after 5 minutes of inactivity to conserve battery power.

STORING YOUR JET FAN

- Ensure your jet fan is turned off.
- Store the jet fan in the provided storage bag, designed to be tough and durable for optimal protection.
- Keep the bag in a cool, dry place away from direct sunlight.
