

DIRECT MOP SALES, INC.

PRODUCT CATALOG

9-1-22

FREE SHIPPING ON ORDERS OVER \$100

FAST SHIPPING

Virtually all orders ship within 24 business hours. Orders over \$100 ship free.

PRICE

Our industry-leading pricing continues to provide savings for companies of all sizes.

BULK CASE DISCOUNTS

We offer three pricing tiers. Individual Units, Bulk Cases, and Wholesale Pallets.

NO ORDER MINIMUMS

Our system provides the flexibility for you to purchase in quantities that make sense for your system.

CUSTOMER SERVICE

We work hard to earn your business and harder to keep it. With 35+ years of industry knowledge.

Welcome to Direct Mop Sales, Inc.

DMSI is a distribution partnership between the owners of DMSI and several offshore manufacturing companies. After nearly 30 years in the mop manufacturing industry, the owners of DMSI faced the exodus of the textile industry from the U.S. they partnered offshore with several manufacturing operations to produce industrial cleaning products. The necessity to go offshore to produce mops and other cleaning products has hit nearly every mop manufacturing company in the United States, including the most prominent brand name companies. Mop companies in the U.S. used to be manufacturers; now, they are importers and distributors for the most part.

We are centrally located in the United States, allowing efficient and cost-effective distribution of our products anywhere in the country. We hope you will take a little time to evaluate our company and policies. You will find that we are easy to do business with, and our product offering will provide you with the best products at the lowest possible costs. We appreciate your interest, and we look forward to serving your needs.

DMSI Standard Operating Policies

PRODUCT WARRANTY:

All DMSI products are warranted against manufacturing defects and premature wear when used in standard operating and processing conditions.

PREPAID FREIGHT POLICY:

All standard published pricing from DMSI includes our company paying freight costs to get the product to your door if the destination is within the contiguous 48 states of the continental U.S. DMSI will not be responsible for additional transportation charges assessed for special delivery requirements.

MINIMUM ORDER POLICY:

We will accept orders of any size. Any order over \$100 will receive free shipping, while orders below \$100 will have a \$15.00 shipping and handling fee added to help cover transportation costs.

PACKAGING STANDARDS:

The standard packaging for our products is one dozen units per carton unless specifically noted otherwise. There is no additional cost for orders in less than full case quantities. With our low minimum order amount and allowance for broken case orders, DMSI reserves the right to package all orders in a manner that promotes the lowest possible freight costs.

RETURNED GOODS POLICY:

Any unused product may be returned for credit if it is shipped prepaid freight to DMSI within 30 days of the original purchase date. Returned merchandise will be subject to a credit reduction for the initial freight costs to ship the product to a customer's facility.

PAYMENT POLICY:

All orders sold without established credit accounts will require payment before shipment by either credit card or PayPal. Accepted credit cards are American Express, Discover, Master Card, and Visa. Credit terms are Net 30 days for established accounts, and interest of 1.5% per month shall be charged on all past due accounts. Please use our standard credit application to apply for credit, which can be found on our website under the company policy section.

SHIPPING STANDARDS:

We offer a broad line of standard colors, sizes, and styles of mop-related products. Standard stock items are shown in our company catalog and website. We ship nearly all orders for standard products within 24 hours of receiving your order for standard products. Orders for non-stock colors, sizes, and styles, as well as custom manufactured items, require a 3-5 day lead time for processing. We will attempt to alert purchasers of any potential delay in meeting these shipping standards.

GENERAL POLICY:

All orders are subject to approval by DMSI. Prices and policies are subject to change without notice. DMSI will post all changes to prices and policies on the company website.

Pricing Options from Direct Mop Sales, Inc.

Direct Mop Sales is known for providing the lowest pricing, the fastest service, and the highest quality products in the mop industry. This reputation is well deserved as we always strive to offer new innovative products at the lowest possible prices. We can achieve this goal by providing volume-based pricing options on our entire line of high-quality products. Throughout this product catalog, you will find multiple pricing options for most items. Each pricing column is explained here, as well as each pricing option's position on our different online websites.

www.directmopsales.com and www.dmsipo.com

www.directmopsales.com is our primary service website for all customers purchasing via a credit card or PayPal payment. www.dmsipo.com is open for customers who have established credit accounts with us and purchase with credit terms. Both sites offer the same pricing, and there are two pricing options on each site. Both are represented in this catalog as follows:

INDIVIDUAL UNIT PRICE COLUMN: These represent purchases of any single item by the individual quantity. This option allows low-volume customers to purchase from us in small volumes and still see significant savings compared to the market. Transportation costs are paid by us for this option when orders are \$100 or more.

BULK CASE PRICE COLUMN: These prices represent bulk packaging of products into quantities for shipping, reducing costs, and providing additional efficiencies to service. There are considerable savings compared to individual unit prices when purchasing in this method. Transportation costs are paid by us for this option when orders are \$100 or more.

www.dmsiwholesale.com

PALLET PRICE COLUMN: Our wholesale service site is an extension of DMSI and set up to provide additional savings for larger orders. There is a 36 case minimum order requirement to access these lower prices. The 36 case minimum can be comprised of any number of the different bulk case products we offer, as long as the order total meets the minimum of 36 cases per transaction. The savings on this service site are significant and possibly the lowest prices in the mop industry to any high-volume level buyer. We always pay transportation charges for orders placed with pallet pricing to anywhere in the contiguous 48 states of the continental United States.

Dust Mops

DUST MOPS

CLOSED-LOOP HEAVY DUTY INDUSTRIAL LAUNDRY

- Industrial laundry-grade closed-loop yarn is designed for superior performance and durability.
- Colored mops contain a synthetic yarn blend, and white mops contain a cotton yarn blend.
- These closed-loop mop yarns allow for repeated laundering without wear.
- This yarn will reduce the fire hazards associated with the drying of cut-end cotton yarns.
- Efficiency in washing and drying these dust mops will be half of what most other mops require.
- Superior dust pick-up and retention without the need for mop treatments.
- Netting is not required for laundering this mop.

DUST MOPS

MICROFIBER INDUSTRIAL CLOSED-LOOP

- One of the most durable, energy-efficient dust mop products you will ever find.
- 80/20 blend microfiber yarn containing loops that are twisted closed for maximum dirt and dust pick up and retention and more durability.
- Industrial closed-loop microfiber combined with heat-set backing offers more durability than anything else out there.
- Twisted closed-loop microfiber design allows more surface area to hold more dirt and dust.
- Fits standard wire dust mop frames.

Dust Mop Hardware

DUST MOP HARDWARE HANDLES

- Handle clips are produced with the heaviest metal in the industry for trouble-free service life.
- Aluminum handle is our strongest and lightest option and can be extended from 47" - 77".
- Fiberglass handles are available in multiple colors for color-coded cleaning.

DUST MOP HARDWARE FRAMES

- All dust mop frames are heavy steel wire with a corrosion-resistant coating.
- These frames are sized 5" wide for standard dust mops.

DUST MOPS FLAT FINISH

- Constructed with 100% continuous filament nylon yarn to prevent linting.
- Designed in standard dust mop sizes to allow traditional dust mop handles and frames.
- Applying finish with these mops allows the finish to be applied faster and more evenly.

Wet Mops

WET MOPS - LOOPED-END INDUSTRIAL LAUNDRY ANTIMICROBIAL

- Made using a premium bacteria-resistance yarn blend for superior laundry life.
- Provides a 50% reduction in drying time compared to blended cotton mops, along with increased chemical resistance.
- Double tail bands for wide surface span and even coverage.
- Heavy fabric headbands will reduce wear and add scrubbing without damaging the floor finish.

Wet Mops

WET MOPS - LOOPED-END GENERAL PURPOSE - RAYON

- Rayon blended yarns are superior in absorbency and do not require a break-in period.
- Rayon yarn is also more bleach-resistant and mildew resistant than cotton yarns.
- Produced with 100% long-staple synthetic fibers and can be laundered repeatedly without netting in this looped-end style.
- Rayon mop yarn is produced from fiber reprocessed from plastic reclamation, making it an excellent choice if you have an eco-friendly cleaning program.
- Looped-end rayon yarn can be used effectively for all wet mopping applications, including wax applications.

Finish Mops

- We offer two different styles of professional finish mops
- Our Nylon finish mop is constructed with 100% continuous filament nylon yarn so that there is no fiber lint left in the finish. Designed for the professional user, these mops reduce fatigue, save wasted finish and leave a smooth, even appearance.
- Our Blue/White Rayon finish mop carries the same high quality as our standard 100% synthetic rayon mops and includes blue stripes for identification purposes. This blue/white striped finish mop is the cleaning industry's primary product for applying floor finish.

WET MOP HARDWARE BUCKET AND WRINGER

- This bucket and wringer combination set is molded from 100% polypropylene and is extremely tough. Don't settle for a lower-quality plastic that will crack and break with regular use.
- This bucket can hold up to 32 quarts of water or cleaning solution, and the side press wringer provides plenty of space for the biggest of mop heads for maximum versatility with your cleaning tools.
- 3" non-marking casters push into the sleeve to keep them locked in, so you never have to worry about losing a wheel.
- The bright yellow color and identifiers on both sides make this bucket the perfect option for commercial use.

WET MOP HARDWARE WET FLOOR SIGNS

- Our bright yellow plastic standard A-Frame collapsing wet floor sign is imprinted on both sides. This is a great safety tool, with liability concerns always being so important. This sign is lightweight and great for easy storage.
- Our hi-visibility safety cone is collapsible for easy storage and transportation. It can be folded up and banded with the sewn-in hook and loop fastener strap quickly, like an umbrella. Once the strap is removed, the 3-leg design pops out, automatically setting itself upright. 20" Length fits easily on a janitor's cart and easily catches attention when in use.

MICROFIBER CLEANING MITTS

- This hand mitt is produced with the same 80/20 Microfiber blend as our other products, offering superior split fiber performance compared to other microfiber products.
- These mitts assist with faster cleaning and better results because the Microfiber material will pick up and hold dirt and dust like a magnet when used wet or dry.
- Although this cleaning mitt is designed for professional maids and cleaning services, it is also an excellent choice for auto cleaning or for general use around the house.
- This is an excellent cleaning tool for all types of surfaces, including finished wood, glass, metal, and tile.
